How To Use This Catalogue

You can find the parts that you need in several ways: 1 - 2 - 3

1 If you know the type of machine e.g. Lawnmower and the make eg. Briggs & Stratton and also the category which the part falls into e.g. Air Filter you can use the Indexes or Contents pages to find that section of the catalogue, then read the fitment application information on the part to find the one that you require.

2 If you know the GA Part Number simply use the GA Part number index, which is colour coded red towards the back of the catalogue, to find the page it is listed on.

3 If you know the OEM Part Number use the OEM Part Number Index, which is colour coded yellow towards the back of the catalogue, to find the corresponding GA number and the page number listed.

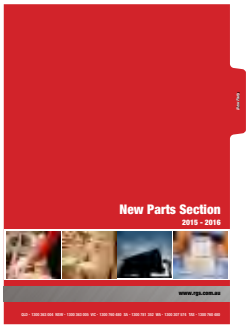
1

Indexes:

At the start of each major section there is an Index which covers the specific parts for that section, we also have a general index at the front and the back of the catalogue covering all products.

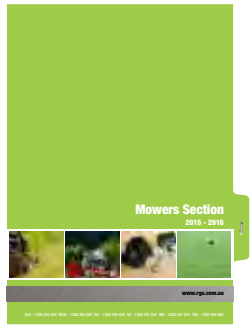
This catalogue is arranged into the following major sections which are colour coded with tabs for ease of use:
Parts are arranged within each major section in GA part number alpha-numeric order.

A - Z Index

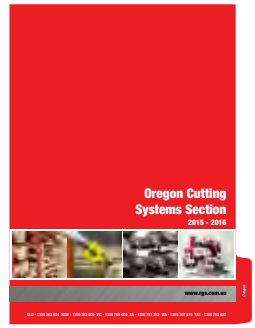


New Parts Section

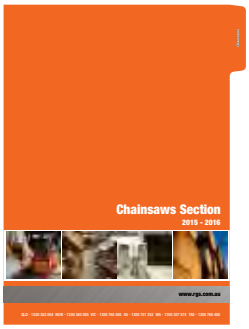
Illustrated Parts Lists



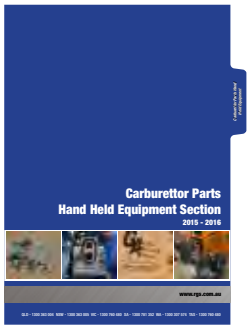
Mowers Section



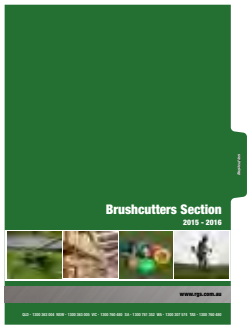
Oregon Cutting Systems Section



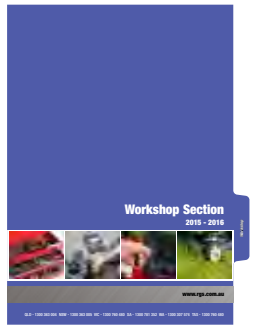
Chainsaw Section



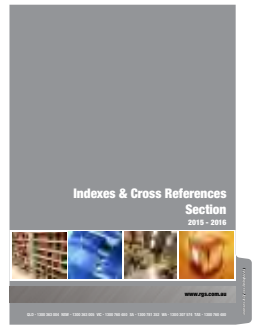
Carburettor Parts Hand Held Equipment Section



Brushcutter Section



Workshop Section



Indexes & Cross References Section

Quick Reference Charts and Other Indexes:

Featured at the back of the catalogue are several colour coded comprehensive and time saving quick reference charts and additional indexes consisting of:

Quick Reference Pages

Including Blades by Length, Briggs & Stratton Quick Reference and Imperial to Metric Conversion Charts

3

OEM Number Index

If you know the OEM Part Number simply use the OEM Part number index to find the page it is listed on.

2

GA Part Number Index

If you know the GA Part Number simply use the GA Part number index to find the page it is listed on.

1

General Index

Please remember:

Should you at any time require more assistance our friendly and fully industry trained phone sales staff are available to take your call, for convenience the phone numbers for each of our six warehouses are printed on the bottom of every page.

Thank you for choosing to use GA Power Equipment Spares Proudly Australian Owned - Australian Sourced where possible.

ADV – ADHESIVES / HAND CLEANERS / LUBRICANTS

ADV7725

9 316596 094233

ThreeBond 1207B Black Liquid Gasket 100 gram Tube
Designed specifically as liquid gasket for flange surfaces which must resist extreme vibrations, eg. rocker covers, sumps, water pumps etc.
ThreeBond 1207B is a single component, solvent free and non-acid liquid gasket based on RTV (Room Temperature Vulcanizing) silicone with low odour emmision. Within a very short time it forms a rubber-like highly elastic gasket completely adapted to the surface structure of the flange facing.
Features:
- Extremely fast curing.
- Excellent adhesion even to slightly contaminated surfaces.
- Excellent chemical resistance against coolants and engine oil.
- Acceleration of the curing process by heat and contact with the medium.
- Normal disassembly.
- Outstanding mechanical and thermal resistance.
- No shrinkage and no generation of corrosive gasses.

Standard Pack 1

NEW

ADV7723

9 316596 094226

ThreeBond Pando 391D Aerosol Gasket Remover 420 ml can.
A powerful aerosol type gasket remover that quickly and easily strips off liquid gasket, packing and sealing compounds and loosens baked on solid gaskets, greatly reducing time labour and effort required. Also ideal for stripping off burnt oil or carbon.
- ThreeBond Pando 391D does not attack metal, stone, glass or wood.
- DO NOT spray onto plastic or rubber as these items may swell up or disolve!

Directions for Use
1. Shake can thoroughly before use.
2. Before spraying cover all surrounding areas that you do not want to be affected with newspaper, only the gasket surface to be cleaned should be exposed.
3. Wear protective glasses.
4. Spray an appropriate quantity of gasket remover onto the surface you wish to be cleaned.
5. The old gasket material will swell and soften in 5 to 10 minutes. Then remove it with a scraper, etc.

Standard Pack 1

NEW

ADV – ULTRASONIC CLEANING FLUID

ADV7774

9 316596 094905

GA Sonic Blue Premium Quality Ultrasonic Cleaning Fluid 1 Litre Bottle
Suitable for use in light engine / small engine ultrasonic cleaners and ideal for cleaning aluminium carburettors.
Mixing Ratio 10:1 (Mix ten parts water with one part GA Sonic Blue Ultrasonic Cleaning fluid.)
Please Note: for cleaning aluminium components run in ultrasonic cleaner for 20 minutes **DO NOT soak overnight!**
Made in Australia.
Standard Pack 1 Bottle
(Box Qty 12 Bottles)

NEW

ADV7776

9 316596 094912

GA Sonic Blue Premium Quality Ultrasonic Cleaning Fluid 5 Litre Container
Suitable for use in light engine / small engine ultrasonic cleaners and ideal for cleaning aluminium carburettors.
Mixing Ratio 10:1 (Mix ten parts water with one part GA Sonic Blue Ultrasonic Cleaning fluid.)
Please Note: for cleaning aluminium components run in ultrasonic cleaner for 20 minutes **DO NOT soak overnight!**
Made in Australia.
Standard Pack 1 Container
(Box Qty 4 Containers)

AIR - AIR FILTERS

AIR7643

9316596092369

PJ1 Fabric Air Filter Oil Spray
Ideal for new and cleaned filters which must be oiled before use, to ensure proper filtering performance.
Maximises Filter Efficiency
- Fast Penetration
- Traps Dust, Sand and Dirt
- Water Repelling
- Easy To Use, No Waste

Net Weight: 15oz (425.3g)
Standard Pack 1 Can

NEW

BRIGGS & STRATTON

AIR7659

9316596092918

Briggs & Stratton Foam Pre-filter
Fits: 31E877, 31L777, 31M977, 31Q677, 31Q777, 331707, 331777, 331807, 331877, 33M677, 33M777 engine models.
Replaces OEM: 793685
Standard Pack 1

Use with our AIR7428 non-genuine or BRI793569 Genuine Briggs & Stratton cylinder type air filter.

Use with our AIR6281 [FAB1] or AIR7643 [PJ1] air filter oil spray.

NEW

AIR7707

9316596093267

Briggs & Stratton Cylinder Type Air Filter
Fits: Intek 15.5hp - 19.5hp engines including selected 31A507, 31A607, 31A677, 31A707, 31C707, 31E577, 31E607, 31E677, 31E777, 31G707, 31G777, 31N607, 31N707, 31P607, 31P677, 31P707, 31P777 model series.
O.D: 3 1/32" (77 mm)
I.D: 1 1/2" (38 mm)
Height: 4 15/16" (125 mm)
Replaces OEM: 796031
Standard Pack 1

NEW

AIR7745

9316596094554

Briggs & Stratton Pre-filter
Fits: 110000, 120000 series 775, 850/875. Fits DOV engines including: 111P02, 111P05, 112P02, 112P05, 11P902, 11P905, 11P907, 121Q12, 121R02, 121R05, 121S02, 121S07, 121S12, 121S72, 121S75, 121S77, 122Q02, 122Q72, 122R02, 122S02, 12Q902, 12Q907, 12Q912, 12Q972, 12R902, 12R907, 12S902, 12S905, 12S907, 12S912, 12S972, 12S975, 12S977, 14B907 engine models.
Replaces OEM: 796254
Standard Pack 1

Use with our AIR7518 Air Filter

NEW

AIR7792

9316596095827

Briggs & Stratton Cylinder Shaped Air Filter
Fits: 215802, 215807, 215872, 215877, 217802, 217807, 217902, 217907, 217972, 217976, 217977, 219802, 219806, 219807, 219872, 219902, 219906, 219907, 219972, 219977, 21B807, 21B902, 21B906, 21B907, 21B972, 21B976, 21B977, 21D807 engine models.
I.D: 1 1/2" (38.1 mm)
O.D: 3" (76.2 mm)
Height: 4" (101.6 mm)
Replaces OEM: 796032
Standard Pack 1

NEW

AIR7856

9316596097425

Briggs & Stratton Cartridge Air Filter
Fits: Selected 140cc OHV E Series engines including 550EX, 093J02, 09P702 engine models when fitted with a paper cartridge type air filter.
Length: 4 3/8" (111 mm)
Width: 2 5/8" (66 mm)
Height: 1 1/4" (32 mm)
Replaces OEM: 798452
Standard Pack 1

NEW

AIR7867

9316596097760

Briggs & Stratton Foam Air Filter
Fits: Selected 125cc and 140cc OHV E Series engines including 450E and 500E, 08P502, 09P602, 09P702 when fitted with foam type air filters.
Length: 1 1/4" (31.75 mm)
Width: 3 1/4" (82.55 mm)
Height: 7/8" (22.22 mm)
Replaces OEM: 799579
Standard Pack 1

Use with our AIR6281 [FAB1] or AIR7643 [PJ1] air filter oil spray.

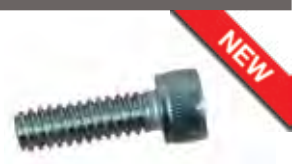
9 316596 096305

Walker Blade Hub Shear Bolt
Fits: Most Walker ZTR decks 1993 onwards including GHS, SD and ML deck models.
10 - 24 x 1" Socket head cap screw, stainless steel.
Replaces OEM: F202
Standard Pack 10

Use with our BSN7819 nuts / Standard Pack 10



BSN7819

9 316596 096312

Walker Nut (Shear Bolt Nut)
Fits: Most Walker ZTR decks 1993 onwards including GHS, SD and ML deck models.
10 - 24 Zinc plated, low carbon steel.
Replaces OEM: F002
Standard Pack 10

Use with our BSN7817 Shear Bolts / Standard Pack 10

BSS – BOXES - STOCK AND TOOLS

BSS7708

9 316596 093335

Divider to suit our BSS6842 small plastic stock boxes.
Standard Pack 1

BWS – BLADE WORKSHOP PACKS

HONDA

BWS7637

9 316596 092468

Honda Buffalo Workshop Pack **Heavy Duty** Blade and Bolts
(Heavy duty version of our BWS4081)
Contains: Heavy Duty 2.5 mm blades x 50 pr (loose), Heavy duty bolt set x 50 pr (loose), Plastic Parts Box BSS6844 x 1
Fits: Honda Buffalo 19" (483 mm) and 21" (533 mm) cut rear catcher models including HRU194PU, HRU196 PU, HRU196D PU, HRU197 PU, HRU197D PU, HRU19D1 PUA, HRU19D2 PUA, HRU19R1 PUA, HRU19R2 PUA and HRU214SU and Buffalo Buck, Buffalo Bull and Buffalo Classic 19" (483 mm) cut model series.
Stepped heavy duty blades with formed flute and offset bolt hole with matching bolt sets supplied in bulk for workshop use in a reusable plastic parts box.
Length: 4 7/8" (124 mm)
Width: 1 3/4" (44 mm)
Hole Size: 5/8" (16 mm)
Replaces OEM: 06720-VA3-K00, L1238-HRU-001, 06720-VA3-K80, 72511-VA3-K81
Standard Pack 1

Warning – The heavy duty Honda bolts enclosed in this workshop pack which feature a larger shoulder must be used when installing these heavy duty 2.5 mm thick blades.

CAM – CARBURETTOR PARTS

BRIGGS & STRATTON

CAM7831

9 316596 096817

Briggs & Stratton Carburettor Drain Bowl Gasket
Fits: 084132, 084133, 084232, 084233, 084323, 084333, 192402, 192407, 192412, 192417, 192432, 192436, 192437, 192452, 194702, 194706, 194707, 195702, 195703, 195706, 195707, 196402, 196412, 196417, 196422, 196427, 196432, 196436, 196437, 196452, 196457, 196702, 196706, 196707, 197402, 197412, 197415, 197417, 197702, 197707, 198702, 198707, 19E412, 19E416, 19E417, 19F412, 19F432, 19F436, 19F437, 19G402, 19G412, 19G415, 19G417, 19G432, 19G437, 19K432, 19K437, 204412, 204415, 204417, 204432, 204437, 205412, 205432, 205457, 206432, 206437, 206452, 206455, 206457, 210702, 212702, 212707, 212802, 212902, 212907, 214707, 214907, 215702, 215707, 215802, 215807, 215872, 215877, 215902, 215907, 215972, 216702, 216802, 216902, 216907, 216977, 217702, 217707, 217802, 217805, 217807, 217877, 217902, 217907, 217972, 217976, 217977, 218707, 218802, 218807, 219702, 219707, 219802, 219806, 219807, 219872, 219902, 219906, 219907, 219972, 219977, 21A707, 21A807, 21A877, 21A902, 21A907, 21A972, 21A976, 21A977, 21B902, 21B906, 21B907, 21B972, 21B976, 21B977, 235432, 235437, 245430, 245432, 245435, 245436, 245437, 247432, 247437, 250412, 250417, 256412, 256417, 256422, 256426, 256427, 256452, 256457, 257412, 257417, 280H06, 280H07, 280J07, 280J77, 281H07, 282H07, 282H77, 283702, 283707, 283H07, 284702, 284707, 284H07, 284H77, 285H07, 285H77, 286702, 286707, 286H07, 286H77, 287707, 287776, 287777, 289702, 289707, 28B702, 28B707, 28D702, 28D707, 28M706, 28M707, 28N707, 28N777, 28P777, 28Q777, 28R707, 28S707, 28S777, 28T707, 28U707, 28V707, 28W707, 310707, 310777, 311707, 311777, 312777, 313777, 31A507, 31A607, 31A677, 31A707, 31A777, 31B707, 31B775, 31C707, 31C777, 31D707, 31D777, 31E607, 31E677, 31E707, 31E777, 31F777, 31G707, 31G777, 31H777, 31K777, 31L777, 31M777, 31N707, 31P707, 31P777, 31Q777 engine models.
O.D: 1/2" (12.7 mm)
I.D: 1/8" (8.1 mm)
Thickness: .031" (0.8 mm)
Replaces OEM: 692255, 281164
Standard Pack 5

HONDA

CAM7758

9 316596 094790

Honda Carburettor Bowl O-Rings.
Fits: GX110, GX120K1, GX140, GX160, GX200, GXV120, GXV160, HR194, HR214, HRU194, HRU214 Models.
Standard Pack 10
Replacement o-rings for our CAM6266 bowl kit

TECUMSEH

CAM7858

9 316596 097432

Tecumseh Carburettor Assembly
Fits: OHV110, OHV115, OHV120, OHV125, OHV130, OHV135, OV358EA engine models.
Replaces OEM: 640065, 640065A
Standard Pack 1

CAS – CARBURETTOR AND FUEL PARTS

ECHO

CAS7663

9 316596 092987

Echo Fuel Tank Grommet with three holes.
Fits: Blowers ES-1000, ES-2000, ES-2100, ES-2400, PB-1000, PB-2105, PB-2155, PB-2200S, PB-24LN, PB-2400, PB-2405, PB-2455, PB-2510, PB-2550 models.
Fits: Brushcutter / Trimmer GT-22G, GT-22GES, GT-2150S, SRM-2015, SRM-22G, SRM-235ES, SRM-2306ES, SRM-250SI, SRM2605, SRM3455, SRM-3550, SRM-3605 models.
Fits: Edger PE-2000 models.
Fits: Hedgetrimmer HC-1500, HCA-2400, HCR-1500, HCR1500SI, HCR-1510, SHC-1700, SHC-2400 models.
Fits: Pole Saws PPF-2100, PPF-2110, PPT-235ES, PPT-2400 models.
Replaces OEM: V137-000030, 132115-46730
Standard Pack 1

CAS – CARBURETTOR AND FUEL PARTS

WALBRO

CAS7719

9 316596 094196

Genuine Walbro Inline Fuel Filter
White opaque plastic replacement filter for the discontinued and superseded Walbro OEM's 125-512, 125-512A-1, 125-512P (our CAS5651) and 125-512D (our OMK125-512D).
1/4" Barb x 2
Overall Length: 100 mm
Filter Body 60 mm
Diam: 27 mm
Replaces OEM: Walbro 125-930, 125-930-1, 125-512P, 125-512, 125-512A-1, 125-512D
Standard Pack 1

CLL – CLUTCHES AND PARTS

CLL7752

9 316596 094578

Electric PTO Clutch Assembly (manufactured by an OEM supplier).
Fits: Selected Exmark and Toro machines including:
Toro Selected Z Master models including Z588E (74255) 2005 and 2006 models fitted with 60" cut Turbo Force decks, Z588E (74256) 2005 and 2006 models fitted with 72" cut Turbo Force decks.
Pulley Diameter: 7 1/4" (184 mm)
I.D: 1 1/8" (28 mm)
Uses 5/8" belt ("B" or 69 Series Belt)
Operates in a clockwise direction.
Replaces Exmark OEM: 103-3246, 103-6579, 109-7665, 109-7673, 116-1611
Replaces Toro OEM: 103-6579, 116-1611
Replaces Warner OEM: 5218-99, 5218-202
Standard Pack 1

CLL7782

9 316596 095001

Electric PTO Clutch Assembly (manufactured by an OEM supplier).
Fits: Selected BigDog ZTR models including X-Series models 931543, 931584.
Fits: Selected Hustler ZTR models including Super Z model 927046, Super Z XR7 model 927996, X-One models 931675EX, 930511EX, 930545EX, Hustler Z models 727053, 926881, 927814.
Fits: Selected Toro 72" cut Z286E Z Master (model 74241) fitted with 26hp Kohler engines built between 2001 and 2002.
I.D: 1 1/8" (28 mm)
Height 3 5/8" (92.075 mm)
Pulley Diameter: 6.25" (158.75 mm)
Uses: 5/8" belt ("B" or 69 Series Belt)
Operates: in a clockwise direction.
Replaces Bad Boy OEM: 070-5035-00
Replaces BigDog OEM: 601311
Replaces Exmark OEM: 103-0665, 1-631732, 1-641300
Replaces Grasshopper OEM: 388740
Replaces Hustler OEM: 787366, 601311
Replaces Toro OEM: 103-0501, 103-0665
Replaces Warner OEM: 5218-65, 5218-213
Standard Pack 1

CLL7803

9 316596 096183

Electric PTO Clutch assembly (manufactured by an OEM supplier).
Fits: Cub Cadet 54" cut GT1554 model 14AQ4AK330 (2011), GTX1054 model 14AZ94AK330 (2012), SLT1554 model 13AK11CK710 Hydro 27hp 2005 models, SLT1554 model 13AK11CK630 Hydro 27hp 2006 models, SLT1554 model 13AK11BK010 (2008 onwards), SLT1554 model 13AK11BK330 Hydro 23hp 2009 models.
Fits: Kioti Daedong 54" cut DZT-2354 model 17AK2ACK396 (2010), DZT-2354 model 17AK2ACK396 (2011), DZT-2354 model 17AF2ACK396 (2012).
Fits: Troy Bilt 54" cut Mustang model 17AF2ACK309 (2012).
Pulley Diameter: 6" (152.4 mm)
I.D: 1 " (25.4 mm)
Uses: 5/8" V - Belt (B or 69 Series Belt)
Operates in a counter clockwise direction
Replaces Cub Cadet OEM: 717-1774, 917-1774, 917-1774B, 917-1774C, 917-05001.
Replaces Kioti Daedong OEM: 717-1774, 917-1774, 917-1774B, 917-1774C, 917-05001.
Replaces Troy Bilt OEM: 717-1774, 917-1774, 917-1774B, 917-1774C, 917-05001.
Replaces Warner OEM: 5219-25
Standard Pack 1

CLL7851

9 316596 097319

Electric PTO Clutch assembly (manufactured by an OEM supplier).
Fits: Selected Hustler Sports models
Pulley Diameter: 6" (152 mm)
I.D: 1 " (25.4 mm)
Height: 4" (100 mm)
Uses: 5/8" V - Belt (B or 69 Series Belt)
Operates: In a clockwise direction.

CTS – CORDLESS TOOL SYSTEM

CTSCHAINSAW

9 316596 095162

OREGON® CS250-E6 Battery Powered PowerNow™ 36 Volt
Chainsaw kit with Endurance Lithium Ion Battery Pack
Kit consists of: 36 Volt Chainsaw, 14" (35 cm) Guide Bar, PowerSharp® Chain, B400E 2.4 ah battery pack (C600 charger - charging time approximately 120 minutes)
Whether you're a commercial landscaper, professional arborist, or a hardworking homeowner who simply demands the best, the OREGON® PowerNow™ 36V chainsaw is designed with all the battery muscle you will need to get the job done. It runs cleaner, quieter and is free from the hassles of petrol or cords. Pull the trigger and you have an instant start and long run time. Just charge the OREGON® PowerNow™ Battery Pack and you are always ready to go with lithium ion no-fade power. Created by the world's leading manufacturer of saw chain, OREGON® offers exclusive innovations, such as the PowerSharp® precision saw chain sharpening system built into the chainsaw.
Features –

Common shared battery
- As with our other CTS (Cordless Tool System) products including part numbers CTSHEDGETRIMMER and CTSTRIMMER the battery packs are interchangeable.
- 36V Lithium Ion Performance
- Long run time
- High power for fast cutting
- Premium Cell Technology
- Constant no-fade power
- Holds charge in storage for months

Advanced Cutting System
- PowerSharp® Sharpening System - Sharpens on the saw, on the job, in seconds. Never cut with dull chain again.

Comfort and Control
- Ergononically designed
- Light-weight and balanced
- Large comfortable handles
- Low vibration
- Freedom from cords

Instant Start
- No petrol-oil mixing
- No pull cords
- No warm-up
- No emissions

Low Noise
- 4 times quieter than a petrol chainsaw
- Silent between cuts

Specifications
- Pitch: 3/8" LP
- Chain Number: 91PS
- Drive Link Count: 52
- Gauge: .050"
- No load chain speed - 12 metres per second.
- Length: 14 " (35 cm)
- Oil System - Automatic oiler with 175 ml tank capacity.
- Weight - 5.4 kg with 2.4 ah battery pack.
- Charge time 120 approx. (with C600 charger)

Standard Pack 1

Please Note: Sold as an optional extra our C750 Rapid Battery Charger (part number OMK562117) will charge the B400E 2.4 ah batteries in approximately 30 minutes cutting charging time by as much as 75% for less downtime.
Footnote: Australian Warranty Terms: 2 Years Domestic Use. 1 Year Commercial Use. During the warranty period, OREGON® will replace or, at it's option, repair free of charge, for the original purchaser only, any product or part manufactured which is found upon examination by OREGON® to be defective in material and/or workmanship. ***Note this warranty does not include the PowerSharp® chain, guide bar, or other wearable consumables. These are covered by the regular OREGON® warranty.***

CTS – CORDLESS TOOL SYSTEM

CTSTRIMMER

9 316596 096459

NEW

OREGON® ST250-E6 Battery Powered PowerNow™ 36 Volt Trimmer / Edger Kit Consists Of: ST250 Trimmer / Edger, B400E 2.4 Ah Battery Pack and C600 charger. Whether you're a commercial landscaper or a hardworking homeowner who simply demands the best, the OREGON® 36V Trimmer/Edger has the power and precision for any job you might face. With no power cords to get cut or tangled, the ST250 is ALWAYS READY™. The OREGON® PowerNow™ Lithium Ion Battery Pack features premium cell technology for long run time and fast, powerful cutting. An ergonomic, in-line design allows for comfortable use and quick and easy conversion from trimming to edging. OREGON® Swift Load trimmer head technology makes string loading simple and fast.
Features –

Common shared battery
- As with our other CTS (Cordless Tool System) products including part numbers CTSCHAINSAW and CTSHEDGETRIMMER the battery packs are interchangeable.
- 36V Lithium Ion Performance
- Long run time
- Premium Cell Technology
- Constant no-fade power
- Holds charge in storage for months

Advanced Cutting System
- OREGON® Swift Load trimmer head - no need to remove head to replace trimmer line
- Platinum Gatorline is resistant to cracking and breaking
- Reliable bump feed head
- Dual lines for faster cutting

Comfort and Control
- Ergononically designed
- Light-weight and balanced
- Large comfortable handles
- Variable speed throttle increases control and run time

Instant Start
- No petrol-oil mixing
- No pull cords
- No warm-up
- No emissions

Low Noise
- 4 times quieter than a petrol trimmer
- Silent between trimming
- 2-in-1 Tool
- Quick and easy conversion from trimmer to edger - Flip down guide for precise edging

Specifications
- Trimmer Line: .080" (2.00 mm)
- Trimmer head: OREGON® Swift Load
- Line Advancement: Bump Feed
- No Load Cutting Speed: 7,000 RPM
- Throttle: Variable Speed
- Weight: 9.4 lb (4.3 kg) with 2.4 ah battery pack
- Charge Time: 120 minutes approx (with C600 charger)

Standard Pack 1

Please Note: Sold as an optional extra our C750 Rapid Battery Charger (part number OMK562117) will charge the B400E 2.4 ah batteries in approximately 30 minutes cutting charging time by as much as 75% for less downtime.
Footnote: Australian Warranty Terms: 2 Years Domestic Use. 1 Year Commercial Use. During the warranty period, OREGON® will replace or, at it's option, repair free of charge, for the original purchaser only, any product or part manufactured which is found upon examination by OREGON® to be defective in material and/or workmanship. ***Note this warranty does not include the trimmer head, nylon cord, or other wearable consumables. These are covered by the regular OREGON® warranty.***

FAD – FUEL ADDITIVES

FUEL TEST KIT

FAD7804

9 316596 093298

Fuel Test Kit
A complete fuel diagnostic kit that quickly identifies fuel related problems.
This revolutionary service tool gives you and your customer a complete understanding of fuel quality while educating about the effects of ethanol.
The kit includes seven easy fuel tests you can perform to identify ethanol fuel related problems, quickly diagnose repairs, and end warranty disputes.
The kit includes equipment to conduct the following tests:
1. Fuel Quality Test Swabs – quickly test fuel quality and level of decay of two and four cycle petrol that contains ethanol and determine if the fuel is fresh, stale or bad.
2. Two Cycle Oil Indicator Test – indicates the amount of oil present in a two cycle fuel / oil mixture.
3. Diesel Fuel Quality Test – determines the quality of diesel fuel.
4. Two and Four Cycle Fuel Test – determines the quality of non ethanol fuel (High Sensitive Test).
5. Phase Separation Test – detects phase separated ethanol blended petrol and provides immediate results to show your customer.
6. Oil Quality Test – illustrates why customers should change their oil more frequently.
7. Bound Water Test – indicates the amount of water present prior to phase separation.

- Fast and easy diagnostic tool allows you to test whether fuel is fresh, marginal or bad.
- Quickly determine the source of potential equipment problems.
- Identify fuel quality before engine damage occurs.
- Saves time and costs for equipment repair.
- Identifies marginal fuel in order that it may be revitalized using Mechanic In A Bottle™.
- Identifying and revitalizing marginal fuel is environmentally friendly as it avoids the need for disposal of hazardous waste material.
- Made in the U.S.A, patents pending.

Find and fix bad fuel using the Mechanic In A Bottle™ Gasoline Test Kit.
This diagnostic tool allows you to test ethanol-blended fuel in all equipment with two cycle and four cycle engines in order to determine if your fuel is fresh, marginal, or bad.
This kit allows you to quickly and easily identify the sources of potential equipment problems before damage occurs, saving time and cost for equipment repair.
Standard Pack 1 Kit

NEW

ETHANOL SHIELD™ - FUEL STABILISER

FAD7901

9 316596 093311

Ethanol Shield™ 4 oz (118 ml)

- Ultra-Concentrated.
- For two and four cycle engines.
- Protects all engine components from corrosion / varnish due to ethanol blended fuels.
- Envelopes water so it passes safely through the fuel system and does not bond.
- Keeps your engine starting and running easily all year.
- Made in the USA (and USA EPA registered including automobile use)

Prevent future engine problems with Ethanol Shield™. This year round fuel stabiliser is used for your power equipment with two cycle and four cycle engines. This preventative maintenance formula eliminates then prevents ethanol related problems. It removes water, prevents corrosion, provides easy engine starting all year, and keeps stored fuel fresh.
Standard Pack 1 Bottle
Box Quantity 12 Bottles

NEW

FAD7903

9 316596 093328

Ethanol Shield™ 8 oz (236 ml)

- Ultra-Concentrated.
- For two and four cycle engines.
- Protects all engine components from corrosion / varnish due to ethanol blended fuels.
- Envelopes water so it passes safely through the fuel system and does not bond.
- Keeps your engine starting and running easily all year.
- Made in the USA (and USA EPA registered including automobile use)

Prevent future engine problems with Ethanol Shield™. This year round fuel stabiliser is used for your power equipment with two cycle and four cycle engines. This preventative maintenance formula eliminates then prevents ethanol related problems. It removes water, prevents corrosion, provides easy engine starting all year, and keeps stored fuel fresh.

FAD – FUEL ADDITIVES

MECHANIC IN A BOTTLE™

FAD7800

9 316596 093274

Mechanic In A Bottle™ 4 oz (118 ml)
- Quickly fix engines without removing the carburettor.
- Reconditions rubber / plastic components.
- Rejuvenates rubber gaskets that may have dried out from ethanol.
- Removes water that causes corrosion and poor running.
- Restores old, decayed fuel by breaking down carbon deposits and adding an octane booster to replace lost octane.
- Keeps engine in top working condition, avoiding repairs and down time.
- Made in the USA (and USA EPA registered.)

Fix poor or non-running engines with Mechanic In A Bottle™. This synthetic fuel additive works in your power equipment with two cycle and four cycle engines. It removes all varnish in the fuel system without having to remove the carburettor, removes carbon deposits, removes water, reconditions rubber and plastic components and revitalises old fuel. Mechanic In A Bottle™ rejuvenates your equipment's fuel system so that it starts efficiently and operates in top condition.
Standard Pack 1 Bottle
Box Quantity 12 Bottles

NEW

FAD7802

KAW – KAWASAKI PARTS

ENGINE SERVICE KITS

KAW99969-6142A

9 316596 097449

Genuine Kawasaki Premium Quality Engine Service Kit
Fits: FJ180V engine models (select models not KAI).
Kit consists of:
- 1 x KAW11013-2232 Genuine Kawasaki pre-filter,
- 1 x KAW11029-0017 Genuine Kawasaki air filter,
- 1 x KAW49065-7010 Genuine Kawasaki oil filter,
- 1 x 99969-6281 (1 Quart / 946 ml) Genuine Kawasaki SAE-30 bottle of oil,
- 1 x SPKBPR5ES NGK spark-plug.

Replaces OEM: 99969-6142A
Standard Pack 1 Kit

Replaces our part number KAWSK1

KAW99969-6189B

9 316596 097999

Genuine Kawasaki Premium Quality Engine Service Kit
Fits: FR541V, FR600V, FR651V, FR691V, FR730V, FS481V, FS541V, FS600V, FS651V, FS691V, FS730V engine models.
Kit consists of:
- 1 x KAW99999-0384 Genuine Kawasaki air filter,
- 1 x KAW11013-7046 Genuine Kawasaki pre-filter,
- 1 x KAW49019-0014 Genuine Kawasaki fuel filter,
- 1 x KAW49065-7007 Genuine Kawasaki oil filter,
- 2 x 99969-6281 (2 Quarts = 1.892 Litres) Genuine Kawasaki SAE-30 bottles of oil,
- 2 x SPKBPR4ES NGK spark plugs.

Replaces OEM: 99969-6189A, 99969-6189B
Standard Pack 1 Kit

Replaces our part number KAWSK4

KAW99969-6191B

9 316596 097463

Genuine Kawasaki Premium Quality Engine Service Kit With Heavy Duty Air filters.
Fits: FX651V, FX691V, FX730V engine models.
Kit consists of:
- 1 x KAW11013-7044 Genuine Kawasaki heavy duty outer filter,
- 1 x KAW11013-7045 Genuine Kawasaki heavy duty inner filter,
- 1 x KAW49019-0014 Genuine Kawasaki fuel filter,
- 1 x KAW49065-7007 Genuine Kawasaki oil filter,
- 2 x 99969-6281 (2 Quarts = 1.892 Litres) Genuine Kawasaki SAE-30 bottles of oil,
- 2 x SPKBPR4ES NGK spark plugs.

Replaces OEM: 99969-6191B
Standard Pack 1 Kit

Replaces our part number KAWSK6

KAW99969-6196C

9 316596 097470

Genuine Kawasaki Premium Quality Engine Service Kit
Fits: FX481V, FX541V, FX600V engine models.
Kit consists of:
- 1 x KAW11013-7048 Genuine Kawasaki air filter,
- 1 x KAW49019-0014 Genuine Kawasaki fuel filter,
- 1 x KAW49065-7007 Genuine Kawasaki oil filter,
- 2 x 99969-6281 (2 Quarts = 1.892 Litres) Genuine Kawasaki SAE-30 bottles of oil,
- 2 x SPKBPR4ES NGK spark plugs.

Replaces OEM: 99969-6196C
Standard Pack 1 Kit

Replaces our part number KAWSK5

KAW99969-6208A

9 316596 097494

Genuine Kawasaki Premium Quality Engine Service Kit
Fits: FH381V KAI, FH430V KAI, FH480V KAI, FH541V KAI, FH580V KAI engine models.
Kit consists of:
- 1 x KAW11013-7025 Genuine Kawasaki pre-filter,
- 1 x KAW11013-7031 Genuine Kawasaki air filter,
- 1 x KAW49065-7010 Genuine Kawasaki oil filter,

Part No	Description	Image

KOH – KOHLER PARTS

KOH1204102-S

9 316596 092499

Replaces Genuine Kohler Air Filter Base Gasket
Fits: Command Pro Single OHV 11hp to 18hp CH11, CH12.5, CH13, CH14, CH15, CH16, CH410, CH430, CH450, CV11, CV12.5, CV13, CV14, CV15, CV16, CV430, CV460, CV461, CV490, CV492, CV493 engine models.
Fits: Courage Single OHV 15hp to 22hp SV470, SV480, SV530, SV540, SV590, SV600, SV610, SV620 engine models.
Replaces OEM: 12 041 02, 12 041 02-S
Standard Pack 1

KOH1206711-S

9 316596 097098

Replaces Genuine Kohler Con Rod Assembly
Fits: Command Pro Single OHV 16hp to 18hp engine models including CV460, CV461, CV490, CV492, CV493 engine models.
Replaces OEM: 12 067 11-S
Standard Pack 1

KOH1208310-S

9 316596 097340

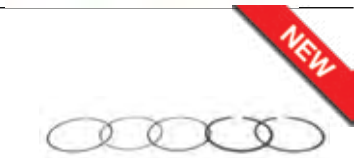
Replaces Genuine Kohler Air Filter Element
Fits: Kohler Command Pro, single cylinder OHV 13hp to 18hp engines including - CH13, CV11, CV12.5, CV13, CV14, CV15, CV16, CV430, CV450, CV460, CV461, CV490, CV491, CV492, CV493 engine models.
Length: 4 5/8" (117 mm)
Width: 3 3/4" (95 mm)
Height: 3 3/8" (86 mm)
Replaces OEM: 12 083 10, 12 083 10-S
Standard Pack 1

For replaces genuine Kohler air filter and pre-filter kit use our part number KOH1288310-S. For non-genuine air filter and pre-filter options use our AIR6088 air filter and AIR6441 pre-filter

KOH1210807-S

9 316596 093182

Replaces Genuine Kohler Standard Ring Set.
Fits: Command Pro Single OHV 11hp to 18hp engines including CH15, CH16, CH410, CH430, CH450, CV15, CV16, CV430, CV450, CV490, CV491, CV492, CV493 engine models.
Replaces OEM: 12 108 07, 12 108 07-S
Standard Pack 1



KOH1231303-S

9 316596 094103

Replaces Genuine Kohler Rubber Grommet
Fits: Blower housing on Command Pro Single OHV 5hp to 18hp engines including CH5, CH6, CH11, CH12.5, CH13, CH14, CH15, CH410, CH430, CV11, CV12.5, CV13, CV14, CV15, CV430, CV450, CV493 models.
Replaces OEM: 12 313 03, 12 313 03-S
Standard Pack 1

KOH1275703-S

9 316596 094677

Replaces Genuine Kohler Carburettor Repair Kit
Fits: Command Pro single cylinder 11hp to 18hp CH11, CH12.5, CH13, CH14, CH15, CH16, CH450, CV11, CV12.5, CV13, CV14, CV15, CV16, CV460, CV490, CV492, CV493 engine models.
Replaces OEM: 12 757 03, 12 757 03-S
Standard Pack 1

KOH1288305-S1

9 316596 092550

Replaces Genuine Kohler Air Filter and Pre-Filter Kit
Fits: Kohler Command 11hp to 16hp CV11, CV12.5, CV13, CV14, CV15, CV16 engine models. (Kit Contains OEM: 12 083 05-S Air Filter and 12 083 08-S Pre-Filter.)
Length: 4 1/2" (114 mm)
Width: 3 3/4" (95 mm)
Height: 2 13/16" (72 mm)
Replaces OEM: Kohler 12 883 305-S1, 12 083 05-S1, 12 083 05-S, 12 083 08-S, John Deere GY20574
Standard Pack 1

Note: For non-genuine air filter and pre-filter options use our AIR5308 air filter and AIR5310 pre-filter.

KOH1408315-S

9 316596 097111

Replaces Genuine Kohler Air Filter
Fits: Courage XT Series single cylinder OHV XT650 (650) and XT675 (XT6.75) engine models.
Replaces OEM: 14 083 15-S, 14 083 16-S
Standard Pack 1

Use with our KOH1408318-S pre-filter

KOH – KOHLER PARTS

KOH1408318-S

9 316596 097128

Replaces Genuine Kohler Pre-Filter
Fits: Courage XT Series single cylinder OHV XT650 (650) and XT675 (XT6.75) engine models.
Replaces OEM: 14 083 18-S
Standard Pack 1
Use with our KOH1408315-S Air Filter

KOH1458405-S

9 316596 097814

Replaces Genuine Kohler Ignition Module.
Fits: Kohler XT series single cylinder OHV XT-6 (XT-149), XT-7 (XT-173) engine models.
Replaces OEM: 14 584 05-S
Standard Pack 1

KOH1703216-S

9 316596 095520

Replaces Genuine Kohler PTO Oil Seal.
Fits: Command Pro single cylinder OHV CH395-3011 (9.5hp) engines as fitted to our 28 Ton log splitter part number OMKLOGSPLITTER.
Also fits CH395 engines with specification numbers including -0011, -0014, -0016, -0021, -0024, -0025, -0026, -0032, -0041, -0055, -0056, -0065, -0101, -0104, -0105, -0106, -0107, -0108, -0111, -0112, -0113, -0114, -0115, -0116, -0117, -0119, -0121, -1011, -1014, -1031, -1056, -1065, -3011, -3014, -3016, -3021, -3024, -3026, -3031, -3041, -3056, -3066, -3102, -3103, -3109, -3110, -3111, -3112.
Replaces OEM: 17 032 16-S
Standard Pack 1

Not Actual Photo

KOH1708303-S

9 316596 095414

Replaces Genuine Kohler Air Filter
Fits: Command Pro single cylinder OHV CH395 (9.5 hp) as fitted to our 28 Ton log splitter part number OMKLOGSPLITTER and CH440 (14hp) engine models.
Replaces OEM: 17 083 03-S
Standard Pack 1
Use with our pre-filter KOH1708315-S

KOH1708315-S

9 316596 095421

Replaces Genuine Kohler Pre-Filter
Fits: Command Pro single cylinder OHV CH395 (9.5 hp) as fitted to our 28 Ton log splitter part number OMKLOGSPLITTER and CH440 (14 hp) engine models.
Replaces OEM: 17 083 15-S
Standard Pack 1
Use with our air filter KOH1708303-S

KOH1740307-S

9 316596 094110

Replaces Genuine Kohler 18 amp Regulator/Rectifier
Fits: Command Pro Single 9.5hp to 14hp engines including CH395 and CH440 models.
Replaces OEM: 17 403 05-S, 17 403 07-S
Standard Pack 1

KOH1758402-S

9 316596 095452

Replaces Genuine Kohler Ignition Coil
Fits: Kohler Command Pro single cylinder OHV 9.5hp CH395-3011 engine models as fitted to our 28 Ton log splitter part number OMKLOGSPLITTER.
Also fits CH395 engines with specification numbers including -0011, -0014, -0015, -0016, -0021, -0024, -0025, -0026, -0032, -0041, -0055, -0056, -0065, -0101, -0104, -0105, -0106, -0107, -0108, -0111, -0112, -0113, -0114, -0115, -0116, -0117, -0119, -0121, -1011, -1014, -1031, -1056, -1065, -3011, -3014, -3016, -3021, -3024, -3026, -3031, -3041, -3056, -3066, -3102, -3103, -3109, -3110, -3111, -3112.
Replaces OEM: 17 584 02-S
Standard Pack 1

KOH2004008-S

9 316596 097357

Replaces Genuine Kohler Dipstick Blade.
Fits: Kohler Courage Single Cylinder OHV 15hp to 22hp engines including SV470, SV480, SV530, SV540, SV541, SV590, SV591, SV600, SV610, SV620 engine models.
Replaces OEM: 20 040 06-S, 20 040 07-S, 20 040 08-S
Standard Pack 1

KOH2004112-S

9 316596 092598

Replaces Genuine Kohler Exhaust Gasket
Fits: Command Pro Twin 22/23hp CH670, 27hp CV740 engine models.
Fits: Command Pro Single 14hp CV14, 17hp CV490 engine models.
Fits: Courage Single 15hp to 21hp SV470, SV480, SV530, SV540, SV590, SV600, SV610 engine models.
Fits: Courage Twin 20hp to 27hp SV710, SV720, SV730, SV735, SV740 engine models.
Replaces OEM: 20 041 12-S
Standard Pack 1

Part No	Description	Image

KOH – KOHLER PARTS

KOH2004121-S

9 316596 097791

Replaces Genuine Kohler Sump Gasket
Fits: Courage Single OHV 15hp to 22hp engines including SV470, SV471, SV480, SV530, SV540, SV541, SV590, SV600, SV610, SV620 engine models.
Replaces OEM: 20 041 01-S, 20 041 21-S
Standard Pack 1

KOH2008306-S

9 316596 094455

Replaces Genuine Kohler Panel Air Filter.
Fits: Courage series including 15hp to 17hp SV470S, SV480S, SV530S, SV540S, SV590S, SV600S, SV620 model engines and Jonsered LT2115 and LT2117 and selected Husqvarna ride-ons using Kohler Courage engines.
Overall Length: 8 1/4" (210 mm)
Width: 5 1/2" (140 mm)
Height: 1 1/2" (38 mm)
Replaces OEM: 20 083 06-S, 20 083 02-S
Standard Pack 1.

Use with our AIR7409 non-genuine pre-filter.

For non-genuine air filter option use our AIR6570.

KOH2009810-S

9 316596 094462

Replaces Genuine Kohler Starter Motor.
Fits: Courage SV470, SV480, SV530, SV540, SV590, SV600, SV610, SV620 engine models.
14 Tooth.
Replaces OEM: 20 098 20-S, 20 098 01-S, 20 098 05-S, 20 098 06-S, 20 098 08-S, 20 098 10-S
Standard Pack 1

KOH2084101-S

9 316596 092925

Replaces Genuine Kohler Head Gasket Kit
Fits: Courage Single Cylinder OHV 15hp to 21hp models including SV470, SV480, SV530, SV540, SV590, SV600, SV610, SV620 engine models.
Replaces OEM: 20 841 01-S, 20 041 03-S, 20 041 08-S, 20 841 02-S
Standard Pack 1

KOH2088306-S1

9 316596 096350

Replaces Genuine Kohler Air Filter and Pre-Filter Kit
Fits: Courage series including 15hp to 17hp SV470S, SV480S, SV530S, SV540S, SV590S, SV600S, SV620 model engines and Jonsered LT2115 and LT2117 and selected Husqvarna ride-on lawnmowers using Kohler Courage engines.
Overall Length: 8 1/4" (210 mm)
Width: 5 1/2" (140 mm)
Height: 1 1/2" (38 mm)
Replaces OEM: 20 883 02-S1, 20 883 06-S1
Standard Pack 1

Note: For non-genuine air filter and pre-filter options use our AIR6570 air filter and AIR7409 pre-filter.

KOH – KOHLER PARTS

KOH237878-S

9 316596 096800

Replaces Genuine Kohler Stator Assembly
Fits: Aegis V Twin 22hp to 28hp engines including LH630, LH640, LH685, LH690, LH750, LH755, LV675, LV680 engine models.
Fits: Command Pro Single OHV 11hp to 18hp engines including CH11, CH12.5, CH13, CH14, CH15, CH16, CH410, CH430, CH450, CV11, CV12.5, CV13, CV14, CV15, CV16, CV430, CV460, CV490, CV491, CV492, CV493 engine models.
Fits: Command Pro Twin OHV 18hp to 40hp engines including CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH730, CH740, CH750, CH940, CH980, CH1000, CV17, CV18, CV19, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV724, CV725, CV730, CV740, CV750, CV940, CV960, CV980, CV1000 engine models.
Fits: Command Pro Twin EFI 19hp to 37hp engines including CH26, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749, ECV650, ECV680, ECV730, ECV740, ECV749, ECV940, ECV980 engine models.
Fits: Command Pro EFI Propane 22hp to 24hp engines including PCV680, OCV740 engine models.
Fits: Confidant V Twin OHV 19hp to 25hp engines including ZT710, ZT720, ZT730, ZT740 engine models.
Fits: Courage Single OHV 15hp to 22hp engines including SV470, SV480, SV530, SV540, SV590, SV600, SV610, SV620 engine models.
Fits: Courage Twin OHV 20hp to 27hp engines including SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Fits: K Series 7hp to 23hp engines including K161, K181, K241, K301, K321, K341, K482, K532, K582 engine models.
Fits: Magnum Single cylinder 8hp to 20hp engines including M8, M10, M12, M14, M16, M18, M20, MV16, MV18, MV20 engine models.
Fits: OHC 16hp to 18hp engines including TH16, TH18, TH575 engine models.
Fits: 7000 Series 20hp to 26hp engines including KT715, KT725, KT730, KT735, KT740, KT745 engine models.
Replaces OEM: 237878, 237878-S, 24 085 03-S, 47 085 02-S, 54 755 09-S
Standard Pack 1

KOH2402557-S

9 316596 092604

Replaces Genuine Kohler Flywheel
Fits: Command Pro Twin 18hp to 26hp engines including CH20, CH22, CH25, CH26, CH730, CV18, CV22, CV25, CV724, CV725 engine models.
Fits: Aegis Liquid Cooled V Twin 22hp to 24hp LH630, LH640 engine models.
Replaces OEM: 24 025 03-S, 24 025 08-S, 24 025 14-S, 66 025 05-S, 24 025 57-S
Standard Pack 1

KOH2403219-S

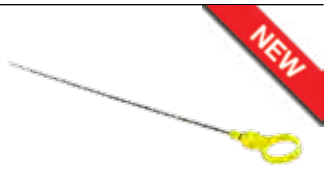
9 316596 097531

Replaces Genuine Kohler Oil Seal
Fits: Aegis V Twin Liquid Cooled OHV 22hp including selected LH630, LH640, LH685, LH690, LH750, LH755, LH775, LV675, LV680 engine models.
Fits: Confidant V Twin OHV 19hp to 25hp including selected ZT710, ZT720, ZT730, ZT740 engine models.
Fits: Command Pro Twin OHV 18hp to 30hp including selected CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH641, CH670, CH680, CH682, CH730, CH732, CH740, CH750, CH752, CV17, CV18, CV19, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV682, CV724, CV725, CV740, CV742, CV745, CV750 engine models.
Fits: Command Pro Twin EFI, OHV 19hp to 29hp including selected CH26, CH735, CH745, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749, ECV650, ECV680, ECV730, ECV740, ECV749 engine models.
Fits: Command Pro Propane OHV, EFI 23hp to 25hp including selected PCH680, PCH740, PCV680, PCV740 engine models.
Fits: Command Pro FCV740 engine models.
Fits: Courage Twin OHV 20hp to 27hp including selected SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Fits: 7000 Series 20hp to 26hp including selected KT715, KT725, KT730, KT735, KT740, KT745 engine models.
Replaces OEM: 24 032 01-S, 24 032 19-S
Standard Pack 1

KOH2403810-S

9 316596 097135

Replaces Genuine Kohler Dipstick.
Fits: Aegis V Twin OHV EFI Liquid cooled 22hp to 31hp LH630, LH640, LH685, LH690, LH750, LH755, LH775 engine models.
Fits: Command Pro Twin OHV 18hp to 30hp CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH682, CH730, CH732, CH740, CH750, CH752 engine models.
Fits: Command Pro Twin OHV EFI 19hp to 29hp CH26, CH745, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749 engine models.
Replaces OEM: 24 038 10-S
Standard Pack 1



KOH2405003-S

9 316596 094127

Replaces Genuine Kohler Fuel Filter, 8–10 Microns
Fits: Command Pro Twin EFI OHV 26hp to 28hp engine models including CH26, CH735, CH745, CV26, CV745, ECV740 engine models.
Fits: Aegis Twin Cylinder EFI Liquid Cooled OHV 31hp LH775 engine models.
Replaces OEM: 24 050 03, 24 050 03-S
Standard Pack 1

Part No	Description	Image

KOH – KOHLER PARTS

KOH2408945-S

9 316596 097838

Replaces Genuine Kohler Governor Spring - Blue.
Fits: Command Pro Twin OHV 17hp to 25hp engines including CH18, CH22, CH23, CH25, CH620, CH640, CH680, CH730, CH740, CH750, CV17, CV18, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV675, CV680, CV724, CV725, CV730, CV740, CV745, CV750 engine models.
Fits: Command Pro Twin EFI 23hp to 29hp engines including ECH680, ECV730, ECV740, ECV749 engine models.
Fits: Command Pro Twin Flex Fuel 25hp FCV740 and Command Pro Twin Propane 24hp PCV740 models.
Replaces OEM: 24 089 45-S
Standard Pack 1

KOH2408951-S

9 316596 097845

Replaces Genuine Kohler Throttle Limiter Spring
Fits: Aegis V Twin OHV 22hp to 30hp LH630, LH640, LH685, LH690, LH750, LH755, LH775, LV675, LV680 engine models.
Fits: Command Pro Twin OHV 17hp to 28hp engines including CH18, CH20, CH22, CH23, CH25, CH620, CH621, CH640, CH641, CH670, CH680, CH730, CH740, CH745, CV17, CV18, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV724, CV730, CV740 engine models.
Fits: Command Pro Twin OHV EFI 19hp to 29hp engines including CH26, CH735, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749 engine models.
Fits: Command Pro V Twin OHV EFI Propane 23hp to 25hp engines including PCH680 and PCH740 engine models.
Replaces OEM: 24 089 38-S, 24 089 51-S
Standard Pack 1

KOH2408954-S

9 316596 097852

Replaces Genuine Kohler Throttle Linkage Spring
Fits: Command Pro Twin OHV 20hp to 25hp engines including CH20, CH23, CH680, CH730, CH740 engine models.
Replaces OEM: 24 089 54-S
Standard Pack 1

KOH2415330-S

9 316596 094134

Replaces Genuine Kohler Valve Cover O-Ring
Fits: Command Pro Twin OHV 18hp to 30hp engine models including CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH730, CH740, CH750, CV17, CV18, CV19, CV20, CV22, CV23, CV25, CV620, CV640, CV670, CV675, CV680, CV725, CV730, CV740, CV745, CV750.
Fits: Command Pro Twin OHV EFI 26hp to 28hp engine models including CH26, CH745, CV26.
Replaces OEM: 24 153 28-S, 24 153 30-S
Standard Pack 1

KOH2432693-S

9 316596 092611

Replaces Genuine Kohler Breather Tube
Fits: Command Pro Twin OHV 17hp to 27hp engines including CH22, CV17, CV18, CV19, CV20, CV22, CV22S, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV724, CV725, CV730, CV740 engine models.
Replaces OEM: 24 326 49-S, 24 326 55-S, 24 326 74-S, 24 353 30-S, 24 326 93-S
Standard Pack 1

KOH2439353-S

9 316596 094684

Replaces Genuine Kohler Oil Pump Assembly
Fits: Aegis Liquid Cooled V Twin 22hp to 31hp LH630, LH640, LH685, LH690, LH750, LH755, LH775, LV675, LV680 engine models.
Fits: Command Pro Twin 18hp to 30hp CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH730, CH740, CH750, CV17, CV18, CV19, CV20, CV22, CV22S, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV724, CV725, CV730, CV740, CV745, CV750 engine models.
Fits: Command Pro Twin (EFI) 23hp to 29hp CH26, CH735, CH745, CV26, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749, ECV650, ECV680, ECV730, ECV740, ECV749 engine models.
Replaces OEM: 24 393 03-S, 24 393 37-S, 24 393 51-S, 24 393 53-S
Standard Pack 1

KOH2458438-S

9 316596 092505

Replaces Genuine Kohler Speed Advance Module
Fits: Command Pro Twin 30hp CH750 and CV750 engine models
Replaces OEM: 24 584 38-S
Standard Pack 1

KOH – KOHLER PARTS

KOH2458444-S

9 316596 094141

Replaces Genuine Kohler Engine Management Module (ECU) 32 Pin
Fits: Selected Command Pro Twin EFI 26hp engine models including CH26 (after serial number 3807400001), CH735, CV26 (after serial number 3719900001).
Replaces OEM: 24 584 44-S
Standard Pack 1
For 24 Pin ECU use our part number KOH2458428-S.

KOH2458489-S

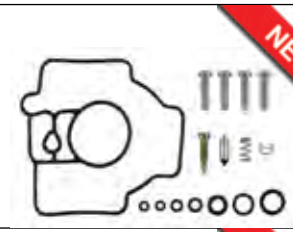
9 316596 094158

Replaces Genuine Kohler Ignition Module
Fits: Selected Command Pro Twin OHV 27hp CH740, CV740 engine models.
Fits: Selected Courage Twin OHV 25hp to 27hp SV730, SV735, SV740, SV840 engine models.
Replaces OEM: 24 584 89-S, 24 584 52-S, 24 584 63-S
Standard Pack 1

KOH2475703-S

9 316596 094943

Replaces Genuine Kohler Carburettor Kit
Fits: Command Pro Twin 18hp to 27hp CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH730, CH740 engine models.
Fits: Aegis Liquid Cooled V Twin 23hp to 28hp LH685, LH690, LH750, LH755 engine models.
Replaces OEM: 24 757 03, 24 757 03-S
Standard Pack 1



KOH2475745-S

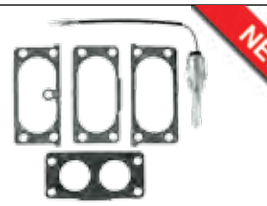
9 316596 097876

Replaces Genuine Kohler Fuel Solenoid Repair Kit
Fits: Command Pro Twin OHV 22.5hp to 23hp including CV22, CV22S, CV23, CV675, CV680 engine models.
Fits: Courage Twin OHV 20hp to 27hp including SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Replaces OEM: 24 757 45-S
Standard Pack 1

KOH2475750-S

9 316596 097807

Replaces Genuine Kohler Fuel Solenoid Repair Kit
Fits: Command Pro Twin OHV 17hp to 37hp including CH750, CH940, CH960, CH980, CH1000, CV750, CV940, CV960, CV980, CV1000 engine models.
Replaces OEM: 24 757 50-S
Standard Pack 1



KOH2484104-S

9 316596 092512

Replaces Genuine Kohler Head Gasket Kit
Fits: Selected Command Pro Twin, Command Pro Twin EFI and Courage Twin engine models including:
Fits: Command Pro Twin 18hp to 30hp CH18, CH22, CH23, CH25, CH26, CH670, CH680, CH730, CH735, CH740, CH745, CH750, CV25, CV26, CV724, CV725, CV730, CV740, CV745, CV750 engine models.
Fits: Command Pro Twin EFI 25hp to 29hp ECH730, ECH740, ECH749, ECV730, ECV749 engine models
Fits: Courage Twin 20hp to 25hp SV710, SV720, SV730 engine models.
Replaces OEM: 24 841 03-S, 24 041 37-S, 24 841 04-S
Standard Pack 1

KOH2503214-S

9 316596 097548

Replaces Genuine Kohler Valve Guide Seal
Fits: Confidant V Twin OHV 19hp to 25hp including selected ZT710, ZT720, ZT730, ZT740 engine models.
Fits: Command Pro Twin OHV 18hp to 40hp including selected CH18, CH20, CH22, CH23, CH620, CH621, CH640, CH641, CH670, CH680, CH730, CH732, CH740, CH742, CH752, CH940, CH960, CH980, CH1000, CV620, CV640, CV682, CV730, CV732, CV740, CV742 engine models.
Fits: Command Pro Twin OHV, EFI 23hp to 37hp including selected ECH680, ECH730, ECH740, ECH749, ECV730, ECV740, ECV749, ECV940, ECV980 engine models.
Fits: Command Pro V Twin OHV Propane 23hp to 25hp including PCH680, PCH740, PCV680, PCV740 engine models.
Fits: 7000 Series 20hp to 26hp including selected KT715, KT725, KT730, KT735, KT740, KT745 engine models.
Replaces OEM: 25 032 14-S
Standard Pack 1

KOH – KOHLER PARTS

KOH2505021-S

9 316596 093212

Replaces Genuine Kohler In Line Fuel Filter
75 Micron (Gravity Feed Type).
Fits: Command Pro Single OHV 6hp to 18hp CH6, CH11, CH12.5, CH13, CH14, CH15, CH16, CH395, CH410, CH430, CH450, CV13, CV14, CV15, CV16, CV430, CV460, CV461, CV490, CV493 engine models.
Fits: Command Pro Twin OHV 25hp CH730 engine models.
Fits: Courage Single OHV 15hp to 22hp SV470, SV480, SV530, SV540, SV590, SV600, SV610, SV620 engine models.
Replaces OEM: 25 050 21-S, 12 050 13-S
Standard Pack 1

KOH2505034-S

9 316596 087464

Replaces Genuine Kohler Extra Capacity Oil Filter.
Fits: All Courage Pro models including SV810S, SV820S, SV830S, SV840S model engines.
Length: 3.4" (86.36 mm)
Width: 3" (76.2 mm)
Replaces OEM: 25 050 34-S
Standard Pack 1

KOH2529409-S

9 316596 095070

Replaces Genuine Kohler Straight Fuel Fitting (1/4" Barb)
Fits: Aegis V Twin Liquid Cooled EFI 22hp to 28hp LH630, LH640, LH685, LH690, LH750, LH755 engine models.
Fits: Command Pro Single OHV 11hp to 18hp CH11, CH12.5, CH13, CH14, CH15, CH16, CH410, CH430, CH450, CV13, CV14, CV15, CV16, CV450, CV460, CV490, CV491, CV492, CV493 engine models.
Fits: Command Pro Twin OHV 18hp to 30hp CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH730, CH740, CH750 engine models.
Fits: Command Pro Twin OHV EFI 19hp to 29hp ECH630, ECH650, ECH680, ECH730, ECH740, ECH749 engine models.
Fits: Magnum Single Cylinder 18hp MV18 engine models.
Replaces OEM: 25 294 09-S
Standard Pack 1

KOH2529411-S

9 316596 095087

Replaces Genuine Kohler 90 Degree Fuel Fitting (1/4" Barb)
Fits: Aegis V Twin Liquid Cooled E.F.I 22hp to 28hp LH630, LH640, LH685, LH690, LH750, LH755 engine models.
Fits: Command Pro Twin OHV 18hp to 40hp CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH670, CH680, CH730, CH740, CH750, CH940, CH960, CH980, CH1000 engine models.
Fits: Command Pro Twin E.F.I 19hp to 29hp ECH630, ECH650, ECH680, ECH730, ECH740, ECH749 engine models.
Fits: Magnum Single Cylinder 8hp to 18hp M8, M10, M18, MV18 engine models.
Fits: OHC V Twin 16hp TH16 engine models.
Replaces OEM: 24 294 11-S, 25 294 11-S
Standard Pack 1

KOH2531008-S

9 316596 096787

Replaces Genuine Kohler Governor Gear Assembly
Fits: Courage Single OHV 15hp to 22hp engines including SV470, SV480, SV530, SV540, SV590, SV591, SV600, SV610, SV620 engine models.
Fits: Command Pro Twin OHV 34hp to 40hp engines including CH940, CH960, CH980, CH1000, CV940, CV960, CV980, CV1000 engines models.
Fits: Command Pro Twin EFI: 33hp to 37hp engines including ECV940, ECV980 engine models.
Replaces OEM: 25 310 08-S, 25 310 07-S, 20 310 03-S, 25 310 01-S
Standard Pack 1

KOH2531301-S

9 316596 097555

Replaces Genuine Kohler Fuel Tap Tank Grommet
Fits: Command Pro Single OHV 11hp to 16hp including selected CH5, CH6, CH11, CH12.5, CH13, CH14, CH15, CH410, CH430, CH450, CV460 engine models.
Fits: Command Pro Twin OHV, EFI 26hp including selected CH26 engine models.
Fits: Magnum Single Cylinder 8hp to 16hp including selected M8, M10, M12, M14, M16 engine models.
Fits: OHC V Twin 16hp to 18hp including selected TH16, TH18 engine models.
Replaces OEM: 25 313 01, 25 313 01-S
Standard Pack 1

Use with our fuel tap part number KOH2546203-S.

KOH2540323-S

9 316596 097203

Replaces Genuine Kohler 25 amp Regulator / Rectifier
Fits: Aegis Liquid Cooled V Twin OHV 23hp to 31hp engines including LH685, LH690, LH775 engine models.
Fits: Command Pro Twin OHV 25hp CH25 engine models.
Replaces OEM: 25 403 23-S, 25 403 09-S
Standard Pack 1

New Parts

Part No	Description	Image

KOH – KOHLER PARTS

KOH2543508-S

9 316596 097562

Replaces Genuine Kohler Starter Solenoid, Internally Grounded.
Fits: Command Pro Single OHV including selected CH11 to CH16,
CV11 to CV16 and CV460 to CV493 engine models.
Replaces OEM: 25 435 08-S
Standard Pack 1

KOH2546203-S

9 316596 097708

Replaces Genuine Kohler Fuel Tap
Fits: Command Pro Single OHV 5hp to 16hp CH5, CH6, CH11, CH12.5,
CH13, CH14, CH15, CH410, CH430, CH450, CV460 engine models.
Fits: Magnum Single Cylinder 8hp to 16hp M8, M10, M12, M14, M16 engine models.
Fits: OHC V Twin 16hp to 18hp TH16, TH18 engine models.
Replaces OEM: 25 462 03, 25 462 03-S
Standard Pack 1
Use with our fuel tap tank grommet part number KOH2531301-S.

KOH2570703-S

9 316596 097210

Replaces Genuine Kohler MDI Module Conversion Kit
Fits: Selected models including Command Pro Twin OHV 27hp CH740
(before serial number 4315100011) engine models.
Replaces OEM: 25 707 03-S
Standard Pack 1

KOH2575725-S

9 316596 092864

Replaces Genuine Kohler Fuel Solenoid Kit
Fits: Selected Courage single cylinder OHV 19hp to 22hp
SV590, SV600, SV610, SV620 engine models.
Replaces OEM: 25 757 25-S
Standard Pack 1

KOH3202521-S

9 316596 095339

Replaces Genuine Kohler Flywheel Assembly
Fits: Courage Twin OHV V-Twin SV735 (26hp), SV740 (27hp), SV840 (27hp) engine models.
Replaces OEM: 32 025 15-S, 32 025 21-S, 32 025 05-S
Standard Pack 1

KOH3202522-S

9 316596 094752

Replaces Genuine Kohler Flywheel Assembly.
Fits: Courage Twin 20hp to 25hp models SV710, SV715,
SV720, SV725, SV730, SV810, SV820, SV830
Replaces OEM: 32 025 06-S, 32 025 08-S, 32 025 16-S, 32 025 17-S, 32 025 22-S
Standard Pack 1

KOH3208308-S

9 316596 093601

Replaces Genuine Kohler Pre-filter Element
Fits: Courage Pro SV810S, SV820S, SV830S, SV840S model engines.
Replaces OEM: 32 083 08-S
Standard Pack 1
Use with our air filter KOH3208306-S

KOH3209804-S

9 316596 094165

Replaces Genuine Kohler Starter Motor
10 Tooth
Fits: Courage Twin OHV 20hp to 27hp engines including SV710, SV715, SV720,
SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Replaces OEM: 32 098 03-S, 32 098 04-S, 32 098 01-S
Standard Pack 1
For replacement brushes and brush holder use our STR6349.

Part No	Description	Image

KOH – KOHLER PARTS

KOH3241104-S

9 316596 094691

Replaces Genuine Kohler Push Rod
Fits: Courage Twin OHV 20hp to 27hp SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Replaces OEM: 32 411 04-S
Standard Pack 1

KOH3270701-S

9 316596 097715

Replaces Genuine Kohler MDI Module Conversion Kit
Fits: Courage V Twin OHV 26hp to 27hp SV735, SV740, SV840 engine models.
Replaces OEM: 32 707 01-S
Standard Pack 1 Kit.

KOH3284102-S

9 316596 094707

Replaces Genuine Kohler Head Gasket Kit
Fits: Selected Courage Twin OHV 20hp to 27hp SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Replaces OEM: 32 841 01-S, 32 841 02-S
Standard Pack 1 Kit

KOH3288303-S1

9 316596 093168

Replaces Genuine Kohler Air Filter and Pre-Filter Kit
Fits: Courage 20hp to 27hp models including SV710, SV715, SV720, SV725, SV730, SV735, SV740 engine models.
I.D: 4" (102 mm) x 2 3/4" (70 mm)
O.D: 5 3/4" (146 mm) x 4 3/8" (111 mm)
Height: 1 3/4" (44 mm)
Replaces OEM: 32 883 03-S1
Standard Pack 1

Note: For non-genuine air filter and pre-filter options use our AIR6631 air filter and AIR1435 pre-filter

KOH3288306-S1

9 316596 094097

Replaces Genuine Kohler Air Filter and Pre-Filter Kit
Fits: Courage Pro SV810S, SV820S, SV830S, SV840S model engines.
I.D: 4" (102 mm) x 2 3/4" (70 mm)
O.D: 5 3/4" (146 mm) x 4 3/8" (111 mm)
Height: 3.1" (78.74 mm)
Replaces OEM: 32 883 06-S1
Standard Pack 1

KOH4109808-S

9 316596 094387

Replaces Genuine Kohler Starter Motor.
16 Tooth
Fits: Kohler K-Series engines including 7hp to 8hp K161 and K181 engine models.
Replaces OEM: 41 098 08, 41 098 08-S
Standard Pack 1

KOH6309801-S

9 316596 092888

Replaces Genuine Kohler Starter Motor
9 Tooth.
Fits: Command Pro single cylinder OHV 8.5hp to 10hp CS8.5, CS10, CS12 engine models.
Replaces OEM: 63 098 01-S
Standard Pack 1

KOH6346202-S

9 316596 092642

Replaces Genuine Kohler Fuel Tap Assembly
Fits: Command Pro CS 6hp to 10hp engines including CS4, CS6, CS8.5, CS10, CS12 engine models.
Replaces OEM: 63 462 02-S
Standard Pack 1

New Parts

Part No	Description	Image

KOH – KOHLER PARTS

KOH6375704-S

9 316596 096596

Replaces Genuine Kohler Carburettor Repair Kit
Fits: Command Pro OHV single cylinder 4hp to 6hp CS4 and CS6 engine models.
Replaces OEM: 63 757 04-S
Standard Pack 1

KOH6603205-S

9 316596 094950

Replaces Genuine Kohler Valve Stem Seal.
Fits: Aegis Liquid Cooled V Twin 22hp to 31hp LH630, LH640, LH685, LH690, LH750, LH755, LH775, LV675, LV680 engine models.
Fits: Command Pro Single 11hp to 18hp CH11, CH12.5, CH13, CH14, CH15, CH410, CH430, CH450, CH16, CV12.5, CV13, CV15, CV16, CV430, CV450, CV460, CV490, CV493 engine models.
Fits: Command Pro Twin 18hp to 40hp CH18, CH20, CH22, CH23, CH25, CH26, CH620, CH640, CH670, CH680, CH730, CH735, CH740, CH745, CH750, CH940, CH960, CH980, CH1000, CV17, CV18, CV19, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV724, CV725, CV730, CV740, CV745, CV750, CV940, CV960, CV980, CV1000 engine models.
Fits: Command Pro Twin EFI 19hp to 29hp ECH630, ECH650, ECH680, ECH730, ECH740, ECH749, ECV650, ECV680, ECV730, ECV740, ECV749 engine models.
Fits: Courage Twin 20hp to 27hp SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Replaces OEM: 24 032 05-S, 66 032 05-S
Standard Pack 1 (Single Seal)

KOHED0021753060-S

9 316596 094967

Replaces Genuine Kohler Air Filter
Fits: Kohler KD440 model 10.1hp single cylinder water cooled indirect injection diesel engine models.
Replaces OEM: ED0021753060-S
Standard Pack 1

KOHED0021751550-S

9 316596 096169

Replaces Genuine Kohler Oil Filter
Fits: KD350 (6.7hp) and KD420 (9.8hp) Diesel engine models with spec numbers including PA-KD350-1001, PA-KD350-2001, PA-KD350-3001, PA-KD350-4001, PA-KD350-6001, PA-KD350-7001, PA-KD350-8001, PA-KD350-8002, PA-KD420-1001, PA-KD420-2001, PA-KD420-2101, PA-KD420-3001, PA-KD420-4001, PA-KD420-6001, PA-KD420-7001, PA-KD420-7002.
Replaces OEM: ED0021751550-S
Standard Pack 1

KOHED0037300960-S

9 316596 096152

Replaces Genuine Kohler Fuel Filter
Fits: KD350 (6.7hp), KD420 (9.8hp) Diesel engine models with spec numbers including PA-KD350-1001, PA-KD350-1P01, PA-KD350-3001, PA-KD350-4001, PA-KD350-6001, PA-KD350-7001, PA-KD350-8001, PA-KD350-8002, PA-KD420-1001, PA-KD420-2001, PA-KD420-2101, PA-KD420-3001, PA-KD420-4001, PA-KD420-6001, PA-KD420-7001, KD420-7002.
Replaces OEM: ED0037300960-S, ED0037300880-S
Standard Pack 1

ENGINE SERVICE KITS

KOH1278901-S

9 316596 097678

Replaces Genuine Kohler Engine Service Kit
Fits: Command 11hp to 16 hp CV11, CV12.5, CV13, CV14, CV15, CV16 engine models.
Consists of:
- 1 x 12 083 14, 12 083 05-S Air filter (4 1/2" L x 3 3/4" W x 2 13/16" H),
- 1 x 12 083 08-S Pre-filter,
- 1 x 25 050 07-S Fuel filter (75 Micron),
- 2 x 25 357 06S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 12 050 01-S Oil filter (2.6" High),
- 1 x 12 132 02-S Spark plug (Champion RC12YC) .

Replaces OEM: 12 789 01-S, 12 789 01
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH – KOHLER PARTS

ENGINE SERVICE KITS

KOH1278902-S

9 316596 097685

Replaces Genuine Kohler Engine Service Kit
Fits: Command Pro Single Cylinder 11hp to 18hp CV11, CV12.5, CV13, CV14, CV15, CV16, CV430, CV460, CV461, CV491, CV492, CV493 engine models.
Consists of:
- 1 x 12 083 16, 12 083 10S Air filter (4 1/2" L x 3 3/4" W x 3 1/4" H),
- 1 x 12 083 12-S Pre-filter,
- 1 x 25 050 21-S Fuel filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 52 050 02-S Oil filter,
- 1 x 12 132 02-S Spark plug (Champion RC12YC).

Replaces OEM: 12 789 02-S, 12 789-02
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH2078901-S

9 316596 097692

Replaces Genuine Kohler Engine Service Kit
Fits: Courage Single Cylinder OHV 15hp to 21hp SV470, SV480, SV530, SV540, SV590, SV600, SV610, SV620 engine models.
Consists of:
- 1 x 20 083 06-S Air filter,
- 1 x 20 083 03-S Pre-filter,
- 1 x 25 050 21-S Fuel filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 52 050 02-S Oil filter,
- 1 x 12 132 02-S Spark plugs (Champion RC12YC).

Replaces OEM: 20 789 01-S
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH2478901-S

9 316596 097593

Replaces Genuine Kohler Engine Service Kit
Fits: Command Twin Cylinder 17hp to 27hp CH18, CH20, CH22, CH23, CH25, CH620, CH730, CH740, CV17, CV18, CV20, CV22, CV23, CV624, CV670 engine models.
Consists of:
- 1 x 47 083 03-S Air filter,
- 1 x 24 083 02-S Pre-filter,
- 1 x 25 050 22-S Fuel filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 12 050 01-S Oil filter (2.6" High),
- 2 x 12 132 02-S Spark plugs (Champion RC12YC).

Replaces OEM: 24 789 01-S, 24 789 01,
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH2478902-S

9 316596 097609

Replaces Genuine Kohler Engine Service Kit
Fits: Command Pro Twin Cylinder 18hp to 30hp CH18, CH20, CH22, CH23, CH25, CH620, CH730, CH740, CH750, CV18, CV20, CV22, CV23, CV25, CV670, CV724, CV730, CV740 engine models.
Consists of:
- 1 x 24 083 03-S Air filter,
- 1 x 24 083 05-S Pre-filter,
- 1 x 24 050 13-S Fuel Filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 52 050 02-S Oil filter,
- 2 x 12 132 02-S Spark plug (Champion RC12YC).

Replaces OEM: 24 789 02-S
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH – KOHLER PARTS

ENGINE SERVICE KITS

KOH2478903-S

9 316596 097616

Replaces Genuine Kohler Engine Service Kit
Fits: Command Pro Twin 17hp to 27hp CV17, CV18, CV20, CV22, CV23, CV25, CV730, CV740 engine models.
Consists of:
- 1 x 45 083 02-S Air filter,
- 1 x 45 083 01-S Pre-filter,
- 1 x 24 050 13-S Fuel filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 52 050 02-S Oil filter,
- 2 x 12 132 02-S Spark plugs (Champion RC12YC).

Replaces OEM: 24 789 03-S, 24 789 03
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH2578901-S

9 316596 097623

Replaces Genuine Kohler Engine Service Kit
Fits: Command Pro Twin OHV 18hp to 30hp engines fitted with heavy duty air filter systems including selected CH18, CH20, CH22, CH23, CH620, CH730, CH740, CH750, CV18, CV20, CV23, CV25, CV670, CV740, CV750 engine models.
Consists of:
- 1 x 25 083 01-S Heavy Duty air filter,
- 1 x 24 050 13-S Fuel filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 52 050 02-S Oil filter,
- 2 x 12 132 02-S Spark plugs (Champion RC12YC).

Replaces OEM: 25 789 01-S, 25 789 01
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

KOH3278901-S

9 316596 097630

Replaces Genuine Kohler Engine Service Kit
Fits: Courage V Twin OHV 20hp to 27hp SV710, SV720, SV725, SV730, SV735, SV740 engine models.
Consists of:
- 1 x 32 083 03-S Air filter (5 3/4" L x 4 3/8" W x 1 3/4" H),
- 1 x 32 083 05-S Pre-filter,
- 1 x 25 050 22-S Fuel filter,
- 2 x 25 357 06-S Quart bottles of SAE 10W30 engine oil (2 Quarts = 1.892 Litres),
- 1 x 52 050 02-S Oil filter,
- 2 x 12 132 02-S Spark plugs (Champion RC12YC).

Replaces OEM: 32 789 01-S
Standard Pack 1 Kit

Please Note: To help identify the correct engine service kit to suit your engine, please check the air filter number on your engine to make sure that it matches the air filter listed above.

LUB – OILS AND LUBRICANTS

HYDROSTATIC TRANSMISSION OIL

LUB6530

9 316596 092819

20 Litre Drum SAE 5W/50 Synthetic Oil (API SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR ride-on and conventional ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.

This is a high performance synthetic engine oil, formulated from exceptional base oils and using additives which represent the latest technology.
Provides outstanding wear protection, thermal and oxidation stabilty and superior overall lubrication.

Conforms to: API (American Petroleum Institute) SL / CF and ACEA (European Automobile Manufacturers' Association) A3 / B3 / B4 oil classification performance requirements.
Standard Pack 1 Drum.

Note: Always refer to the engine or transmission manufacturer's manual for the correct oil specifications to suit your equipment.

NEW

HYDRAULIC OIL

LUB7827

9 316596 096770

4 Litre Container AW46 Hydraulic Oil
Suits many applications including the hydraulic system of our Oregon 28 Ton Log Splitter (OMKLOGSPLITTER).
This is a high quality anti-wear hydraulic oil containing anti-oxidant, anti-corrosion and anti-foam additives. It has very good stability and demulsibilty properties and meets the requirements of major hydraulic pump and equipment manufacturers. This oil is suitable for all hydraulic fluid power transmission systems subjected to severe duty.

Conforms to: Vickers V-104C and 35VQ25 vane, 1-286-S, M2950-S; Denison HF-1, HF-2, HF-0; Racine, variable volume vane pumps; Cincinnati Milacron, P-68, P-69, P-70; DIN 51524 Part 2, Lee-Norse 100-1; Jeffrey No. 87; Ford M-6C32, US Steel 136, 127; B F Goodrich 0152; General Motors LH-04-1, LH-06-1, LH-15-1; Commercial Hydraulics (except PM500 Series) AFNOR E48-603 performance requirements.

Standard Pack 1 Container
Box Quantity 4 Containers

Please Note: Always refer to the equipment manufacturer's manual for the correct oil specification to suit your equipment.

NEW

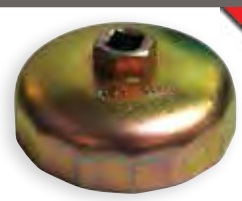
OIL AND LUBRICANT ACCESSORIES

KAW57001-1249

9 316596 092802

Genuine Kawasaki Oil Filter Wrench
(Use with a 3/8" drive ratchet)
Replaces OEM: 57001-1249
Standard Pack 1

NEW



MUF – MUFFLERS

MUF7859

9 316596 097579

ZTR Drop Down Muffler
Fits: BigDog and Hustler ZTR's etc when fitted with Kawasaki FX921V to FX1000V vertical shaft engine models.
Features:
- Built in spark arrestor screen.
- Extension pipe with turn down tip.
- Includes exhaust clamp for turn down pipe.

Standard Pack 1

NEW

BRIGGS & STRATTON

MUF7662

9 316596 092956

Low Tone Non Restrictive Muffler
Fits: Briggs & Stratton Intek single cylinder 10.5 to 21hp engines.
Also fits: Hustler ZTR Sports models fitted with B&S Intek 10.5 to 21hp engines.
Standard Pack 1

Note: When used with our MUF7666 extension pipe and clamp kit this muffler will also fit selected Craftsman, Husqvarna and John Deere L Series ride-on lawnmowers and make them significantly quieter than the standard muffler.

9 316596 092475

Drop Down Muffler
Fits: Selected **Kawasaki** vertical shaft engines including FS481V, FS600V, FX481V, FX541V, FX600V engine models.
Standard Pack 1

MUF7650

9 316596 092482

Drop Down Muffler
Fits: Selected **Kawasaki** vertical shaft engines including FS651V, FS691V, FS730V, FX691V, FX730V engine models.
Standard Pack 1

OIP – OIL PLUGS AND FILTERS

TRANSMISSION FILTERS

OIP7664

9 316596 092970

Transmission Oil Filter
Fits: Hydrostatic drive transmissions fitted to selected **Great Dane**, **John Deere**, **Scag**, **Snapper** and **Toro** Groundsmaster 300 series commercial mowers. Including John Deere 647, 657, 667 Quick Trak, 717, 727, 777, 797 Z Trak, 2020, 2030 Pro Gator Vehicle.
10 microns.
Height: 3.790"
O.D: 3.66"
Thread Size: 1" - 12
Replaces OEM: Great Dane D18094, GDA10137, John Deere M131053 Scag 48462-01, 7027164, Snapper 2-7164, Toro 67-8110
Standard Pack 1

TRANSMISSION FILTERS

OIP7654

9 316596 092734

Transmission Oil Filter
Fits: Hydro Gear ZT-2800 model hydrostatic drive transmissions as fitted to selected **Hustler** models including Hustler FasTrak models 930107, 930107EX, 930115, 930115EX, 930784, Hustler FasTrak Super Duty models 930123, 930123EX, 930131EX, 930149, 930156, 930164, 930172EX.
Selected **Toro** models including: Z334 (74408CP) Z Master 34" cut 2007–2009 models, Z340 (74409CP) Z Master 40" cut 2007–2009 models, Titan ZX4800 (74912) 48" cut 2010 models, Titan ZX5400 (74914) 54" cut 2009–2010 models.
Replaces OEM: Hydro Gear 52114, HG52114, Exmark 109-3321, Gravely 21545100, Hustler 768341, 600976, Scag HG52114, Toro 109-3321

OMK - OREGON® PARTS

OREGON® LOG SPLITTER

OMKLOGSPLITTER

9 316596 095032

NEW

OREGON® Log Splitter
The OREGON® 28 Ton log splitter provides commercial quality and power at an affordable price.
Fitted with a Kohler Command Pro CH395 engine, an auto return valve with an 11.5 second cycle time and quality features throughout this log splitter will provide many years of reliable service.

Features:
- Quality Engine - Kohler Command Pro CH395 (9.5hp / 7.1kw / 277cc) engine.
- Horizontal & vertical operation
- 28 Tons of splitting force (US 28 Tons = 25.4 tonnes Force)
- Auto return valve
- Two stage pump 16 GPM (60.56 litres per minute)
- Valve - Ergonomically positioned for operator comfort
- Steel coil covered hoses - protected for longer life.
- Wedge: 8 " (203.2 mm)
- Cylinder Connection: Engineered for increased strength
- Stripper Plates: Integrated for rigidity, capable of removing stuck logs
- Log Cradle: Integrated log cradle keeps logs in place for hands free (safer/faster) splitting
- Solid Foot Piece: Increased Strength
- In-Tank Suction Screen: Better hydraulic fluid filtration
- Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
- Beam Lock: Keeps beam secure
- Boxed Drawbar with Handle: Designed for strength & manoeuvrability
- Utility Jack: Adjustable utility jack provides solid support during splitting
- Solid Foot Piece: Increased strength

Specifications:
Beam: 6" x 9" (152.4 mm x 228.6 mm)
Capacity: 28 Tons of splitting force (US 28 Tons = 25.4 tonnes Force).
Cycle Time: 11.5 seconds.
Engine: Kohler Command Pro CH395 (9.5hp / 7.1kw / 277cc) commercial grade horizontal shaft engine.
Hydraulic Ram Cylinder: 4.5" x 24 " (114.3 mm x 609.6 mm)
Hydraulic Tank Capacity: 7.5 Gallons (28.39 litres) - Plenty of room for fluid to keep flowing and stay cool.
Maximum Log Length: 24" (609.6 mm)
Operating Position: Horizontal & vertical operation.
Pump: Two stage 16 GPM (60.56 litres per minute)
Pump Working Pressure: 3,500 PSI +/- 100 PSI
Shipping Dimensions: Crate Length 1870 mm x Width 930 mm x Height 630 mm
Shipping Weight: 320 kgs (Including crate)
Tow Hitch: 2" (50 mm)
Unit Total Weight: 308 kgs (680 lbs)
Valve: Auto return valve - speeds up the log splitting process.
Wedge: 8 " (203.2 mm)
Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
Working Height: 31.5" (800 mm)
Warranty: 3 years (limited) on steel components; 3 years engine (as rated by manufacturer); 1 year on major hydraulic components; Full warranty details available upon request.
Standard Pack 1

OREGON® LOG SPLITTER

OMKLOGHOLDER

9 316596 097012

NEW

Log Catcher Accessory - Log Splitter.
Fits: Late type accessory log catcher suits our OMKLOGSPLITTER 28 Ton Oregon log splitters built after July 1, 2013 (with serial numbers of 1GXXXXXX3 and greater) fitted with new style beam.
Bolts onto side of the log splitter beam in minutes. Saves time and saves your back. Conveniently holds the split log off to the side until you are ready to quarter it. No more bending over to pick up half split logs.
Replaces OEM: S40141600, 564068
Standard Pack 1

Please Note: For models with serial number 1HXXXXXX1 - CXXXXXX3 use our early model log holder part number OMKLOGCATCHER

OMKLOGCATCHER

9 316596 095704

NEW

Log Catcher Accessory - Log Splitter.
Fits: Early type accessory log catcher suits our OMKLOGSPLITTER 28 Ton Oregon log splitters built before July 1, 2013 (with serial numbers of 1HXXXXXX1 - CXXXXXX3)
Bolts onto side of the log splitter beam in minutes. Saves time and saves your back. Conveniently holds the split log off to the side until you are ready to quarter it. No more bending over to pick up half split logs.
Replaces OEM: S40200600
Standard Pack 1

Please Note: For models with serial number 1GXXXXXX and greater use our late model log holder part number OMKLOGHOLDER

Please refer to the IPL section at the front of the catalogue for a full spare parts listings and breakdown on our Log Splitter.

SQUARE MAGNUM GATORLINE™ - SMALL DONUTS

OMK561498

7 332437 091430

Replaces OMK69-190

Square Magnum Gatorline™ .095" (2.40 mm) x 50ft (Approx 15 metres) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

OMK561509

7 332437 091485

Replaces OMK69-191

Square Magnum Gatorline™ .105" (2.65 mm) x 40ft (Approx 12 metres) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

OMK561484

7 332437 091393

Replaces OMK69-194

Square Magnum Gatorline™ .120" (3.00 mm) x 30ft (Approx 9 metres) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

SQUARE MAGNUM GATORLINE™ - 225G (1/2LB) DONUTS

OMK561513

7 332437 091522

Replaces OMK22-995

Square Magnum Gatorline™ .095" (2.40 mm) x 112ft (Approx 34 metres), 1/2 lb (225g) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

OMK561514

7 332437 091539

Replaces OMK22-905

Square Magnum Gatorline™ .105" (2.65 mm) x 92ft (Approx 28 metres), 1/2 lb (225g) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

OMK561515

7 332437 091546

Replaces OMK22-930

Square Magnum Gatorline™ .120" (3.00 mm) x 72ft (Approx 22 metres), 1/2 lb (225g) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

SQUARE MAGNUM GATORLINE™ - 450G (1LB) DONUTS

OMK561519

7 332437 091584

Replaces OMK22-495

Square Magnum Gatorline™ .095" (2.40 mm) x 226ft (Approx 69 metres), 1 lb (450g) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 12)

OMK561520

7 332437 091591

Replaces OMK22-405

Square Magnum Gatorline™ .105" (2.65 mm) x 187ft (Approx 57 metres), 1 lb (450g) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 12)

OMK561489

7 332437 091409

Replaces OMK22-430

Square Magnum Gatorline™ .120" (3.00 mm) x 144ft (Approx 44 metres), 1 lb (450g) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut

Replaces OMK69-195

Round Magnum Gatorline™ .095" (2.40 mm) x 50ft (Approx 15 metres) Donut - Clear nylon with green high strength inner core. Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

OMK561490

7 332437 091416

Replaces OMK69-196

Round Magnum Gatorline™ .105" (2.65 mm) x 50ft (Approx 15 metres) Donut - Clear nylon with pink high strength inner core. Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

OMK561491

7 332437 091423

Replaces OMK69-197

Round Magnum Gatorline™ .120" (3.00 mm) x 50ft (Approx 15 metres) Donut - Clear nylon with orange high strength inner core. Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 10)

ROUND MAGNUM GATORLINE™ - 225G (1/2LB) DONUTS

OMK561510

7 332437 091492

Replaces OMK22-295

Round Magnum Gatorline™ .095" (2.40 mm) x 144ft (Approx 44 metres), 1/2 lb (225g) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

OMK561511

7 332437 091508

Replaces OMK22-205

Round Magnum Gatorline™ .105" (2.65 mm) x 118ft (Approx 36 metres), 1/2 lb (225g) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

OMK561512

7 332437 091515

Replaces OMK22-230

Round Magnum Gatorline™ .120" (3.00 mm) x 92ft (Approx 28 metres), 1/2 lb (225g) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

PTU - PNEUMATIC TUBES

PTU7788

9 316596 095599

Tube 410 x 350 x 5" Straight Stem Valve (TR13)
Use with our PTY2110 Diamond Pattern Tyre.
Standard Pack 1

PTY – PNEUMATIC TYRES AND ACCESSORIES

TYRE SHIELD

PTY7794

9 316596 096190

Tyre Shield 250 ml Bottle.
Puncture prevention treatment ideal for use on ride-on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6 mm in diameter in the tread area of the tyre and 3 mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals porous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)
- Australian Made.

Standard Pack 1
(Box Quantity 9)

PTY7796

9 316596 096206

Tyre Shield 500 ml Bottle.
Puncture prevention treatment ideal for use on ride-on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6 mm in diameter in the tread area of the tyre and 3 mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals porous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)
- Australian Made.

Standard Pack 1
(Box Quantity 5)

PTY7798

9 316596 096213

Tyre Shield 1 Litre Bottle.
Puncture prevention treatment ideal for use on ride-on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6 mm in diameter in the tread area of the tyre and 3 mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals porous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)
- Australian Made.

Standard Pack 1
(Box Quantity 4)

PTY7801

9 316596 096220

Tyre Shield 20 Litre Drum.
Puncture prevention treatment ideal for use on ride-on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6 mm in diameter in the tread area of the tyre and 3 mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals porous leaks and maintains tyre pressure.

DINASAW ABN GRINDING WHEELS

WSH7742

9 316596 094394

Dinasaw ABN Grinding Wheel 145 mm x 3 mm x 22.2 mm
Suits 1/4", .325" and 3/8" Low profile chainsaw chain.
ABN Grinding wheels are made from a blend of Amber Boron Nitride (ABN) and Cubic Boron Nitride (CBN) and are designed for grinding hardened steel (standard chainsaw chains).
Features:
- ABN wheels will cut faster and cooler than aluminium oxide wheels.
- They require no maintenance, they do not need to be dressed or deglazed.
- They will maintain their profile for the life of the wheel.
- ABN grinding wheels are manufactured on CNC equipment ensuring perfect balance and dimensioning.
- Australian made.

Tips for correct use:
It is important to treat ABN grinding wheels differently to bonded wheels, the wheels can not be forced to grind, the operator must allow the wheel to cut on its own.
Excessive force, abrupt grinding or worn spindle bearings or flanges will contribute to premature wear.

Please note: not designed for use on Tungsten Carbide chain and doing so will destroy the wheel and void warranty.

Standard Pack 1

WSH7743

9 316596 094400

Dinasaw ABN Grinding Wheel 145 mm x 4 mm x 22.2 mm
Suits 3/8" pitch chainsaw chain.
ABN Grinding wheels are made from a blend of Amber Boron Nitride (ABN) and Cubic Boron Nitride (CBN) and are designed for grinding hardened steel (standard chainsaw chains).
Features:
- ABN wheels will cut faster and cooler than aluminium oxide wheels.
- They require no maintenance, they do not need to be dressed or deglazed.
- They will maintain their profile for the life of the wheel.

DINASAW DIAMOND GRINDING WHEELS

WSH7789

9 316596 096541

DinaSaw Diamond Grinding Wheel 145 mm x 3 mm x 22.2 mm
Suits 3/8" Low Profile Tungsten chainsaw chain ONLY
(not for use on standard chainsaw chain).
Features -
- DinaSaw diamond grinding wheels are manufactured on CNC equipment ensuring perfect balance and dimensioning.
- Manufactured using premium grade synthetic diamond.
- They require no maintenance, they do not need to be dressed or deglazed.
- They will maintain their profile for the life of the wheel.
- Australian made.

Tips for correct use -
It is important to treat diamond grinding wheels differently to other wheels, the wheels cannot be forced to grind, the operator must allow the wheel to cut on its own. Excessive force, abrupt grinding or worn spindle bearings or flanges will contribute to premature wear.

Please Note: Designed for sharpening tungsten chainsaw chain only, Not for use on standard chain and doing so will destroy the wheel and void warranty.

Warning - Breathing protection must be worn when sharpening tungsten chain.

IGNITION ANALYSER

TOL7829

9316596096909

CheckSpark Engine Ignition Analyser
CheckSpark safely tests for proper spark, shorted or fouled spark plugs and even open or broken spark plug wires.
This engine ignition analyser is a highly accurate diagnostic sensor that uses micro-circuit technology to troubleshoot why your outdoor power equipment or vehicle will not start.
Simply clip connect the CheckSpark tester to the plug wire of the non-running engine and firmly pull the recoil starter or energize the electric starter long enough to turn the engine over several times.
One of three LED's will indicate the engine's electrical condition
- Solid Red - No Spark (less than 200 Volts)
- Red Flashing - Voltage too low (250 to 2500 Volts)
- Green Flashing - Spark OK / Plug Firing (3000 to 13000 small engine setting / 3000 to 28000 automotive setting)
- Yellow Flashing - Voltage too high (More than 15000 volts small engine setting / More than 33000 volts automotive setting)

Features and Benefits
- Quickly and safely tests for proper spark on most 2 stroke and 4 stroke engines (small engines and vehicles) with and without electronic CD ignitions
- Eliminates guesswork
- Tests: Proper Voltage, High Voltage, Low Voltage, No Voltage
- One person - Hands free operation, just clip on the spark plug wire and turn the engine over
- Simple and reliable for home, shop and professional use
- Patented gripper hook
- Saves time and money
- Simple engine type slide switch - Switches between vehicles or small engines

BRIGGS & STRATTON

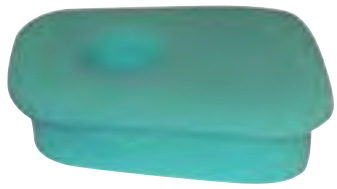
AIR101

9 316596 000937

Briggs & Stratton Foam Air Filter
Fits: 2 hp, 3 hp, 4 hp and 5 hp horizontal shaft engine models 60500, 61500, 80500, 81500, 90102, 130200 and 140200.
Length: 5 1/8" (130 mm)
Width: 3 1/2" (89 mm)
Height: 1 1/2" (38 mm)
Standard Pack 1

Briggs & Stratton
27987S
John Deere
AM34963

Use with our AIR6281 (FAB1) or AIR7643 (PJ1) air filter oil spray.



AIR102

9 316596 000944

Briggs & Stratton Foam Air Filter
Fits: 4 hp 10 CID vertical shaft engine models 60102, 100900 and 146402.
Length: 5 1/2" (140 mm)
Width: 3 1/2" (89 mm)
Height: 1 3/8" (35 mm)
Standard Pack 1

Briggs & Stratton
270067
John Deere
AM37489

Use with our AIR6281 (FAB1) or AIR7643 (PJ1) air filter oil spray.

AIR104

9 316596 000968

Briggs & Stratton Foam Air Filter
Fits: Model 130900
For 5 hp Vertical Shaft 13 Series Engines
Length: 5 3/4" (146 mm)
Width: 4 1/8" (105 mm)
Height: 1 1/2" (38 mm)
Standard Pack 1

270447

Use with our AIR6281 (FAB1) or AIR7643 (PJ1) air filter oil spray.

AIR105

9 316596 000975

Briggs & Stratton Foam Air Filter
Fits: Models 170700, 190700, 191700, 192700 and 193700.
For most 7 and 8 hp, Vertical Shaft Engines
Length: 8 1/2" (216 mm)
Width: 4 1/4" (108 mm)
Height: 1 1/2" (38 mm)
Standard Pack 1

Briggs & Stratton
270528
John Deere
AM49396

Use with our AIR6281 (FAB1) or AIR7643 (PJ1) air filter oil spray.

AIR106

9 316596 000982

Briggs & Stratton Foam Air Filter
Fits: Model 92000, 92500
For 3 and 3.5 hp
Auto Choke Engines Used
After Code 6808011
Length: 5 1/2" (140 mm)
Width: 4 1/4" (108 mm)
Height: 1 3/8" (35 mm)
Standard Pack 1

Briggs & Stratton
270579S
John Deere
M47949

Use with our AIR6281 (FAB1) or AIR7643 (PJ1) air filter oil spray.

AIR107

9 316596 000999

Briggs & Stratton Foam Air Filter
Fits: Models 220700, 251700, 252700, 253700, 255700 and 256700
For 10 and 11 hp
Vertical Shaft Engines
Length: 9 1/2" (241 mm)
Width: 4 9/16" (116 mm)
Height: 1 1/2" (38 mm)
Standard Pack 1

270843

Use with our AIR6281 (FAB1) or AIR7643 (PJ1) air filter oil spray.

AIR108

9 316596 001002

Briggs & Stratton Air Filter
Fits: Models 110900, 111900, 112900, 113900 and 114900
For 4 hp Auto Choke Engines
Length: 5 1/4" (133 mm)
Width: 4" (101 mm)
Height: 1 3/8" (35 mm)
Standard Pack 1

Standard Pack 1

INOX Battery Conditioner

Provides new life for mechanically sound old batteries and doubles life expectancy for new ones.

BAT5962

BAT5944

Approximately 75% of lead-acid battery failures are caused by a build up of sulphation on plates and separators. One treatment with INOX Battery Conditioner dissolves and helps prevent the recurrence of this battery killing sulphation, restores the active ingredients and allows the battery to operate at full capacity.

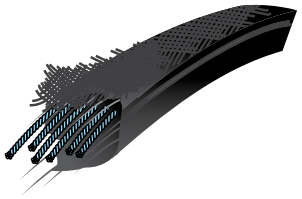
V-Belts Troubleshooting

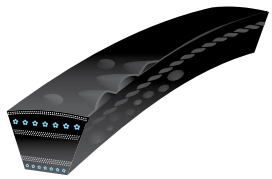


1 Broken Belt

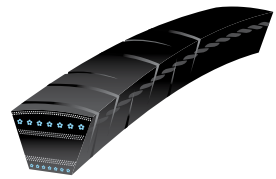
2 Cracking

3 Edge Cord Failure

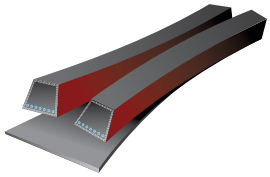
4 High Belt Temperature



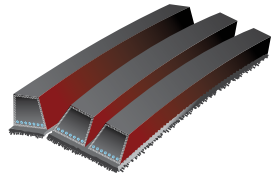
5 Surface Delaminating Swollen or Sticky



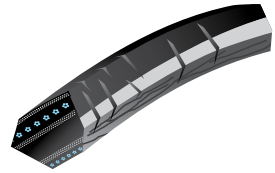
6 Surface Hard or Stiff



7 Tie Band Separation



8 Damage to Top of Tie Band

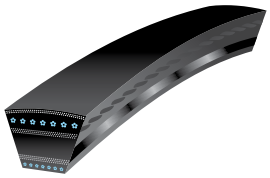


9 Comes Off Drive or Turns Over

	LIKELY CAUSE	REMEDY
1	**Broken Belt**	
	A. Severe shock load.	Reduce shock load by raising cutting height and cut at lower ground speed.
	B. Belt pried or rolled onto pulley.	DO NOT pry belts on, follow manufacturer's fitting instructions.
	C. Under-designed drive.	Check for modifications and return to manufacturer's specifications.
	D. Object falling into drive.	Ensure all drive guards are fitted and in position.
2	**Cracking**	
	A. Improper belt storage.	Don't kink, bend or coil belt too tightly. Avoid storing in direct sunlight.
	B. Backside idler diameter too small.	Check for modifications and return to manufacturer's specifications.
	C. Pulleys too small for belt section.	Fit larger diameter pulleys.
	D. Belt slip.	Adjust belt tension to manufacturer's recommendations.
	E. Excessive hot or cold temperature.	Control drive environment.
3	**Edge Core Failure**	
	A. Damaged edge core.	Follow correct installation procedure.
	B. Pulley misalignment.	Check pulleys for correct alignment.
	C. Worn or incorrect pulleys.	Replace pulleys for correct belt/pulley match.
4	**High Belt Temperature**	
	A. Slipping.	Re-tension as per manufacturer's specification.
	B. Hot drive environment.	Improve ventilation to drive.
5	**Surface Delaminating Swollen or Sticky**	
	A. Oil or fuel contaminating belt.	Eliminate source of contamination oil, fuel leaks and grease. DO NOT use belt dressing!
6	**Surface Hard or Stiff**	
	A. Slipping.	Re-tension as per manufacturer's specification.
	B. Hot drive environment.	Improve ventilation to drive.
7	**Tie Band Separation**	
	A. Improper groove spacing.	Use pulleys manufactured to industry specifications.
	B. Worn or incorrect pulleys.	Replace pulleys.
	C. Pulley misalignment.	Realign drive.
8	**Damage to Top of Tie Band**	
	A. Backside idler malfunction.	Replace or repair backside idler.
	B. Interference with guard.	Check and adjust guard.
	C. Debris in pulleys.	Clean pulleys.
9	**Comes Off Drive or Turns Over**	
	A. Pulley misalignment.	Realign pulleys.
	B. Vibration or shock loading.	Check drive design.
	C. Pulley grooves worn.	Replace pulleys.
	D. Undersize pulley.	Replace pulley with correct diameter.
	E. Foreign object in pulley.	Keep deck and drive clear of foreign material.

V-Belts Troubleshooting

10 Undercord Cracked

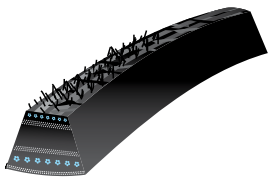


11 Sidewall Hardening or Burnt

12 Unusual Noise

13 Unusual Vibration

14 Bottom Corner Wear



15 Bottom Surface Wear

16 Wear on Sidewalls

17 Wear on Top Corner

18 Wear on Top Surface

	LIKELY CAUSE	REMEDY
10	**Undercord Cracked**	
	A. Belt slipping.	Re-tension as per manufacturer's specifications.
	B. Pulleys too small for belt section.	Use larger diameter pulleys.
	C. Backside idler diameter is too small.	Check for modifications and return to manufacturer's specifications.
	D. Belt stored incorrectly.	Don't kink, bend or coil belt too tightly. Avoid storing in direct sunlight.
	E. Excessive operating temperatures.	Use equipment as per manufacturer's recommendations.
11	**Sidewall Hardening or Burnt**	
	A. Belt slipping.	Re-tension as per manufacturer's recommendations.
	B. Shaft movement.	Check for centre distance changes and repair as required.
	C. Worn pulleys.	Replace pulleys.
	D. Under-designed drive.	Check for modifications and return to manufacturer's specifications.
12	**Unusual Noise**	
	A. Incorrect tension.	Re-tension as per manufacturer's specification.
	B. Incorrect belt for pulleys.	Use correct belt size and type.
	C. Pulley misalignment.	Realign pulleys.
	D. Worn pulleys.	Replace pulleys.
	E. Debris in pulleys.	Keep deck and drive clear of foreign material. Clean pulleys, remove any dirt, rust or paint from grooves and improve shielding.
13	**Unusual Vibration**	
	A. Incorrect belt.	Fit correct belt, ensure pulley and belt match.
	B. Poor equipment structural design.	Check structure for damage, adequate strength and rigidity.
	C. Pulley unevenly worn; worn out; or damaged.	Replace faulty pulley.
	D. Loose drive components.	Check all components for adequate strength, stability and installation; including guards, motor mounts, bushes, brackets and framework.
14	**Bottom Corner Wear**	
	A. Belt-to-pulley fit incorrect.	Fit correct belt, ensure pulley and belt match.
	B. Worn pulleys.	Replace pulleys.
15	**Bottom Surface Wear**	
	A. Belt bottoming against pulley groove bottom.	Fit correct belt, ensure pulley and belt match.
	B. Worn pulleys.	Replace pulleys.
	C. Debris in pulleys.	Remove debris and check pulleys for damage.
16	**Wear on Sidewalls**	
	A. Belt slipping.	Re-tension as per manufacturer's recommendations.
	B. Incorrect belt.	Replace with correct belt size.
	C. Pulley misalignment.	Realign pulleys.
	D. Worn pulleys.	Replace pulleys.
17	**Wear on Top Corner**	
	A. Belt-to-pulley fit incorrect.	Fit correct belt, ensure pulley and belt match.
	B. Belt rubbing against guard or drive structure.	Adjust guard to remove obstruction.
18	**Wear on Top Surface**	
	A. Belt rubbing against guard.	Adjust or replace guard.
	B. Damaged idler.	Replace idler.

BELT CONVERSION GUIDE

Australian Belts — Measure Inside Circumference.

A, B and M Section Conventional V-Belts

Note: The last two numbers in the part number designates the inside diameter of the belt in inches. To convert to outside diameter use the following formula –

"A" Section inside length plus 2" equals "O.D" (eg A54 = 6856)
"B" Section inside length plus 3" equals "O.D" (eg B74 = 6977)
"M" Section inside length plus 1" equals "O.D" (eg M31 = 6732)

USA Belts — Measure Outside Circumference.

67 (3L), 68 (4L) and 69 (5L) Premium Quality V-Belts

Note: The last two numbers in the part number designates the outside diameter of the belt in inches. To convert "O.D" to "I.D" use the following formula –

67 series or (3L) outside length minus 1" equals "I.D" (eg 6732 = M31)
68 series or (4L) outside length minus 2" equals "I.D" (eg 6856 = A54)
69 series or (5L) outside length minus 3" equals "I.D" (eg 6977 = B74)

Look For The Mark Of Quality

- All of our swing back blades are manufactured from BHP steel in Australia to conform to the Australian Standards set out for rotary swing back blades (For safety and public liability reasons we only use BHP Steel)
- All of our swing back blades are heat treated in Australia by an Australian Standards accredited heat treatment company. Samples from each batch are tested by a qualified metallurgist to insure conformance to the Australian Standards.
- Every component in our swing back blade and bolt sets including the packaging is Australian made and/or sourced

Look For The Mark Of Quality

- All of our swing back blades are manufactured from BHP steel in Australia to conform to the Australian Standards set out for rotary swing back blades (For safety and public liability reasons we only use BHP Steel)
- All of our swing back blades are heat treated in Australia by an Australian Standards accredited heat treatment company. Samples from each batch are tested by a qualified metallurgist to insure conformance to the Australian Standards.
- Every component in our swing back blade and bolt sets including the packaging is Australian made and/or sourced

All hex holes are measured flat to flat

Look For The Mark Of Quality

- All of our swing back blades are manufactured from BHP steel in Australia to conform to the Australian Standards set out for rotary swing back blades (For safety and public liability reasons we only use BHP Steel)
- All of our swing back blades are heat treated in Australia by an Australian Standards accredited heat treatment company. Samples from each batch are tested by a qualified metallurgist to insure conformance to the Australian Standards.
- Every component in our swing back blade and bolt sets including the packaging is Australian made and/or sourced

All length measurements are from centre of hole to end of blade. Sold in sets of 2 unless otherwise stated.

COX

Please note: When installing a new Cox drive cone please insure the drive plate surfaces are in good condition with no grooves. It is necessary to deglaze the drive plate surface so the new cone will not slip generating excessive heat and damaging the drive cone. As the new cones can no longer contain asbestos over heating will cause premature failure. A quick way to deglaze the drive plates is to use a 4" disc sander with medium grit paper. This can also be done quickly at each service to reduce drive failure.
It is only necessary to take the shine off the surface to give the cone a surface to grip to. Any grooves will need to be machined in a lathe.

CHD5335
9316596046034

Cox Non Genuine Clutch Cone, now with a Steel Insert, Pin and Washers (Old type clutch cone with one pin hole). Fits: Compact Tractors: 1983 - 1993 09B0, 09B6, 09D1, 09F3, 09J1, 09J6, 09M7 models. HOW TO MEASURE ROLLER CHAIN

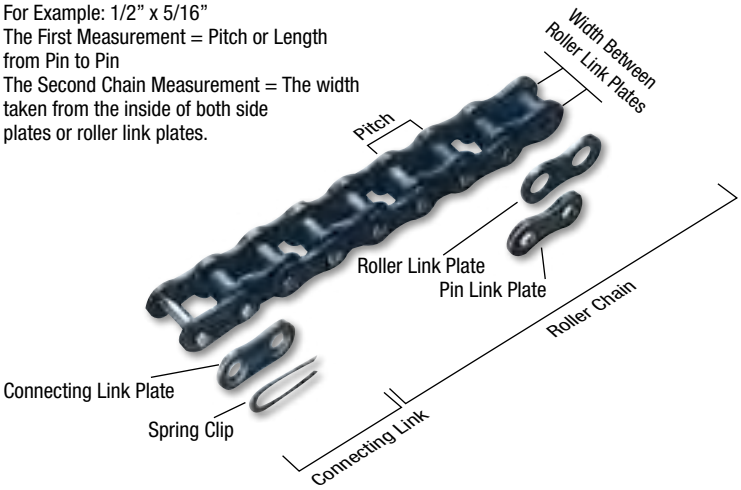
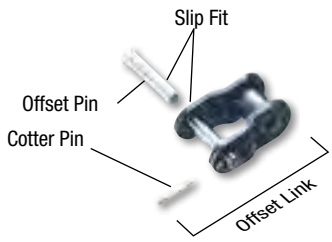
For Example: 1/2" x 5/16"
The First Measurement = Pitch or Length from Pin to Pin
The Second Chain Measurement = The width taken from the inside of both side plates or roller link plates.



Example of Half Link or Offset Link



Part No	Description	Pin Count	Replaces OEM

AMC

AMCF0069

9316596085903

AMC Small Type Clutch Cork
Fits: 240 mm friction drive (small drive type outside pulley size) as used on early model Explorer XL 13/33.
Actual cork size: O.D: 176 mm
I.D: 80 mm
Standard Pack 1

For large type 305 mm friction drives use our 237 mm O.D clutch cork AMCF0020

Genuine AMC Part No F0069

AMCF0020

9316596081646

AMC Clutch Cork
Fits: 305 mm friction drive (large drive type, outside pulley size) as used on selected Explorer, Outback and Resort ride on lawnmowers and AMC Supa Chipper models.
Actual clutch cork size: O.D: 237 mm
I.D: 162 mm
Standard Pack 1

Genuine AMC Part No F0020

COX

When installing a new Cox drive cone please insure the drive plate surfaces are in good condition with no grooves. It is necessary to deglaze the drive plate surface so the new cone will not slip generating excessive heat and damaging the drive cone. As the new cones can no longer contain asbestos over heating will cause premature failure. A quick way to deglaze the drive plates is to use a 4" disc sander with medium grit paper. This can also be done quickly at each service to reduce drive failure. It is only necessary to take the shine off the surface to give the cone a surface to grip to. Any grooves will need to be machined in a lathe.

CHD5335

9316596046034

Cox Non Genuine Clutch Cone, now with a Steel insert pin and washers (Old type clutch cone with one pin hole)
Fits: Compact Tractors: 09F3, 09B6, 09J6, 09M7, 09BO, 09D1, 09J1, New Generation: 13hp, 16hp, 18hp 5398A CR531, CR532, CR533, CR534, CR535, CR536. Orion XL and Professional: 1991 to 1993 models. ELECTRIC CLUTCHES

IMPORTANT INFORMATION ON ELECTRIC CLUTCHES

GA Spares stock's Warner Clutches which are the industry standard in clutches and used by many OEM's around the world. Electric PTO Clutches are a specialist component that should only be fitted by a servicing dealer with the correct equipment to test both the charging circuits and battery condition, over the counter sales of clutches as spare parts should be discouraged.
WHY? - The main causes of failures to electric clutches are due to faults with the battery and or charging circuits not providing the correct current to operate the clutch adequately leading to premature failure. It is therefore the responsibility of the servicing dealer to test these items prior to installing a new clutch, failure to do so will void warranty. Warranty covers normal use and does not cover damage or defect which results from alteration, accident, neglect, or improper clutch selection, installation, operation, or maintenance. Warranty covers faulty manufacture and or workmanship.

Standard Pack 1

Part No.	Description	Image

CARTS, TRAILERS, SWEEPER & ACCESSORIES

CRT7479

9 316596 089215

Professional Grade Tow Behind Lawn Sweeper
This professional grade lawn sweeper features a 26 cubic foot heavy duty collector bag and an extra wide 50" sweeping path allowing you to get your lawn care done faster than ever.
High density brushes are extremely effective at collecting leaves, grass, pine needles, most types of nuts and other lawn debris.
Exclusive patented brush sweeps more efficiently than standard sweepers and puts less stress on gears for longer life.
Positive lock height adjustment will not vibrate out of position and has easy to remember height settings.
The collector bag easily empties by pulling a rope from the seat of your ride-on or ATV, just reverse to your compost heap, pull the rope and you're done.
The extra wide 9 inch chute is less likely to clog especially when sweeping damp grass clippings that clump together.
A 5 position hitch adjustment allows for efficient level operation with any ride on hitch height.
Specifications:
Sweeping Path: 50" (1270 mm)
Ratio: 4.5 to 1 Brush to wheel turning ratio
Capacity: 26 cu. ft (736.23 litres)
Brushes: 11" polypropylene (spiral)
Bearings: Steel ball bearings on brush axle
Hopper collapses for easy storage.
Shipping Weight: 102 lbs. (46.26kg)
Carton Size: 17.5"x 57.5"x 12.5"
Standard Pack 1

BRIGGS & STRATTON			
ECP618	**Briggs & Stratton** Coil Fits: Models 144200, 144400, 144700, 145200, 145400, 145700, 146400, 146700, 147400, 147700, 170400, 170700, 190400, 190700, 191700, 193400, 200400, 233400, 233400, 243400, 250000, 300400, 301430, 302430 and 301430 For Most 7-16hp Engines with Breaker Points Ignition Standard Pack 1	298968 395492	
ECP2860	**Briggs & Stratton** Magneto Armature Fits: 16-18hp Horizontal and Vertical Twin (L-Heads) Models 400400 to 422700 Standard Pack 1	394891 392329 394988 590781	
ECP6904	**Briggs & Stratton** Ignition coil / armature. Fits: Intek V-Twin 18hp through to 22hp engines including 4025A7, 4035A7, 4045A7, 404577, 405577, 405777, 40577A, 406577, 406677, 406777, 407577, 4075A7, 407677, 407777, 40F777, 40G777, 40H777, 445677, 445777, 446777, 543477 series. Standard Pack 1	691060	
ECP613	**Briggs & Stratton** Ignition Points Fits: Models 6B, 8B 60100 and up 80100 and up 84500 and up 100000 and up to 130000 and 170000 2-8hp Engines. Standard Pack 1	294628	
ECP615	**Briggs & Stratton** Ignition Points Fits: Models 19D, 23D, 193400, 200400, 233400, 243400, 300400, 301430, 302430, 320420, 325430 8-16hp Cast Iron Models Standard Pack 1	298185	
ECP5923	**Briggs & Stratton** Diode For 2-4 AMP charging systems. Fits: Briggs & Stratton 6 AMP diodes instead of OEM 3 AMP. Standard Pack 1	393814	
ECP5924	**Briggs & Stratton** Diode For 2-4 AMP dual circuit alternators. Fits: Briggs & Stratton 6 AMP diodes instead of OEM 3 AMP. Standard Pack 1	393456	
ECP5925	**Briggs & Stratton** Diode For 5 AMP tri-circuit harness alternators. Fits: Briggs & Stratton 6 AMP diodes instead of OEM 3 AMP. Standard Pack 1	392606 691955	
ECP6201	**Briggs & Stratton** Wiring Harness with connector for 2-4 amp charging systems, Used on models 197400, 280700 and 351700 Series Standard Pack 1	692306 393422	
ECP5922	**Briggs & Stratton** Voltage Regulator As fitted to 138437, 138467, 190402, 190406, 190407, 190412, 190415, 190417, 190432, 190436, 190417, 190432, 190436, 190437, 190452, 195412, 195422, 226432, 226437, 226452, 254412, 254415 model series Standard Pack 1	394890 691185	
ECP6329	**Briggs & Stratton** Voltage Regulator 5 and 9 Amp Charging Systems Standard Pack 1	691188 491546	ECP6324	**Briggs & Stratton** Voltage Regulator 8 Amp Quad Circuit Charging System Standard Pack 1	397809

KOH2808502-S

9 316596 089871

Replaces Genuine Kohler 25 AMP Stator Kit
Fits: Kohler Command Pro Single 11hp to 14hp CH11, CH14 engine models.
Command Pro V Twin OHV 18hp to 26hp CH18, CH20, CH22, CH23, CH25, CH26, CH640 engine models.
K Series 23hp K582 engine models.
Magnum 12hp to 20hp M12, M16, M18, M20, MV18 engine models.
OHC V Twin 16hp engine models.
Kit Includes:
28 085 02-S x 1 Stator assembly 25 amp
25 086 29-S x 4 Self tapping screws
25 155 06-S x 2 Connector
25 452 01-S x 3 Terminal
25 452 06-S x 2 Terminal

UNIVERSAL

ECP633

9 316596 028177

Universal Electronic Ignition Module
Ideal for replacing points on Brushcutters, Lawnmowers, stationary engines etc.
Fits: **Victa Powertorque** engine models as the module that is separate to the coil from 1988 to 1996.
(Please Note: later models have module as part of the coil our VIC5977 assembly)
Also Fits: Victa 125cc and 160cc models prior to electronic ignition when replacing points, use with our ECP634 coil.
Standard Pack 1

Victa
MA05617

TOL7829

9 316596 096909

CheckSpark Engine Ignition Analyser
CheckSpark safely tests for proper spark, shorted or fouled spark plugs and even open or broken spark plug wires. This engine ignition analyser is a highly accurate diagnostic sensor that uses micro-circuit technology to troubleshoot why your outdoor power equipment or vehicle will not start.
Simply clip connect the CheckSpark tester to the plug wire of the non-running engine and firmly pull the recoil starter or energize the electric starter long enough to turn the engine over several times.
One of three LED's will indicate the engine's electrical condition.

- Solid Red - No Spark (less than 200 Volts)
- Red Flashing - Voltage too low (250 to 2,500 Volts)
- Green Flashing - Spark OK / Plug Firing (3,000 to 13,000 small engine setting / 3,000 to 28,000 Automotive setting)
- Yellow Flashing - Voltage too high (More than 15,000 volts small engine setting / More than 33,000 volts automotive setting)

Features & Benefits

- Quickly and safely tests for proper spark on most 2 stroke and 4 stroke engines (small engines and vehicles) with and without electronic CD ignitions.
- Eliminates guesswork
- Tests: Proper Voltage, High Voltage, Low Voltage, No Voltage
- One person - Hands free operation, just clip on the spark plug wire and turn the engine over.
- Simple and reliable for home, shop and professional use
- Patented gripper hook
- Saves time and money
- Simple engine type slide switch - Switches between vehicles or small engines.

Standard Pack 1

Kawasaki

VERTICAL SHAFT AIR-COOLED ENGINES - WITH DUAL STAGE AIR FILTERS

ENG7491

9 316596 091966

Kawasaki 4.5hp (3.4kw) 179cc FJ180V-S17 model Vertical Shaft engine with a 7/8" crankshaft, single cylinder forced air cooled , overhead valve, forced lubrication, electronic spark ignition, automatic compression release, dual element air cleaner, rotating grass screen, internally vented carburettor, cast iron cylinder liner and chrome plated piston rings, oil filter, fuel tank, recoil starter, engine brake, combined crankcase design, large sealed fan.
Torque = 7.3ft lb (10nm) @ 2,400rpm
Dry Weight: 13.5kg
Standard Pack 1
PLEASE NOTE: Horsepower rating as tested to SAE J1995 Standards.

With Engine Brake

ENG7821

9 316596 097005

NEW

Kawasaki 4.5hp (3.4kw), 179cc, FJ180V-M01-M model Vertical Shaft engine with a 1" crankshaft, single cylinder forced air cooled, overhead valve, forced lubrication, electronic spark ignition, automatic compression release, dual element air cleaner, rotating grass screen, internally vented carburettor, cast iron cylinder liner and chrome plated piston rings, fuel tank, recoil starter, combined crankcase design, large sealed fan.
Note: No engine brake, no oil filter (but can be fitted see below), no fuel tap.
Dry Weight: 13.5kgs
Parts required to retrofit an oil filter to this engine are -
Oil Filter KAW49065-7010 x 1
Pipe KAW32154-7018 x 1
Gasket KAW11009-2860 x 1
Bolts KAW92153-7028 x 3

Please note: If fitting the oil filter assembly the gasket on the oil filter pipe must be changed to direct all the oil through the filter.

Standard Pack 1
PLEASE NOTE: Horse power rating as tested to SAE J1995 Standards.

ENG7496

9 316596 091973

Kawasaki 14.5hp (10.8kw) 603cc S481V-S00-S model Vertical Shaft engine with 1" x 80 mm crankshaft, 90 degree V Twin, Overhead V-Valve, High Performance Pressurised Lubrication, Electronic Spark Ignition, Automatic Decompression, Internally Vented Carburettor with Fuel Shut-Off Solenoid, Rotating Grass Screen, Dual Element Air Filter, Cast Iron Cylinder Liners, Specially designed plastic blower housing that makes for quieter operation, Electric Start.
Note: No Fuel Tank or Muffler Included.
Torque = 30.9ft lb (40.2nm) @ 1,800rpm
Dry Weight: 36.7kg
Standard Pack 1
PLEASE NOTE: Horsepower rating as tested to SAE J1995 Standards.

ENG7603

9 316596 092017

Kawasaki 24hp (17.9kw) 726cc FS730V-S00-S model Vertical Shaft engine
with 1 1/8" x 108.8 mm crankshaft, 90 degree V Twin, Overhead V-Valve, High Performance Pressurised Lubrication, Electronic Spark Ignition, Automatic Decompression, Internally Vented Carburettor with Fuel Shut-Off Solenoid, Rotating Grass Screen, Dual Element Air Filter, Cast Iron Cylinder Liners, Specially designed plastic blower housing that makes for quieter operation, Electric Start.
Note: No Fuel Tank or Muffler Included.
Torque = 40ft lb (54.2nm) @ 2,400rpm
Dry Weight: 41.5kg
Standard Pack 1
PLEASE NOTE: Horsepower rating as tested to SAE J1995 Standards.

Kawasaki

VERTICAL SHAFT AIR-COOLED ENGINES - WITH CANISTER HEAVY DUTY AIR FILTERS

ENG7500

9 316596 092024

Kawasaki 15.5hp (11.6kw) 603cc FX481V-S00-S model Vertical Shaft engine
with a 1" x 80 mm crankshaft, 90 degree V Twin Overhead V-Valve, Oil Filter, Electric Start, Electronic Spark Ignition, Automatic Decompression, Cast Iron Cylinder Liners, Twin Barrel Internally Vented Carburettor with Fuel Shut-Off solenoid, Dual Stage Canister Heavy Duty Air filter for ZTR, High Performance pressurised lubrication system, High efficiency oil cooler, Large Capacity Fuel Pump
Note: No Fuel Tank or Muffler Included.
Torque = 30.9ft lb (40.2nm) @ 1,800rpm
Dry Weight = 40.7kg
Standard Pack 1
PLEASE NOTE: Horsepower rating as tested to SAE J1995 Standards.

ENG7651

9 316596 094653

Kawasaki 16.5hp (12.3kw) 603cc FX541V-S00-S model Vertical Shaft engine
with a 1" x 80mm crankshaft, 90 degree V Twin Overhead V-Valve, Oil Filter, Electric Start, Electronic Spark Ignition, Automatic Decompression, Cast Iron Cylinder Liners, Twin Barrel Internally Vented Carburettor, Dual Stage Canister Heavy Duty Air filter for ZTR, High Performance pressurised lubrication system, High efficiency oil cooler, Large Capacity Fuel Pump
Note: No Fuel Tank or Muffler Included.
Torque = 32.1 ft lb (43.4nm) @ 2,000rpm
Dry Weight = 40.7kg
Standard Pack 1
*** PLEASE NOTE: Horsepower rating as tested to SAE J1995 Standards. ***

Kawasaki

VERTICAL SHAFT ENGINES - ACCESSORIES

MUF6638

9 316596 080168

Kawasaki lo-tone drop down muffler including deflector shield and left and right hand side exhaust pipes.
Replaces OEM:
Husqvarna 532 14 97-23, 532 12 24-40 (Muffler)
532 17 60-67 (Left hand exhaust tube)
532 17 60-68 (Right hand exhaust tube)
Fits: FH381V - FH580V Kawasaki engine models as fitted to Husqvarna ride on lawnmowers including Husqvarna YTH1542XP model etc.
Also used when re-powering AYP, Craftsman, Husqvarna and John Deere L Series ride on lawnmowers with Kawasaki engines.
Standard Pack 1

MUF6992

9 316596 086603

ZTR Muffler
Fits: **Kawasaki FH601V - FH721V** vertical shaft engine models.
Standard Pack 1

MUF7648

9 316596 092475

Drop Down Muffler
Fits: Selected **Kawasaki** vertical shaft engines including FS481V, FS600V, FX481V, FX541V, FX600V engine models.
Standard Pack 1

MUF7650

9 316596 092482

Drop Down Muffler.
Fits: Selected **Kawasaki** vertical shaft engines including - FS651V, FS691V, FS730V, FX691V, FX730V engine models.
Standard Pack 1

MUF6994

9 316596 086610

ZTR Muffler
Fits: **Kawasaki FX751V - FX850V** vertical shaft engine models.
Standard Pack 1

MUF6996

9 316596 086627

ZTR Muffler.
Fits: **Kawasaki FX1000-AS00 36hp (26.8kw)** vertical Shaft Engines (Our engine part # ENG6824)
Standard Pack 1

MUF7859

9 316596 097579

ZTR Drop Down Muffler
Fits: BigDog & Hustler ZTR's etc when fitted with **Kawasaki** FX921V to FX1000V vertical shaft engine models.
Features:
- Built in spark arrestor screen.
- Extension pipe with turn down tip.
- Includes exhaust clamp for turn down pipe.

Standard Pack 1

MUF7568

9 316596 092826

Kawasaki Catalytic Converter Muffler.
Fits Kawasaki FS481V to FS600V engine models.
Standard Pack 1

Kawasaki
HORIZONTAL SHAFT AIR-COOLED ENGINES

ENG6359

9 316596 073764

Kawasaki 2.5hp (1.9kw) 98cc FJ100D-S00 Horizontal Shaft engine with a 5/8" crankshaft, Overhead Valve, Electronic Ignition, Recoil Starter, Automatic Decompression, Low Tone Muffler and Guard, Fuel shut-off valve, Cast iron cylinder liner, Semi wet type air filter and Fuel tank.
Torque = 3.6ft lb (5.0nm) @ 2,800rpm
Dry Weight = 11kg
Standard Pack 1
PLEASE NOTE: Net Horsepower rating as tested to SAE1349 Standards

Kawasaki
HORIZONTAL SHAFT AIR-COOLED ENGINES - WITH DUAL STAGE AIR FILTERS

ENG6364

9 316596 073801

Kawasaki 21.4hp (16.0kw) 675cc FH721D-S01-S Horizontal Shaft engine with a 1 1/8" Crankshaft, 90 degree V Twin Overhead V-Valve, Pressurised Lubrication, Oil Filter, Electronic Ignition, Automatic Decompression, Dual Element Air Filter, Cast Iron Cylinder Liners, Twin Barrel Internally Vented Carburettor with Fuel Shut- Off solenoid, Electric Start, Muffler.
Note: No Fuel Tank Included.
Torque = 35.5ft lb (48.2nm) @ 2,400rpm
Dry Weight = 44kg
Standard Pack 1
PLEASE NOTE: Net Horsepower rating as tested to SAE1349 Standards

Kawasaki
HORIZONTAL SHAFT AIR-COOLED ENGINES - WITH HEAVY DUTY CANISTER AIR FILTERS

ENG6879

9 316596 086771

Kawasaki 23.4hp (17.5kw) 746cc FH770D-S01 Horizontal Shaft engine with a 1 1/8" Crankshaft, 90 degree V Twin Overhead V-Valve, Pressurised Lubrication, Oil Filter, Electronic Ignition, Automatic Decompression, Twin Barrel Internally Vented Carburettor with Fuel Shut-Off Solenoid, Cast Iron Cylinder Liner, Electric Start, Muffler, Heavy Duty Canister Air Filter.
Note: No Fuel Tank Included.
Torque = 41.3ft lb (56nm) @ 2,200rpm
Dry Weight = 44.5kg
Standard Pack 1
PLEASE NOTE: Net Horsepower rating as tested to SAE1349 Standards

Kawasaki
HORIZONTAL SHAFT LIQUID COOLED ENGINES - WITH HEAVY DUTY CANISTER AIR FILTERS

ENG6454

9 316596 086702

Kawasaki 25hp (18.7kw) 745cc FD750D-S06 model Horizontal Shaft engine with a 1 1/8" Crankshaft, 90 degree V Twin Overhead V-Valve, Liquid Cooled, Water Temperature Switch, Pressurised Lubrication, Oil Filter, Oil Pressure Switch, Carburettor with Fuel Shut-Off Solenoid, Cast Iron Cylinder Liners, Muffler, Electric Start, Heavy Duty Canister Air Filter.
Note: No Fuel Tank Included.
Torque = 41.0ft lb (55.6nm) @ 2,600rpm
Dry Weight = 55.5kg
Standard Pack 1
PLEASE NOTE: Net Horsepower rating as tested to SAE1349 Standards

ENG6453

9 316596 086665

Kawasaki 26hp (19.4kw) 745cc FD791D-S01 model Horizontal Shaft engine with 1 1/8" Crankshaft, 90 degree V Twin Overhead V-Valve, Liquid Cooled, Pressurised Lubrication, Oil Filter, Oil Pressure Switch, Electonic Ignition, Choke Free Operation, Water Temperature Sensor High Pressure Electric Fuel Pump, Cast Iron Cylinder Liners, Muffler, Electric Start, Heavy Duty Canister Air Filter, DFI Multi Port Digital Fuel Injection.
Note: No Fuel tank Included.
Torque = 40.5ft lb (54.9nm) @ 2,800rpm
Dry Weight = 55.5kg
Standard Pack 1
PLEASE NOTE: Net Horsepower rating as tested to SAE1349 Standards

E-Z Reacher PRO

The new E-Z Reacher® Pro is the heavy duty, no-rust tool for the toughest jobs in industrial and maintenance settings. You will be able to easily pick up everything from broken glass to a brick without painful bending, and hold it firmly and safely with the included locking feature. Anyone wanting to work more quickly, efficiently and safely needs this new professional grade tool.

Nimble enough to pick up a coin...

Yet strong enough to pick up a brick!

NEW rounded body with no annoying and painful "wings"

NEW Heavy Duty locking feature

NEW extended handle provides full support for better ergonomics and no irritation to your palm

NEW soft overmould trigger is easy on all fingers and prevents finger rub

ANOTHER GREAT TIME SAVING PRODUCT

ThreeBond Pando 391D Aerosol Gasket Remover 420 ml can.

A powerful aerosol type gasket remover that quickly and easily strips off liquid gasket, packing and sealing compounds and loosens baked on solid gaskets, greatly reducing time labour and effort required. Also ideal for stripping off burnt oil or carbon.

GOVERNOR AND THROTTLE LINKAGE SPRINGS

KOH2408945-S

9 316596 097838

Replaces Genuine Kohler Governor Spring - Blue.
Fits: Command Pro Twin OHV 17hp to 25hp engines including CH18, CH22, CH23, CH25, CH620, CH640, CH680, CH730, CH740, CH750, CV17, CV18, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV675, CV680, CV724, CV725, CV730, CV740, CV745, CV750 engine models.
Fits: Comand Pro Twin EFI 23hp to 29hp engines including ECH680, ECV730, ECV740, ECV749 engine models.
Fits: Command Pro Twin Flex Fuel 25hp FCV740 and Command Pro Twin Propane 24hp PCV740 models.
Standard Pack 1

24 089 45-S

KOH2408951-S

9 316596 097845

Replaces Genuine Kohler Throttle Limiter Spring
Fits: Aegis V Twin OHV 22hp to 30hp LH630, LH640, LH685, LH690, LH750, LH755, LH775, LV675, LV680 engine models.
Fits: Command Pro Twin OHV 17hp to 28hp engines including CH18, CH20, CH22, CH23, CH25, CH620, CH621, CH640, CH641, CH670, CH680, CH730, CH740, CH745, CV17, CV18, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV724, CV730, CV740 engine models.
Fits: Command Pro Twin OHV EFI 19hp to 29hp engines including CH26, CH735, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749 engine models.
Fits: Command Pro V Twin OHV EFI Propane 23hp to 25hp engines including PCH680 and PCH740 engine models.
Standard Pack 1

24 089 38-S
24 089 51-S

KOH2408954-S

9 316596 097852

Replaces Genuine Kohler Throttle Linkage Spring
Fits: Command Pro Twin OHV 20hp to 25hp engines including CH20, CH23, CH680, CH730, CH740 engine models.
Standard Pack 1

24 089 54-S

KOH1275733-S

9 316596 091508

Replaces Genuine Kohler Fuel Solenoid.
Fits: Command Pro Single OHV 11hp to 18hp engines models including CH11, CH13, CH15, CH16, CH450, CV13, CV14, CV15, CV16, CV450, CV460, CV461, CV490, CV491, CV492, CV493.
Standard Pack 1

12 757 33
12 757 33-S

KOH2575725-S

9 316596 092864

Replaces Genuine Kohler Fuel Solenoid Kit.
Fits: Selected Courage single cylinder OHV 19hp to 22hp SV590, SV600, SV610, SV620 engine models.
Standard Pack 1

25 757 25-S

KOH2475745-S

9 316596 097876

Replaces Genuine Kohler Fuel Solenoid Repair Kit
Fits: Command Pro Twin OHV 22.5hp to 23hp including CV22, CV22S, CV23, CV675, CV680 engine models.
Fits: Courage Twin OHV 20hp to 27hp including SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Standard Pack 1

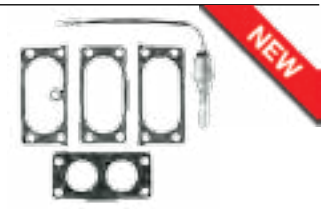
24 757 45-S

KOH2475750-S

9 316596 097807

Replaces Genuine Kohler Fuel Solenoid Repair Kit
Fits: Command Pro Twin OHV 17hp to 37hp including CH750, CH940, CH960, CH980, CH1000, CV750, CV940, CV960, CV980, CV1000 engine models.
Standard Pack 1

24 757 50-S



KOH2458444-S

9 316596 094141

Replaces Genuine Kohler Engine Management Module (ECU) 32 Pin.
Fits: Selected Command Pro Twin EFI 26hp engine models including CH26 (after serial number 3807400001), CH735, CV26 (after serial number 3719900001).
Standard Pack 1

For 24 Pin ECU use our part number KOH2458428-S

24 584 44-S

KOHLER PARTS

OIL SYSTEM - OIL FILTERS & OIL SEALS

KOH2403219-S

9316596097531

Replaces Genuine Kohler Oil Seal
Fits: Aegis V Twin Liquid Cooled OHV 22hp including selected LH630, LH640, LH685, LH690, LH750, LH755, LH775, LV675, LV680 engine models.
Fits: Confidant V Twin OHV 19hp to 25hp including selected ZT710, ZT720, ZT730, ZT740 engine models.
Fits: Command Pro Twin OHV 18hp to 30hp including selected CH18, CH20, CH22, CH23, CH25, CH620, CH640, CH641, CH670, CH680, CH682, CH730, CH732, CH740, CH750, CH752, CV17, CV18, CV19, CV20, CV22, CV23, CV25, CV620, CV624, CV640, CV670, CV675, CV680, CV682, CV724, CV725, CV740, CV742, CV745, CV750 engine models.
Fits: Command Pro Twin EFI, OHV 19hp to 29hp including selected CH26, CH735, CH745, ECH630, ECH650, ECH680, ECH730, ECH740, ECH749, ECV650, ECV680, ECV730, ECV740, ECV749 engine models.
Fits: Command Pro Propane OHV, EFI 23hp to 25hp including selected PCH680, PCH740, PCV680, PCV740 engine models.
Fits: Command Pro FCV740 engine models.
Fits: Courage Twin OHV 20hp to 27hp including selected SV710, SV715, SV720, SV725, SV730, SV735, SV740, SV810, SV820, SV830, SV840 engine models.
Fits: 7000 Series 20hp to 26hp including selected KT715, KT725, KT730, KT735, KT740, KT745 engine models.
Standard Pack 1

2 STROKE OIL

LUB6184

9 316596 070831

200 ml 2 Stroke Oil (Dyed Green)
A high quality two stroke oil for use in small air-cooled two stroke engines.
Due to its excellent thermal stability and offering a low ash performance.
Conforms to: API TC, JASO FC, GLOBAL GC performance requirements.
Standard Pack 1 Bottle
Box Quantity 24 Bottles
Refer to your owners manual for the correct fuel/oil mixing ratio for your equipment

LUB6005S

9 316596 059973

1 Litre 2 Stroke Oil - Chamber Pack (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1 Bottle
Box Quantity 12 Bottles
Refer to your owners manual for the correct fuel/oil mixing ratio for your equipment

LUB6006

9 316596 059980

4 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1 Container
Box Quantity 4 Containers
Refer to your owners manual for the correct fuel/oil mixing ratio for your equipment

LUB6007

9 316596 059997

20 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1
Use with LUB7540 tap
Refer to your owners manual for the correct fuel/oil mixing ratio for your equipment

LUB5286

9 316596 059911

205 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1
Refer to your owners manual for the correct fuel/oil mixing ratio for your equipment

LUB4062

9 316596 032303

205 Litre 2 Stroke Oil (Dyed Green)
A high quality two stroke oil for use in small air-cooled two stroke engines.
Due to its excellent thermal stability and offering a low ash performance.
Conforms to: API TC, JASO FC, GLOBAL GC performance requirements.
Standard Pack 1
Refer to your owners manual for the correct fuel/oil mixing ratio for your equipment

LUB6796

9 316596 080694

Two Stroke Fuel Mixing Bottle
Mixes 1 litre of fuel to 25:1, 32:1, 40:1 and 50:1 ratios. Simply fill fuel to the one litre mark then add two stroke oil to the recommended ratio as per the equipment manufacturers specifications. Ideal for brushcutters, trimmers, chainsaws and lawnmowers.
Standard Pack 1
Please note that this is a fuel mixing container not a fuel transport container.

LUB4055

9 316596 059874

Plastic Measuring Cup Suits 2 Stroke Oil
Standard Pack 1

Part No	Description	Image

SAE30 - 4 STROKE OIL

LUB6001

9 316596 059935

1 Litre 4 Stroke Oil SAE30
Suits many Briggs & Stratton Engine Models etc.
Standard Pack 1 Bottle
Box Quantity 12 Bottles

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

LUB6002

9 316596 059942

4 Litre 4 Stroke Oil SAE30
Suits many Briggs & Stratton Engine Models etc.
Standard Pack 1 Container
Box Quantity 4 Containers

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

LUB6003

9 316596 059959

20 Litre 4 Stroke Oil SAE30
Suits many Briggs & Stratton Engine Models etc.
Standard Pack 1

Use with LUB7540 tap

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

LUB6004

9 316596 059966

205 Litre 4 Stroke Oil SAE30
Suits many Briggs & Stratton Engine Models etc.
Standard Pack 1

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

10W-40 - 4 STROKE OIL

LUB6120

9 316596 070152

1 Litre 4 Stroke Oil - 10W-40
Suits many Honda, Kawasaki and Kohler Engine Models.
Standard Pack 1 Bottle
Box Quantity 12 Bottles

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

LUB6125

9 316596 070169

4 Litre 4 Stroke Oil - 10W-40
Suits many Honda, Kawasaki and Kohler Engine Models.
Standard Pack 1 Container
Box Quantity 4 Containers

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

LUB6127

9 316596 070367

20 Litre 4 Stroke Oil - 10W-40
Suits many Honda, Kawasaki and Kohler Engine Models.
Standard Pack 1

Use with LUB7540 tap

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

Part No	Description	Image

10W-40 - 4 STROKE OIL

LUB6139

9 316596 076352

205 Litre 4 Stroke Oil - 10W-40
Suits many Honda, Kawasaki and Kohler Engine Models.
Standard Pack 1

Always refer to the engine manufacturers manual for the correct oil specifications to suit your engine.

SAE 5W/50 SYNTHETIC OIL

LUB6625

9 316596 077892

1 Litre Bottle SAE 5W/50 Synthetic Oil (SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR Ride-on and conventional Ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.

This is a high performance synthetic engine oil, formulated from exceptional base oils and using additives which represent the latest technology.
Provides outstanding wear protection, thermal and oxidation stability and superior overall lubrication.

Conforms to: API (American Petroleum Institute) SL/CF and ACEA (European Automobile Manufacturers' Association) A3 / B3 / B4 oil classification performance requirements.
Standard Pack 1 Bottle
Box Quantity 12 Bottles

Always refer to the engine or transmission manufacturer's manual for the correct oil specifications to suit your equipment.

LUB6627

9 316596 077892

4 Litre Bottle SAE 5W/50 Synthetic Oil (SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR Ride-on and conventional Ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.

This is a high performance synthetic engine oil, formulated from exceptional base oils and using additives which represent the latest technology.
Provides outstanding wear protection, thermal and oxidation stability and superior overall lubrication.

Conforms to: API (American Petroleum Institute) SL/CF and ACEA (European Automobile Manufacturers' Association) A3 / B3 / B4 oil classification performance requirements.
Standard Pack 1 Container
Box Quantity 4 Containers

Always refer to the engine or transmission manufacturer's manual for the correct oil specifications to suit your equipment.

LUB6530

9 316596 092819

20 Litre Drum SAE 5W/50 Synthetic Oil (API SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR Ride-on and conventional Ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.

HYDRAULIC OIL

LUB7827

9 316596 096770

4 Litre Container AW46 Hydraulic Oil
Suits many applications including the hydraulic system of our Oregon 28 Ton Log Splitter (OMKLOGSPLITTER).
This is a high quality anti-wear hydraulic oil containing anti-oxidant, anti-corrosion and anti-foam additives. It has very good stability and demulsibilty properties and meets the requirements of major hydraulic pump and equipment manufacturer's. This oil is suitable for all hydraulic fluid power transmission systems subjected to severe duty.

Conforms to: Vickers V-104C and 35VQ25 vane, 1-286-S, M2950-S; Denison HF-1, HF-2, HF-0; Racine, variable volume vane pumps; Cincinnati Milacron, P-68, P-69, P-70; DIN 51524 Part 2, Lee-Norse 100-1; Jeffrey No. 87; Ford M-6C32, US Steel 136, 127; B F Goodrich 0152; General Motors LH-04-1, LH-06-1, LH-15-1; Commercial Hydraulics (except PM500 Series) AFNOR E48-603 performance requirements.

Standard Pack 1 Container
Box Quantity 4 Containers

Always refer to the equipment manufacturer's manual for the correct oil specification to suit your equipment.

Kawasaki

Commercial Engines

Superior Engineering, Design and Technology
make Kawasaki Engines *start better, perform better and last longer.*

GREATER PERFORMANCE & RELIABILITY

Kawasaki Engines feature a heavy-duty cast-iron flywheel. The inertia created from the extra weight of the flywheel helps power through thick, wet grass while maintaining superior power and engine RPM's. Just imagine the time and effort you'll save with a Kawasaki engine.

EASIER TO MAINTAIN

For ease of maintenance and to keep the engine performing at top levels, Kawasaki Engines have a large, dual-element air filter that keeps dust and debris clear of internal parts and a steel chopper screen designed to chop up grass clippings before they can enter the engine and damage it.

AIR-COOLED TO LAST LONGER

Kawasaki Engines are longlasting because they're engineered to run cooler, thanks in part to a large, high-flow fan that disperses engine heat. Keeping the engine cool is also aided by larger oil capacity, a forced lubrication system and a combined crankcase with an elevated seal that prevents oil leaks and reduces oil operating temperatures. Less heat means less wear and a longer lasting engine.

QUIET AND EASY ON YOUR EARS

The Kawasaki engine is unsurpassed in performance and longevity. Thanks to a large low-tone muffler, mowing with a Kawasaki engine is easy on your ears, and your neighbour's ears too.

GA POWER EQUIPMENT SPARES

Refer to the ENG Section for a comprehensive range of Kawasaki engines.

OIL ACCESSORIES

OIP6408
9 316596 074051
Plastic Oil Drain Pan - 8 Litre Capacity
with a peg to drain oil filters
Standard Pack 1

TOL7442
9 316596 087976
Oil change service kit, makes oil changes a breeze!
Ideal for all garden products that feature a four stroke petrol engine.
This kit contains a pump and tube which is used to extract the used oil from the engine. Then simply pump the used oil into the supplied container, where it can then be safely disposed of. Finally use the supplied funnel to refill fresh oil to the engine.
Makes a messy job easy.
Kit Consists Of -
- Oil Extraction Pump and tube
- Oil container
- Funnel

Standard Pack 1
Box Quantity 24

TOL5876
9 316596 065646
Oil Changing Pump - 4L
Strong, Robust Construction.
Made of Heat Resistant Plastic.
Features one litre calibrations, overflow and vacuum safety cut out.
Standard Pack 1

TOL5877
9 316596 065653

Cordless Tool System

ONE BATTERY SYSTEM >> MULTIPLE TOOLS

36V LITHIUM ION

36V Lithium Ion Performance	Instant Start	Comfort & Control	Low Noise
• long run time • premium cell technology • constant, no-fade power • holds charge in storage for months	• no pull cords • no warm up • no petrol-oil mixing • no emissions	• ergonomically engineered tools • lightweight and balanced • large comfortable handles • variable speed throttle (trimmer and edger only)	• four times quieter than a petrol engine† • silent between cuts †when compared with internal combustion engines of equivalent output.

ALWAYS™ READY

CTSCHAINSAW

MODEL NUMBER: CS250-E6 CHAINSAW

- Instant Start - No pull cords. No warm up. No petrol-oil mixing. No emissions.
- Ergonomic Design - Light-weight and balanced. Low vibration.charge in storage for months.

CTSHEDGETRIMMER

MODEL NUMBER: HT255-E6 HEDGER

- 36V Lithium Ion Performance
- Long run time
- High power for fast cutting
- Premium Cell Technology
- Constant no-fade power
- Holds charge in storage for months

CTSTRIMMER

MODEL NUMBER: ST250-E6 TRIMMER/EDGER

- Trimmer Line: .080" (2.00 mm)
- Reliable bump feed head
- Dual lines for faster cutting
- Ergononically designed
- Light-weight & balanced
- Large comfortable handles

COMING SOON

CTSPOLESAW

MODEL NUMBER: PS250-A6 POLESAW

PTY7258

9 316596 080779

20 x 8.00 x 8
Block Pattern / Tubeless Type Tyre
4 Ply Rating
Standard Pack 1
For replacement tube use with our PTU6504 Straight Valve Tube

PTY5238

9 316596 060870

Tyre Sealant 32oz Bottle
Seals punctures to 1/4" in tread area instantly and permanently while you ride.
Prevents dry rot corrosion and under inflation from slow leaks.
Used on Golf Karts, Ride-on mowers and Wheelbarrows etc.
Standard Pack 1

PTY7794

9 316596 096190

NEW

Tyre Shield 250ml Bottle.
Puncture prevention treatment ideal for use on ride on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6mm in diameter in the tread area of the tyre and 3mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals pourous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)
- Australian Made.

Standard Pack 1
(Box Quantity 9)

PTY7796

9 316596 096206

NEW

Tyre Shield 500ml Bottle.
Puncture prevention treatment ideal for use on ride on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6mm in diameter in the tread area of the tyre and 3mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals pourous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)
- Australian Made.

Standard Pack 1
(Box Quantity 5)

PTY7798

9 316596 096213

NEW

Tyre Shield 1 Litre Bottle.
Puncture prevention treatment ideal for use on ride on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6mm in diameter in the tread area of the tyre and 3mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals pourous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)
- Australian Made.

Standard Pack 1
(Box Quantity 4)

PTY7801

9 316596 096220

NEW

Tyre Shield 20 Litre Drum.
Puncture prevention treatment ideal for use on ride on lawnmowers, quad bikes, motorbikes, cars, four wheel drives, trailers etc.
- Seals holes in both tube and tubeless tyres up to 6mm in diameter in the tread area of the tyre and 3mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals pourous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)

SEATS AND ACCESSORIES

SEA7489

9 316596 090099

Ride on lawnmower seat cover.
Medium size fits back rests up to and including 15” (382 mm)
- Protects new seats and renews old seats.
- Features handy tool and gear back pockets.
- Protects your seat against weather and UV damage.
- Cover is coated for maximum water resistance and repellency
- Elastic cord in hem provides a custom-like fit.

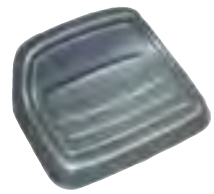
Standard Pack 1

SEA2797

9 316596 062898

Seat - Rover Ride-On
Fits: Colt 5 and 8 and Ranger Models and Selected Cox, etc
Width: 18.00” (457.20 mm)
Depth: 15.12” (384.05 mm)
Height: 7.00” (177.80 mm)
Standard Pack 1

Rover
A05271
Cox
AM16499G

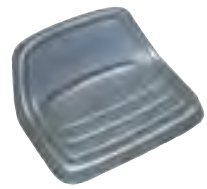


SEA3571

9 316596 062911

Seat - High Back V350
Fits: Rover Raider, Rancher, Ranger XC, Rancher II, Ride-ons and selected other models
Width: 19.00” (482.60 mm)
Depth: 15.62” (393.57 mm)
Height: 8.88” (225.55 mm)
Standard Pack 1

A07539



SEA6289

9 316596 073269

High Back Seat
Features: multiple mounting holes and spacers, air circulation and water drainage hole
Quality USA Manufacture
Width: 19.75” (501.64 mm)
Depth: 19.25” (488.95 mm)
Height: 14.125” (358.90 mm)
Standard Pack 1

SEA7621

9 316596 091591

Ride On Lawnmower Seat.
Premium quality multi purpose, ergonomically designed seat with a steel pan suitable for lawn, garden, industrial and construction applications.
Features:
- Central Drain.
- Multi - Hole Mounting Pattern.
- Black Vinyl

Width: 19.50” (495.3 mm)
Depth: 22.40” (568.96 mm)
Height: 22.05” (560.07 mm)
Standard Pack 1

SEA7623

9 316596 091607

Ride On Lawnmower Seat.
Premium quality multi purpose, ergonomically designed seat with a steel pan suitable for lawn, garden, industrial and construction applications.
Features:
- Central Drain.
- Multi - Hole Mounting Pattern.
- Black Vinyl

Width: 18.50” (469.9 mm)
Depth: 20.7” (525.78 mm)
Height: 15.5” (393.7 mm)
Standard Pack 1

Used in some applications with our SWT7468 seat safety switch.

SEA7625

9 316596 091614

Ride On Lawnmower Seat.
Premium quality multi purpose, ergonomically designed seat with a steel pan suitable for lawn, garden, industrial and construction applications.
Features:
- Central Drain.
- Multi - Hole Mounting Pattern.
- Yellow Vinyl

Width: 18.7” (474.98 mm)
Depth: 22.0” (558.8 mm)
Height: 18.8” (477.52 mm)
Standard Pack 1

Used in some applications with our SWT7468 seat safety switch.

Please refer to the IPL section for seat mounting hole diagrams

PTY7801 **Tyre Shield 20 Litre Container** **Standard Pack 1**

- Seals holes in both tube and tubeless tyres up to 6 mm in diameter in the tread area of the tyre and 3 mm in tube tyres as the vehicle is being driven.
- Prevents rust, heat build up, and seals porous leaks and maintains tyre pressure.
- Does Not affect tyres or rims.
- Helps to extend tyre life by the combination of maintaining correct balance and the prevention of heat build up. (Causes no damage to steel, aluminium or tyre rubber. Balances tyres in motion. Seals all pourous leaks and bead leaks.)

Cordless Tool System

ONE BATTERY SYSTEM >> MULTIPLE TOOLS

V Lithium Ion Performance
- ng run time
- emium cell technology
- nstant, no-fade power
- lds charge in storage for months

Instant Start
- no pull cords
- no warm up
- no petrol-oil mixing
- no emissions

Comfort & Control
- ergonomically engineered tools
- lightweight and balanced
- large comfortable handles
- variable speed throttle (trimmer and edger only)

Low Noise
- four times quieter than a petrol engine†
- silent between cuts

†when compared with internal combustion engines of equivalent output.

ALWAYS READY™

36V LITHIUM ION

Part Number:
CTSCHAINSAW
MODEL NUMBER: CS250-E6 CHAINSAW

- Instant Start – No pull cords. No warm up. No petrol-oil mixing. No emissions.
- Ergonomic Design – Light-weight and balanced. Low vibration. Holds charge in storage for months.

BATTERY AND CHARGERS

RAPID BATTERY CHARGER
The C750 rapid battery charger cuts charging time by as much as 75% for less downtime, and will charge the B400E 2.4 Ah battery pack in approximately 30 minutes.

Part Number: OMK562117

Part Number: OMK560663
Replacement standard battery charger.

Part Number: OMK562114
REPLACEMENT / SPARE BATTERY
Replacement 2.4 Ah battery pack.

All Cordless Tools come complete with a battery and standard charger.

CHAINSAW SPARE PARTS

Part Number: OMK546580
Oregon Bar Pad Kit
Replacement bar pad and gasket.
Replaces OEM: 546580
Standard Pack 1

Part Number: OMK546581
Oregon Oil Cap Assembly
Replacement oil cap assembly.
Replaces OEM: 546581

Part Number: OMK546620
Oregon PowerSharp® Replacement Arm Kit
Replacement arm.
Replaces OEM: 546620
Standard Pack 1

Part Number: OMK546621
Oregon Side Cover Assembly
Replacement side cover assembly.
Replaces OEM: 546621
Standard Pack 1

Part Number: OMK546622
Oregon Sprocket Kit
Replacement 3/8" low profile sprocket kit.
Replaces OEM: 546622
Standard Pack 1

Part Number: OMK546623
Oregon Bar Adjuster Kit
Replacement bar adjuster / chain tensioner kit.
Replaces OEM: 546623
Standard Pack 1

Part Number: OMKPS52CTS
PowerSharp® 52 Drive Link Chain Loop and Replacement Stone
Replacement PowerSharp® 3/8" Low Profile x .050" x 52 Drive Link Chain Loop and matching sharpening stone.
Replaces OEM: PS52CTS
Standard Pack 1

Part Number:
TSHEDGETRIMMER
DEL NUMBER: HT255-E6 HEDGER

V Lithium Ion Performance
ng run time
gh power for fast cutting
emium Cell Technology
nstant no-fade power
lds charge in
orage for months

POLESAW COMING SOON

Part Number:
CTSPOLESAW
MODEL NUMBER: PS250-A6 POLESAW

- Telescopic Tool-Free Extendable Shaft
- 2.2 m – 3.1 m (Appox. 4.5 m reach)
- 8" (20 cm) Bar Length

Part Number:
CTSTRIMMER
MODEL NUMBER: ST250-E6 TRIMMER/EDGER

- Trimmer Line: .080" (2.00 mm)
- Reliable bump feed head
- Dual lines for faster cutting
- Ergononically designed
- Light-weight and balanced
- Large comfortable handles

28 TON LOG SPLITTER

OREGON® Log Splitter

The OREGON® 28 Ton log splitter provides commercial quality and power at an affordable price. Fitted with a commercial grade 9.5 hp 277 cc Kohler Command Pro CH395 engine and an auto return valve with an 11.5 second cycle time our 28 Ton Log Splitter is able to split logs up to 24". Ergonomically designed, our 28 Ton Log Splitter is at the right height reducing fatigue and can be operated either horizontally or stood up and operated vertically so it remains easy to use in any situation. Optional accessories available include a log catcher to keep split logs at an easy workable height and 4–way wedge for more splits with less effort. Fitted with quality features throughout this log splitter will provide many years of reliable service.

Part number: OMKLOGSPLITTER

Features:
- Quality Engine – Kohler Command Pro CH395 (9.5 hp / 7.1 kw / 277 cc) engine.
- Horizontal and vertical operation
- 28 Tons of splitting force (US 28 Tons = 25.4 tonnes Force)
- Auto return valve
- Two stage pump 16 GPM (60.56 litres per minute)
- Valve – Ergonomically positioned for operator comfort
- Steel coil covered hoses – protected for longer life.
- Wedge: 8" (203.2 mm)
- Cylinder Connection: Engineered for increased strength
- Stripper Plates: Integrated for rigidity, capable of removing stuck logs
- Log Cradle: Integrated log cradle keeps logs in place for hands free (safer/faster) splitting
- Solid Foot Piece: Increased Strength
- In–Tank Suction Screen: Better hydraulic fluid filtration
- Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
- Beam Lock: Keeps beam secure
- Boxed Drawbar with Handle: Designed for strength and manoeuvrability
- Utility Jack: Adjustable utility jack provides solid support during splitting
- Solid Foot Piece: Increased strength

SPECIFICATIONS:
- **Beam:** 6" x 9" (152.4 mm x 228.6 mm)
- **Capacity:** 28 Tons of splitting force (US 28 Tons = 25.4 tonne Force).
- **Cycle Time:** 11.5 seconds.
- **Engine:** Kohler Command Pro CH395 (9.5hp / 7.1kw / 277cc) commercial grade horizontal shaft engine.
- **Hydraulic Ram Cylinder:** 4.5" x 24" (114.3 mm x 609.6 mm)
- **Hydraulic Tank Capacity:** 7.5 Gallons (28.39 litres) – Plenty of room for fluid to keep flowing and stay cool.
- **Maximum Log Length:** 24" (609.6 mm)
- **Operating Position:** Horizontal and vertical operation.
- **Pump:** Two stage 16 GPM (60.56 litres per minute)
- **Pump Working Pressure:** 3,500 PSI +/- 100 PSI
- **Shipping Dimensions:** Crate Length 1870 mm x Width 930 mm x Height 630 mm
- **Shipping Weight:** 320 kgs (Including crate)
- **Tow Hitch:** 2" (50 mm)
- **Unit Total Weight:** 308 kgs (680 lbs)
- **Valve:** Auto return valve - speeds up the log splitting process.
- **Wedge:** 8" (203.2 mm)
- **Wheels / Tyres:** 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
- **Working Height:** 31.5" (800 mm)
- **Warranty:** 3 years (limited) on steel components; 3 years engine (as rated by manufacturer); 1 year on major hydraulic components; Full warranty details available upon request.
- **Standard Pack 1**

Please refer to the IPL section for a complete illustrated spare parts listing for our log splitter.

OREGON Saw Chain

WHAT THE NUMBERS MEAN

	.043"	.050"	.058"	.063"
1/4" = ÷2		25		
3/8" Low Profile = ÷2	90	91		
.325" = ÷2		20 95	21	22
3/8" = ÷2		72	73	75
.404" = ÷2			58	27 59 68

WHAT THE LETTERS MEAN

The letter(s) at the end of each OREGON® chain part number identify cutter type and sequence, features to reduce kickback or vibration, and other characteristics.

Complies with ANSI B175.1 kickback standard

BPX Low-vibration Micro Chisel® cutters with bumper drive links and standard sequence.

P Chamfer Chisel™ cutters with bumper drive links and standard sequence.

PX Low-vibration Chamfer Chisel™ cutters with ramped depth gauges, bumper drive links and standard sequence.

PXL Low-vibration semi chisel cutter with ramped depth gauges, bumper drive links and longer top plate.

SG *Low-vibration Chamfer Chisel™ cutters with ramped depth gauges, bumper tie straps and standard sequence.*

V Low-vibration round-ground chisel cutters with wide-track depth gauges and standard sequence.

VG *Low-vibration Chamfer Chisel™ cutters with ramped depth gauges, bumper tie straps and standard sequence.*

VPX Low-vibration Micro Chisel® cutters with ramped depth gauges, bumper drive links and narrow-kerf design.

Does not comply with ANSI B175.1 kickback standard

A Micro Chisel® cutters with standard sequence.

AP Micro Chisel® cutters with bumper drive links and standard sequence.

APX Semi-chisel cutters with skip sequence.

AX Micro Chisel® cutters with skip sequence.

CJ Square-ground chisel cutters with ramped depth gauges and skip sequence.*

CJ *Square-ground DuraPro™ chisel cutters with ramped depth gauges and skip sequence.*

CK Square-ground chisel cutters with ramped depth gauges and semi-skip sequence.

CKX *Square-ground DuraPro™ chisel cutters with ramped depth gauges and semi-skip sequence.*

CL Square-ground chisel cutters with ramped depth gauges and standard sequence.*

CLX *Square-ground DuraPro™ chisel cutters with ramped depth gauges and standard sequence.*

DPX Semi-chisel cutters with bumper drive links and standard sequence.

DX Semi-chisel cutters with ramped depth gauges and standard sequence.

F Micro Chisel® cutter with full-house sequence.

J Round-ground chisel cutters with ramped depth gauges and skip sequence.

JGX Round-ground chisel cutters with ramped depth gauges and skip sequence.

JPX Round-ground chisel cutters with bumper drive links and skip sequence.

JX Round-ground chisel cutters, equal pitch and skip sequence.

L Round-ground chisel cutters with standard sequence.

LGX Round-ground chisel cutters with ramped depth gauges and standard sequence.

LPX Round-ground chisel cutters with bumper drive links and standard sequence.

LX Round-ground chisel cutters, equal pitch and standard sequence.

M Specially built chain with extra-heavy-duty chrome on the cutters for effective cutting in extremely dirty or abrasive conditions (NOTE: “M” is used as a prefix).

R Ripping chain with Micro Chisel® cutters and standard sequence

RA Ripping chain with Micro Chisel® cutters and skip sequence.

RD Ripping chain with semi-chisel cutters and standard sequence.

S *Low-vibration Chamfer Chisel™ cutters with ramped depth gauges and standard sequence.*

VXL Low-vibration semi chisel cutter with ramped depth gauges and longer top plate.

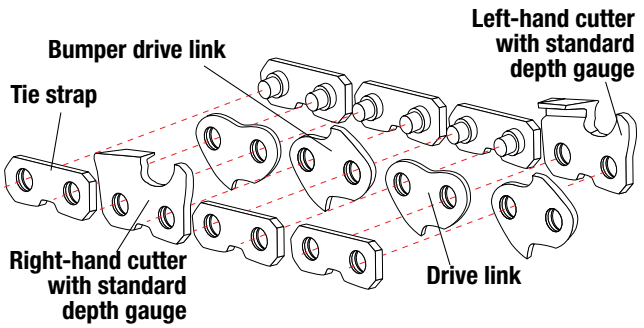
X Micro Chisel® cutters with standard sequence.

***NOTE:** 68CL and 68CJ chains do not have ramped depth gauges.

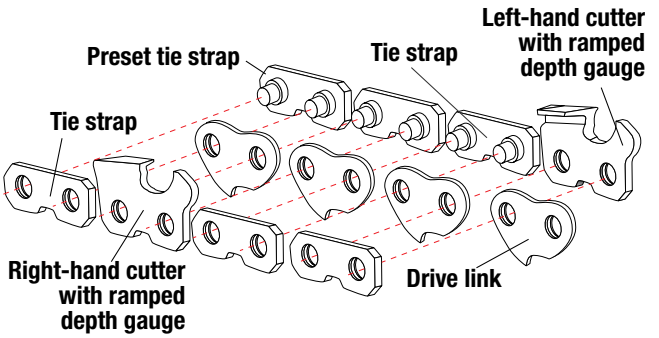
Descriptions in *red italics* indicate chain types which are scheduled to be discontinued

CUTTING CHAIN TERMINOLOGY

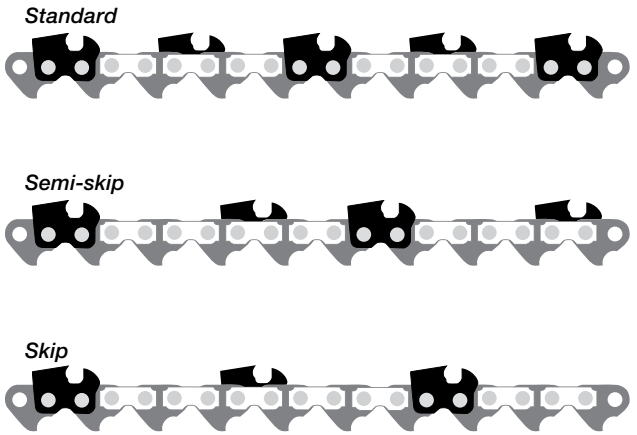
Bumper Drive Link Chain



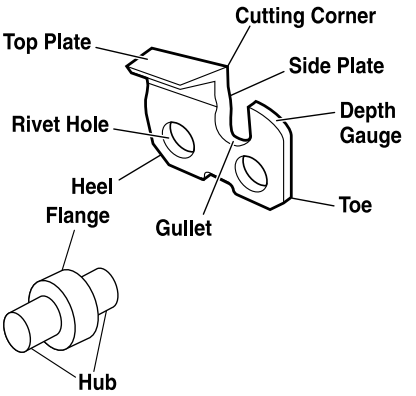
Standard Chain



Chain Cutter Sequence Terminology



Parts of a Cutter and Rivets



WHY CHOOSE "SEMI-SKIP" OR "SKIP" SEQUENCE CHAIN?

- Consumer users of chain saws will probably never need to use a semi-skip or skip sequence chain. However, professional or commercial chain saw operators who use their saws frequently and who use longer bars may prefer a semi-skip or skip chain for these reasons:
- Fewer cutters to sharpen, makes sharpening faster and easier.
- Greater clearance for better chip flow – the larger the wood being cut and the longer the bar used, the more important good chip flow becomes.
- The type of wood being cut and other factors will affect the choice of the chain type and chain sequence, but with the full-size 3/8"-pitch and .404"-pitch chains preferred by professional and commercial operators who use longer bars, the following general guidelines will be useful.
- Bar Length considerations for semi-skip & skip chain:

CHAIN SEQUENCE	RECOMMENDED BAR LENGTHS
Standard	Up to 24" (60 cm)
Semi-Skip (Square Ground only)	24" to 32" (60 – 80 cm)
Skip	32" and longer (80 cm+)

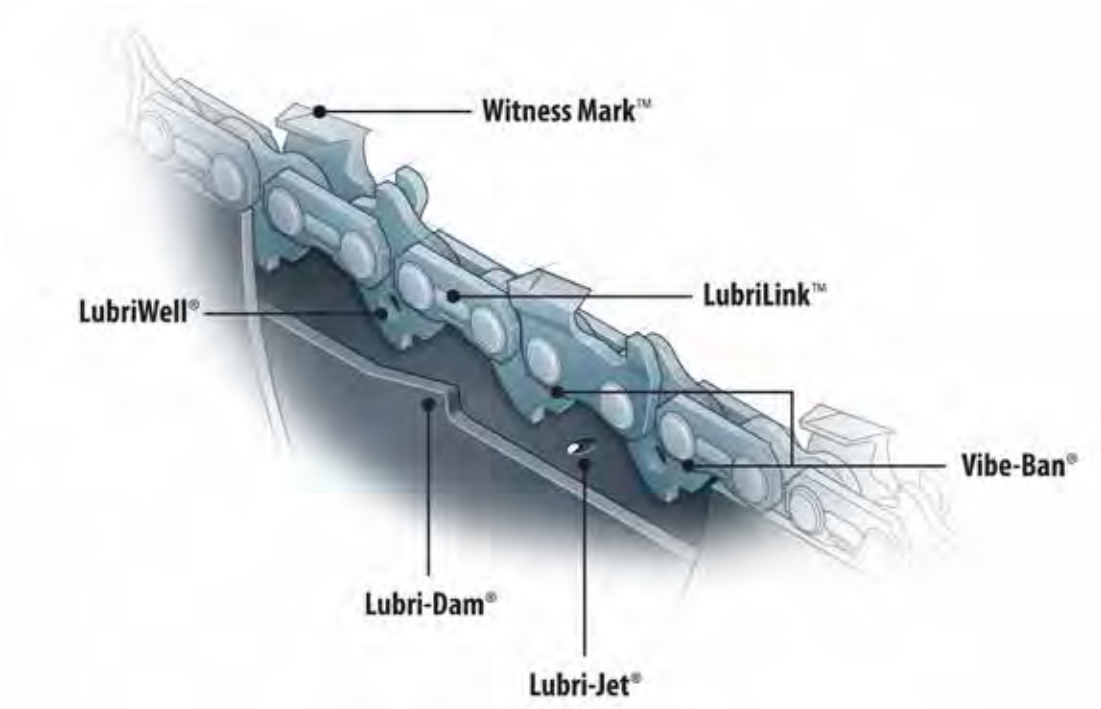
OREGON® FEATURES



OREGON® FEATURES – SAW CHAIN

LubriLink™ is a strategically placed cavity in saw chain tie straps that acts as an oil reservoir. LubriLink™ is included on most OREGON® .404", 3/8", 3/8" Low Profile™ and .325" cutting saw chain.

- Lubricant that would normally be thrown off the saw chain by high centrifugal force is captured and held in the LubriLink™ reservoir.
- Oil is available to flow freely into saw chain parts when the cutting saw chain slows or stops. This additional positive lubrication increases saw chain and guide bar life.
- LubriLink™ strengthens the saw chain tie straps by reducing their tendency to flex during operation, making the saw chain more stable and less susceptible to premature failure.
- Tests show that oil remains on the saw chain and in the saw chain joints even when the saw chain reaches the end of its service life.

Lubriwell® may look like a simple hole, but it performs important functions beneficial to the cutting system, the saw and the operator. Lubriwell® holes are placed in an area of minimum stress on drive links, lowering the overall weight of the saw chain, which reduces stress on the engine and operator. Lubriwell® helps transport oil around the entire length of the guide bar — especially important on guide bars equipped with sprocket noses — and holds oil in the high-friction zone where the saw chain and guide bar groove walls make contact.

- Oil is carried around the entire length of the guide bar.
- Lubrication is improved around the guide bar's tip, especially important on sprocket nose bars.
- Lubricant is held in the Lubriwell® holes, reducing friction during the start-up period before the saw's oiling system reaches its peak function.
- The saw chain's overall weight is reduced, so less power is required from the saw's engine and less effort is required from the operator.

OREGON® FEATURES – SAW CHAIN

Vibe-Ban®

To combat the effects of "vibration-induced white finger," OREGON® created Vibe-Ban®, a small space between the saw chain and the guide bar to let the saw chain act like a shock absorber. A small amount of material was removed from the bottoms of the heels on cutters and tie straps to allow the rear of these saw chain parts to "float" above the guide bar rail.

When the cutter's working corner impacts the wood, the cutter has room to rock back slightly rather than being momentarily trapped between the wood and the guide bar rail. Much of the energy is dissipated by the saw chain, so it never even reaches the guide bar, the saw — or most importantly — the operator.

- Lower vibration levels offer increased comfort.
- Vibration levels are reduced by 25% or more.

Witness MARK™

All OREGON® high-performance chisel chains feature top-plate witness marks. These marks indicate the optimum top-plate angle and are used as an aid to facilitate accurate saw chain sharpening.

- Facilitates filing of the correct top-plate filing angle.
- Helps maintain equal cutter lengths.
- Allows easier and more accurate sharpening.

OREGON® FEATURES – GUIDE BARS

Lubri-DAM®

Lubri-Dam® is an ingenious design feature that helps keep lubricant where it's needed. Resembling a small barrier, it's located in the bottom of the guide bar's groove, just behind the oil hole.

- Oil in the guide bar groove is prevented from running out the bar's tail, keeping more lubricant available to the guide bar and saw chain.
- An increase of available oil and a reduction of oil hole plugging combine to improve overall lubrication.
- In tests, the thickness of oil film on the rails of guide bars with Lubri-Dam® increased 135% over the oil film thickness found on guide bars without Lubri-Dam®.
- Bar oil hole plugging is reduced because Lubri-Dam® helps deflect sawdust and wood chips away from the oil hole.
- Cutting performance is enhanced and service life of the guide bar and saw chain is maximized.

LubriJET®

The Lubri-Jet® angled oil hole virtually eliminates guide bar oil hole plugging. The oil hole slopes up toward the top of the guide bar and forward toward the nose. It's approximately 40% smaller in diameter than a standard hole, thus increasing oil velocity as it enters the guide bar and helping clear sawdust and debris away from the hole during operation.

- Surface area of drive links exposed to incoming oil at bar groove entrance is increased.
- Improved saw chain and guide bar lubrication results in longer service life.
- Drive links pull sawdust and chips away from the oil hole during operation.
- Smaller size of the Lubri-Jet® oil hole increases the velocity of incoming oil, with no decrease in the volume of oil entering the bar groove.
- Oil velocity at the point where oil enters the guide bar groove is increased.
- Guide bar oil hole plugging during felling and bucking operations is reduced by 80%. Sawdust and chips are blasted out.
- Efficient Lubri-Jet® design means less down time on the job.

1/4" SAW CHAIN – 1/4" PITCH CHAINS

25AP

25AP is the replacement chain for small saws originally equipped with 1/4"-pitch chain.

Features
- Micro Chisel® cutters have small-radius working corners for excellent performance and ease of maintenance.
- Small size and light weight make 25AP easy to use and highly maneuverable.

Bar Lengths: Up to 16 in. (40 cm)
Saw Sizes: Up to 38 cc

90SG

90SG chain is part of a Micro-Lite™ narrow-kerf cutting system that requires less power from the saw to cut than standard cutting systems.

Features
- Chamfer Chisel™ Cutters
- Narrow .043" gauge helps reduce the weight of the bar-chain combination approximately 15%.
- Always install 90SG chains on a .043" gauge Double Guard® bar (MLE part numbers) to obtain all the advantages of the Micro-Lite™ system.

Bar Lengths: Up to 16 in. (40 cm)
Saw Sizes: Up to 42 cc

91VG

Please Note: 91VG will be superseded by OREGON® to 91PX when stocks run out.

91VG is designed to incorporate all the advantages of our professional series chain in a consumer style, low kickback saw chain. It is ideal for occasional users and commercial cutters such as arborists and orchardists. Advanced grind geometry, significantly improves out-of-box sharpness.

Features
- Chamfer Chisel™ cutters
- Ramp-shaped depth gauges help reduce kickback without affecting performance.
- Bumper tie straps with slots deliver low kickback performance.

Bar Lengths: Up to 18 in. (45 cm)
Saw Sizes: Up to 42 cc

91PX

91PX is designed to incorporate the advantages of our professional series chain in a consumer style, low-kickback saw chain. Ideal for occasional users, arborists and orchardists, 91PX utilizes a bumper drive link to achieve its low-kickback rating.

Features
- Chamfer Chisel™ cutters
- Ramp-shaped depth gauges help reduce kickback without affecting performance.
- Bumper Drive link delivers low-kickback performance.

Bar Lengths: Up to 18 in. (45 cm)
Saw Sizes: Up to 42 cc

Chamfer Chisel™ cutters' twin cutting corners offer outstanding performance, durability and easy maintenance.

91P

Oregon® 91P chain features top-performing Chamfer Chisel™ cutters and a notched bumper drive link for low-kickback performance, good chip flow, and a smooth cutting action. The twin corners of the cutters on 91P chain deliver superior performance on the many popular saws which use low-profile 3/8"-pitch chain. 91P chain also features four-way symmetrical tie straps which simplifies the joining of chain loops.

Features
- Twin cornered Chamfer Chisel™ cutters.
- Ramped depth gauge, and ramped drive links.
- Bumper drive links are notched (Patent pending).
- Four-way symmetrical tie straps.
- Same cutter as on the other Oregon® 91 chains.
- Low-profile design.

Bar Lengths: up to 18 in. (45 cm)
Saw Sizes: Up to 41cc

Features
- Round-cornered "semi-chisel" cutters work fast and typically are more tolerant of sharpening errors than most cutter types.
- Patented Chain Steel – OREGON® OCS-01 steel is patented and provides greater durability, especially in cold cutting conditions.
- Blued Cutters provide superior corrosion resistance and improved strength.
- "X" grind – Enhanced grind geometry significantly improves out-of-box sharpness with substantial speed improvement in boring and bias (undercut) modes.
- Bumper drive links help reduce kickback. (DPX chains)
- Excellent performance in dusty or dirty conditions.

Bar Lengths: 16 to 36 in. (40 – 90 cm)
Saw Sizes: 50 to 100 cc

27X
27AX

A heavy-duty high-performance chain for professional users of large saws who prefer the durability and easy maintenance of small-radius Micro Chisel® cutters.

Features
- Micro Chisel® cutters have small-radius working corners for excellent performance and ease of maintenance
- Patented Chain Steel – OREGON® OCS-01 steel is patented and provides greater durability, especially in cold cutting conditions.
- Blued Cutters provide superior corrosion resistance and improved strength.
- "X" grind – Enhanced grind geometry significantly improves out-of-box sharpness with substantial speed improvement in boring and bias (undercut) modes.
- Available in standard and skip sequences.

58L

A big-timber chain for cutting clean wood with kickback-reducing ramp-shaped depth gauges.

Features
- Chisel chain.
- Patented Chain Steel – OREGON® OCS-01 steel is patented and provides greater durability, especially in cold cutting conditions.
- Ramp-shaped depth gauges help reduce kickback without the weight or bulk of bumper drive links or tie straps.
- Available in standard and skip sequences.

Bar Lengths: 20 in. (50 cm) & longer
Saw Sizes: 65 cc & larger

59AC

A big-timber chain for woodcutters who prefer fully "rounded" chipper type cutters.

Features
- MICRO-BIT® cutters feature fully rounded working corners and side plates for excellent performance, easy sharpening and edge-holding durability.
- Patented Chain Steel – OREGON® OCS-01 steel is patented and provides greater durability, especially in cold cutting conditions.
- Particularly effective in cutting hardwoods.

Bar Lengths: 20 in. (50 cm) & longer
Saw Sizes: 65 cc & larger

LubriLINK ***LubriLink***™ tie straps help keep oil where it's needed – on the chain.

SAW CHAIN – MULTICUT™ CHAINS

OREGON® MuitiCut™ is the special-purpose chisel chain intended for use by professional woodcutters who work in tough, dirty, or abrasive conditions. In sandy areas, fire-damaged forests, or other situations likely to damage normal chains, MultiCut™ chains continue cutting in these demanding circumstances up to three times longer than conventional chain. Extra-heavy-duty chrome and an advanced plating process make this exceptional durability and stay-sharp possible. OREGON® MultiCut™ is based on our 3/8"-pitch chassis for unbeatable reliability, easy fit-up, and no-sweat maintenance.

M91VX 3/8"

M20LPX
M21LPX
M22LPX .325"

M73LPX
M75LPX 3/8"

MultiCut ™ chains are specially built with extra-heavy duty chrome plating to cut effectively in extremely dirty abrasive conditions.

Features

- "X" grind – Enhanced grind geometry significantly improves out-of-box sharpness with substantial speed improvement in boring and bias (undercut) modes.
- Blued Cutters provide superior corrosion resistance and improved strength.

LubriLink™ tie straps help keep oil where it's needed – on the chain.

LubriWell ® oil holes help carry oil around the full length of the guide bar's groove.*

Vibe-Ban ® chassis design reduces vibration 25% or more at the handles.

Witness Mark™ Top-plate witness mark makes accurate sharpening easier.

*Lubriwell® feature added to M70 Series LPX chain in 2013

3/8" SAW CHAIN – 3/8" RIPPING CHAINS

These specialty ripping chains feature a special factory grind for making dimensional boards and planks from larger timbers by "ripping" (cutting parallel to the wood grain). Do not use these chains for any type of cutting other than ripping.

73RA
73RD
75RD

3/8"

Features

- Patented Chain Steel – OREGON® OCS-01 steel is patented and provides greater durability, especially in cold cutting conditions.
- Standard chassis and cutter parts are used; cutter grind is the only difference from standard chains.
- For use on chain-type sawmills; not recommended for hand-held use.
- 73RA is a skip tooth version.

LubriLink™ tie straps help keep oil where it's needed – on the chain.

Vibe-Ban® chassis design reduces vibration 25% or more at the handles.

Saw Size: For ripping cuts only. Do not use these chains for any type of cutting other than ripping.

OREGON®, CARLTON®, HUSQVARNA, STIHL AND WINDSOR® CHAIN CROSS-REFERENCE CHART

This chart makes no comment whatsoever regarding the safety, or suitability for any particular purpose, of ANY saw chain not manufactured by OREGON®. Read and follow all notes below to properly use this chart.

Notes:

- This chart is intended for use by only those who wish to replace other brands of saw chain with a comparable OREGON® chain.
- Many saw chains are interchangeable in terms of their fit-up, but interchanging certain types of chains may be inappropriate for some users. Be certain that the chain chosen is appropriate for both the use, and for the user's level of experience.
- For information on compliance with the low-kickback performance requirements of ANSI B175.1, or on other safety issues as they pertain to ANY Carlton, Husqvarna, Stihl or Windsor chain: see the documents on saw chain safety provided by those companies.
- This chart should not be used to replace OREGON® saw chain with any other brand of chain. Doing so is a misuse of this chart and those who do so assume any and all risks associated with such misuse.

*Please read the above chart in conjunction with the sharpening geometry diagram on the previous page.

❶ When using an OREGON® file guide, ALWAYS hold it level, 0°, flat on the top plate.

❷ OREGON® Depth Gauge File (flat file) P/N 12211 must be purchased separately for use with OREGON® Depth Gauge Tools.

❸ Square Ground Filing: A 15° cutting edge is the result when the file is held at 45° top plate angle and 45° down angle.

POWERsharp®

DIAMOND

Precision Saw Chain Sharpening System

PowerSharp® is an easy-to-use, precision sharpening system that gives chain saw users the power to sharpen their chain in a matter of seconds with a simple-to-use attachment.

Fast. From dull to sharp in as little as 3 seconds.

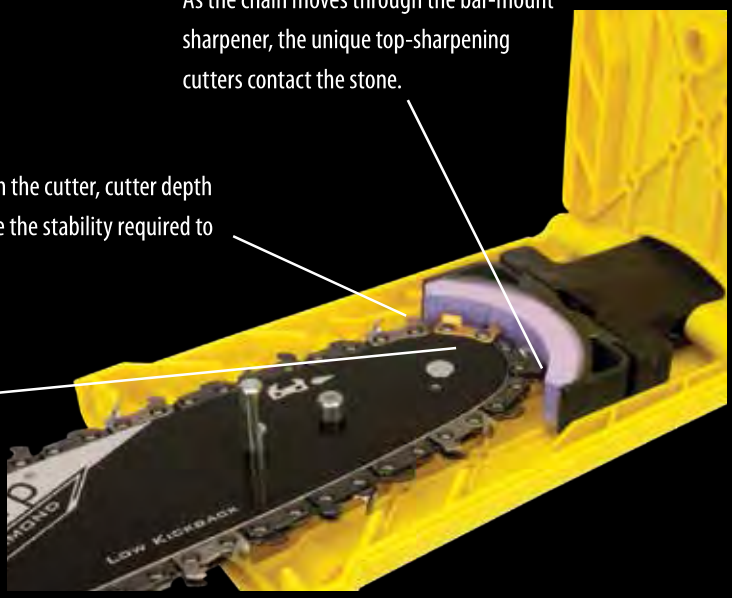
Easy. Only three steps to faster, easier cutting.

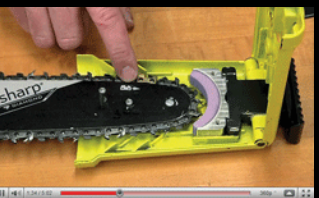
Portable. Bar-mount sharpener is lightweight, durable, and highly visible.

Precise. Exact alignment between cutter and honing surface for perfect angles and knife-sharp edges.

Tough. PowerSharp® chain is as durable and hardworking as other OREGON® 3/8" pitch, low-profile chain.

Patent-pending features make PowerSharp® a major advance over other sharpening methods - past or present





Visit our website to see a how to use video.

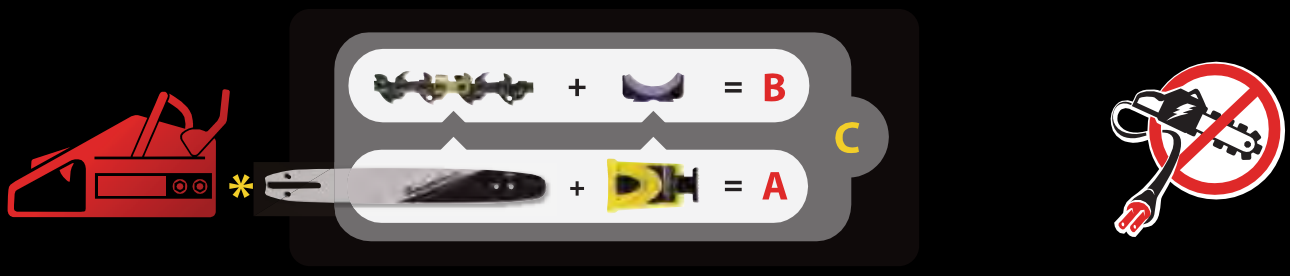
SHARPENS ON THE SAW, ON THE JOB, IN SECONDS.™



Fits Most Popular Chain Saw Brands

* Bar Mounts & Lengths		A Bar-Mount Sharpener and Bar	B Chain and Sharpening Stone	C Starter Kit (all components)
A041	12"	N/A	PS45	551664
	14"	539453	PS52	541652
	16"	539455	PS56	541656
	18"	539457	PS62	541662
A074	14"	539454	PS50	541650
	16"	539456	PS55	541655

Note: PS53 is available for use with OEM branded bars and specific saw models requiring 53 drive link fit up

Easy to Use

PowerSharp® is a system that includes the PowerSharp® chain, the PowerSharp® guide bar, and the PowerSharp® bar-mount sharpener. Together, they work to make sharpening simple and easy.

ATTACH

When the chain dulls from normal use, dirt contact, or rock strikes, simply attach the bar-mount sharpener to the PowerSharp® guide bar. Twin guide holes in the tip of the bar make perfect alignment fool proof.

SHARPEN

Press the tip of the sharpener to a solid surface for 3-5 seconds.

CUT

And it's back to the job, working faster with less effort.

REFRESHED OREGON® BAR GRAPHICS

We are pleased to introduce the fresh new look for OREGON® guide bars. Over the coming months we will continue the roll out of our new look. Our goal is to make it easier for you to select the right bar with the right features to match your customer's needs.

Features

The OREGON® features built into a bar are indicated by these feature icons.

Lubri-Dam® oil-retaining feature prevents oil from running out the bar's tail, keeps more oil on the bar and chain*.

Lubri-Jet® oil holes reduce oil-hole plugging and enhance bar-chain lubrication*.

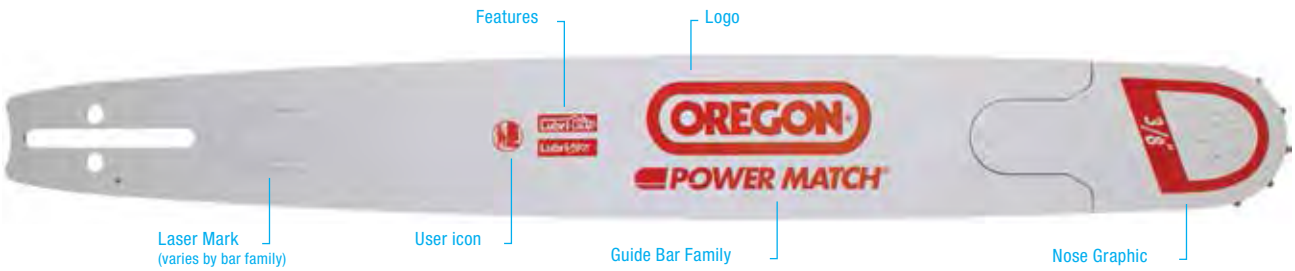
Micro-Lite® narrow-kerf cutting systems increase cutting efficiency and require less power from the saw than standard cutting systems.

INTENZ® tensioning mechanism built into the guide bar itself.

PowerSharp® the easy-to-use, precision sharpening system that gives chain saw users the power to sharpen their chain in a matter of seconds with a simple-to-use attachment.
Bars with the PowerSharp® feature icon have the holes to accept the PowerSharp® bar mount sharpener.

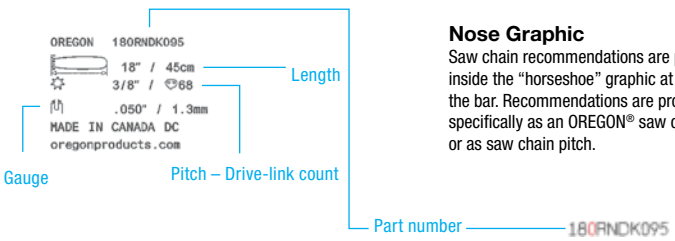
OREGON® Logo

The "race track" OREGON® logo and red color is standard on all guide bars.



Laser Mark

To indicate gauge, pitch, drive link count, part number, and manufacture date code, a laser mark is added to the tail section of each bar. Depending on bar family, the arrangement of laser marks may vary.



Nose Graphic

Saw chain recommendations are provided inside the "horseshoe" graphic at the front of the bar. Recommendations are provided specifically as an OREGON® saw chain number or as saw chain pitch.

Consumer
Homeowners, Campers, Hunters.

Semi-pro
Arborists, Utility Workers, Construction Workers, Tree Surgeons, Landscapers, Farmers, Commercial Thinners, Firewood Cutters.

Pro
Big-timber Loggers, Pulpwood Loggers, Forest Fire Fighters.

OREGON® Guide Bars to Saw Chain

OREGON® guide bars are manufactured under five different product brand families and each family works with these combinations of OREGON® saw chain products.

HOW THE OREGON® BAR PART NUMBERING SYSTEM WORKS

OREGON® 10 digit bar part numbers are printed on the bar package and etched on the bar body.
Here's what each digit means:

18 0 RN D K095

LENGTH (IN)	GAUGE	BAR TYPES	SPROCKET NOSE			BAR MOUNT
		ALL OREGON®	PITCH		TOOTH COUNT

Comments:
In a few cases, where two bars would have the same length in their part numbers but different drive link counts, the letter Z will be used in the bar-mount description to distinguish between them (K095 and Z095 for example).

Chain saws originally equipped with an Intenz® bar, and saws adapted to take an Intenz® bar, do not have a "bar adjustment pin" for tensioning the chain. Use ONLY an Intenz® bar when replacing the guide bar on these saws.

Power Match® solid body bars may be stamped with XXX, ZZZ or other letters as they can have different noses installed on the body, thereby changing the part number.

Guard Mate® holes are built into the noses of certain types of OREGON® bars and allow the attachment of a Guard Mate tip guard to help reduce the risk of kickback.

OREGON® Sculptor™ carving bar part numbers do not follow the OREGON® bar part numbering system.

Solid-nose, solid body bars for professional users working in dirty or abrasive conditions.

AT Features

- Ultra high wear resistant stellite alloy promotes longer bar nose life.
- Stellite is laser welded to nose which provides an optimum bond without weakening the bar body, as can occur with gas welding process.
- Super-tough chrome-moly steel provides superior bar-body strength and tough rails with excellent resistance to wear and chipping.

Lubri-Dam® oil-retaining feature prevents oil from running out the bar's tail, keeps more oil on the bar and chain*.

Lubri-Jet® oil holes reduce oil-hole plugging and enhance bar-chain lubrication*. (AT only)

LA Features

- Laser-Lite® bars are built for frequent chainsaw users who prefer the armor tip nose bar yet are looking for a light alternative.
- Stellite is laser welded to nose which provides an optimum bond without weakening the bar body.
- The body is constructed from the finest high-silicon steel body.
- Lubri-Dam® and Lubri-Jet® oiling features may not be a standard feature on certain bars depending on the date of manufacture or bar type.

Legacy Graphics

These legacy graphics and their part numbers, are transitioning to the Armor Tip family of OREGON® guide bars and graphics.

Recommended Saw Sizes – 2.3 cu. in (38 cc) and larger

The industry standard for professional users cutting clean wood.

Features

- Nose fastens with a single rivet, and is securely held by wide, strong, overlapping ears.
- Long nose takes most of the abuse, minimises wear to the body.
- Super-tough chrome-moly steel provides superior bar-body strength and tough rails with excellent resistance to wear and chipping.

PM Pro Finish

- Squared, polished rails minimise chain leaning.
- Clear coat finish for enhanced appearance.

RW Reduced Weight

- 26% lighter than a standard bar at 32" length.
- Precision milling from a solid bar core, without sacrificing durability.

Lubri-Dam® oil-retaining feature prevents oil from running out the bar's tail, keeps more oil on the bar and chain*.

Lubri-Jet® oil holes reduce oil-hole plugging and enhance bar-chain lubrication*.

Sprocket-nose laminated bars for full-time woodcutters who need the best combination of value and professional durability for cutting clean wood with small to medium-size saws.

Pro-Lite® Features

- Slim contour, excellent maneuverability.
- Super-tough chrome-moly steel provides superior bar-body strength and tough rails with excellent resistance to wear and chipping.
- Replaceable nose sprocket kit (except SP and GP bars).

MP & MG

- Thickness of side laminates is reduced to obtain all the advantages of narrow kerf cutting when used in combination with narrow kerf .325" 95VPX chain.

Lubri-Dam® oil-retaining feature prevents oil from running out the bar's tail, keeps more oil on the bar and chain*.

Micro-Lite™ narrow-kerf cutting systems increase cutting efficiency and require less power from the saw than standard cutting systems.

Intenz® tensioning mechanism built into the guide bar itself.

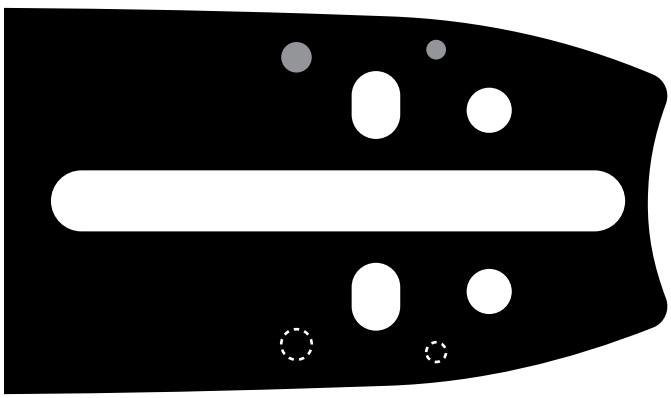
*DRIVE LINK COUNT MAY VARY DEPENDING ON SAW APPLICATION AND NUMBER OF TEETH ON DRIVE SPROCKET.



DIME TIP
10 mm for 1/4" pitch chain

QUARTER TIP
12 mm for 1/4" or 91 pitch chain

*PLEASE NOTE: Sculptor bars are not a stocked line but are available for special order. Please contact one of our friendly sales team on the phone numbers below for more information.

POWER MATCH® RSN KITS FIT "RN" BARS

BAR TYPE	PART NO	PITCH	TEETH	GAUGE (.000")		
RN	34775	.325	12	50	58	63
	30853	3/8	11	50	58	63
	30855	.404	10	50	58	63
	34726	Nose Rivet - Pack of 25				

Break away design protects the bar body during cutting mishaps. Extra long shape directs wear to the nose away from the bar body. Long nose takes most of the abuse and minimises wear on the bar body. A single nose for .050", .058" and .063" gauges. Attachment rivet included. (Nose radius 1.115"). Standard RSN kits fit "RN" bars.

POWER MATCH® PRO RSN KITS FIT "PM" & "RW" BARS

BAR TYPE	PART NO	PITCH	TEETH	GAUGE (.000")		
PM	39715	.404	10	50	58	63
	34726	Nose Rivet - Pack of 25				

The ultimate replacement sprocket nose. Made for Oregon Pro Bars with superior straightness for smooth chain flow & Smooth cutting. Superior strength for long life & reduced overall thickness for less binding in the Kerf. Long nose takes most of the abuse and minimises wear on the bar body. A single nose for .050", .058" and .063" gauges. Attachment rivet included. (Nose radius 1.115"). Pro RSN kits fit "PM" and "RW" bars.

DOUBLE GUARD RSN KITS FIT "RG" BARS

BAR TYPE	PART NO	PITCH	TEETH	GAUGE (.000")		
RG	35321	3/8	9	50	58	63
	34726	Nose Rivet - Pack of 25				

A professional replacement sprocket nose with the reduced kickback performance of a small radius nose. The double Guard® small radius nose reduces kickback. Double Guard® RSN kits fit any Power Match® body and can replace standard noses with no change in chain drive link count. A single nose for .050", .058" and .063" gauges. Attachment rivet included. (Nose radius - .92"). Double Guard® RSN kits fit "RG" bars.

ANSI Information

IMPORTANT SAFETY INFORMATION

Attention dealers: Please read thoroughly

Certain provisions of the safety standard known as “ANSI (American National Standards Institute) B175.1” contain requirements designed to reduce the risk of injury due to kickback from chain saws sold in the United States. Kickback is a rapid upward and backward motion of the chain saw that can occur when the moving saw chain, near the upper portion of the tip of the guide bar, contacts an object such as a log or branch. The ANSI standard contains test methods to evaluate the kickback potential for both chain saws and replacement saw chain.

The accompanying OREGON® Saw Chain Classification Chart is designed to help you select appropriate replacement saw chains in order to maintain compliance with the ANSI standard.

Chain saws and the ANSI standard

The ANSI standard divides all gasoline powered chain saws into two groups:

- Below 3.8 cubic inch displacement (62 cc).
- 3.8 cubic inch displacement (62 cc) and above.

According to the ANSI standard, chain saws below 3.8 cubic inch displacement (62 cc) must meet low kickback performance requirements in the standard (paragraph 5.11.2.1). The manufacturer is required to mark these chain saws identifying at least one replacement bar and chain combination that will provide performance conforming to low kickback performance requirements.

Chain saws 3.8 cubic inch displacement (62 cc) and above may, but are not required to, comply with ANSI low kickback provisions. Chain saws that do not meet the low kickback performance requirements are required to be marked with a warning such as:

Warning: This chain saw is capable of severe kickback that could result in serious injury to the user. Do not operate this chain saw unless you have extraordinary cutting needs and experience and specialised training for dealing with kickback. Chain saws with significantly reduced kickback potential are available.

Replacement saw chain and the ANSI standard

When replacing the saw chain on chain saws below 3.8 cubic inch displacement (62 cc), a low kickback chain of the proper pitch, gauge, and drive link count must be used to enable the chain saw to maintain compliance with the low kickback provisions of the ANSI standard. OREGON® provides replacement saw chain that is labelled in accordance with the ANSI standard. The GREEN HIGHLIGHTED chain types in the accompanying Saw Chain Classification Chart are LOW KICKBACK. The YELLOW HIGHLIGHTED chain types are NOT LOW KICKBACK and should only be used by those with experience and specialised training for dealing with kickback.

Green label chain is low kickback chain.
The green label reads:

ATTENTION: READ THIS WARNING
This saw chain met the kickback performance requirements of ANSI B175.1- 2012 when tested according to the provisions of ANSI B175.1-2012. Low-kickback saw chain meets the kickback performance requirements of CSA Standard Z62.3. Its safety features significantly reduce the hazard of kickback while maintaining high cutting performance. ALL CUTTING CHAINS CAN KICK BACK, which may result in severe personal injury to the chain saw operator or bystanders. Operate your chain saw safely. Read all warnings in your chain saw operator’s manual.

Yellow label chain does not comply with the low kickback requirements of the standard.
The Yellow label reads:

ATTENTION: READ THIS WARNING
This saw chain may be capable of severe kickback that could result in serious injury to the chain saw operator or bystanders. Do not use this SAW chain unless you have experience and specialised training for dealing with kickback. Saw chain with reduced kickback potential is available.

Replacement guide bars and the ANSI standard

The ANSI standard states:

Because of differences in replacement guide bars, the following guidelines shall be considered to determine kickback energy:

A. Sprocket nose guide bars with the same effective length, the same number of sprocket nose teeth, the same nose radius, and the same pitch may be considered to have the equivalent kickback energy.
B. A hard-nose guide bar having the same effective bar length, and the same or smaller nose radius as a sprocket-nose bar, may be considered to have equivalent or less kickback energy than the sprocket nose bar.
C. Kickback energy of all guide bars may be considered to be less for smaller nose radius sizes.

When replacing guide bars, to maintain approximately the same kickback energy of a chain saw, the nose size (radius) of the replacement bar should be equal to or smaller than the original equipment nose – with the same bar length.

OREGON® SAW CHAIN CLASSIFICATION CHART

Low kickback saw chain

Part numbers of OREGON® saw chain that comply with the ANSI low kickback standard (paragraph 5.11.2.4) are highlighted in green.

CHAIN PITCH	PART NUMBERS BY GAUGE			
	.043"	.050"	.058"	.063"
3/8" Low Profile	90SG, 90PX	91P, 91PX, 91VG		
.325"		20BPX	21BPX	22BPX
		95VPX*		
3/8"		72V	73V	75V

* Narrow Kerf

The above Saw Chain Classification Chart supersedes and replaces all previous OREGON® Saw Chain Classification Charts and posters.

Professional use saw chain

Part numbers of OREGON® chains that do not meet ANSI low kickback performance requirements are highlighted in yellow. The chains below should be used only by those with experience and specialised training for dealing with kickback.

CHAIN PITCH	PART NUMBERS BY GAUGE			
	.043"	.050"	.058"	.063"
1/4"		25AP, 25A		
3/8" Low Profile		91VX, 91VXL, M91VX*		
.325"		20LPX, M20LPX*	21LPX, M21LPX*	22LPX, M22LPX*
		95R		
3/8"		72DPX, 72LGX, 72LPX, M72LPX*	73DPX, 73JGX, 73LGX, 73LPX, M73LPX*	75DPX, 75JGX, 75LGX, 75LPX, M75LPX*
			73RD	75RD
				75CJ, 75CLX
.404"			58L	27X, 27P, 59L, 68LX
				27R, 27RA
			58CL	59CJ, 59CL, 68CL, 68CJ

*MultiCut™ Chain — see *Saw Chain* section for details

Dealers, use caution whenever a customer requests:

- Cutting chain that does not meet the low kickback provisions of the ANSI standard, or any replacement guide bar with a nose radius larger than the original-equipment nose.

OREGON® urges dealers to advise these customers that there is additional risk of injury, and that chains and bars that meet ANSI low kickback performance requirements are available. In accordance with ANSI, dealers should advise customers not to use yellow label chain if they do not have experience and specialised training for dealing with kickback.

Dealer Proficiency

Help your customers select the right products, familiarise yourself with the chain saw fit-up information in this catalogue.

The fit-up and application information on products contained in this catalogue is based on data from a variety of sources, and can be used as a guide assisting you in selecting products that are appropriate for your customer. However, the information may contain errors and does not and can not account for variations in cutting conditions and user preferences from region to region. Therefore, dealers should confirm all data and information provided herein. OREGON® and GA POWER EQUIPMENT SPARES DISCLAIMS ALL RESPONSIBILITY FOR ANY ERRORS CONTAINED IN THIS CATALOGUE. All dealers are urged to become as knowledgeable as possible about:

- Local conditions and customer needs
- Kickback, and how you can help limit your customers' exposure to injury
- Issues specific to OREGON® products, including our end-use symbols, Intenz® guide bars.

IMPORTANT INFORMATION ON SELECTING OREGON® PRODUCTS

The three OREGON® end user symbols

One of the best ways to begin matching our products with their intended uses and users is by learning the three OREGON® End-use Symbols. Each of these three symbols represents a generalised category of chain saw use. OREGON® chains, bars, and sprockets are listed in this catalogue under one or more of these symbols, generally indicating the type of use for which each product is intended.

Professional chain saw use

- Big-timber loggers
- Pulpwood loggers
- Forest firefighters

Semi-pro chain saw use

- Arborists
- Orchardists
- Tree Surgeons
- Landscapers
- Farmers
- Commercial thinners
- Utility and construction workers
- Commercial firewood cutters

Consumer chain saw use

- Homeowners
- Occasional firewood cutters
- Campers
- Hunters

Selection and Installation of OREGON® Intenz® Guide Bars

Intenz® bars are those which have our patented Intenz® chain tensioning mechanism built right into the bar itself. Read and follow the information about Intenz® bars on this page, and provided inside the packaging sleeves.

Replacing the bar on saws currently equipped with an Intenz® bar

Chain saws originally equipped with an Intenz® bar do not have a "bar adjustment mechanism" for tensioning the chain. Chain saws which have been adapted to take an Intenz® bar have had the bar adjustment mechanism removed. Since these saws have no bar adjustment pin always replace an Intenz® bar with another Intenz® bar to maintain the saw's ability to properly tension the saw chain, or the ability to tension the chain will be lost.

Replacing a standard bar with an Intenz® bar

An Intenz® bar can be fitted to any chain saw with a compatible motor mount pattern. If the saw has a bar adjustment mechanism, the mechanism must be removed. Carefully follow all instructions provided with replacement Intenz® bars.

WARNING: Failure to tension chain correctly can cause serious injury to the operator or bystanders as a result of loose chain jumping off the bar. Do not use standard-type non-Intenz® guide bars on chain saws without a bar-adjustment mechanism. Chain tension can not be maintained on a non-Intenz® bar without the mechanical stop provided by the saw's bar-adjustment mechanism.

OREGON® Maintenance and Safety Manual

Additional information on the safe and effective use of OREGON® saw chain, guide bars and sprockets is available in the OREGON® Maintenance and Safety Manual. OREGON® urges dealers to read and follow the instructions in this manual, and dealers should urge their customers to do the same.

A. The bar-and-chain application tables are organised by chain saw brand names, shown in alphabetical order.

B. Saws less than 3.8 cubic inches (62cc) are shown with a green triangle. Low kickback performance requirements in the ANSI standard apply to these saw models.

C. Saws 3.8 cubic inches and larger are shown with a yellow triangle. Low kickback performance requirements in the ANSI standard do not apply to these saw models.

D. Saw models are listed and further broken down into groups, with each saw model group having its own set of recommended bar-chain applications. Note: Saws made for use with multiple pitches of chain will be listed in more than one saw-model group.

E. The bar-chain applications for each group of saw models are organised in sections, with each section headed by one pitch, one gauge and the recommended chain(s) having that pitch and gauge. There are multiple sections of applications for most saw-model groups depending on how many chain gauges, or other product variables, apply to each group.

F. Spur sprockets and rim systems can vary by tooth count. The common drive sprocket tooth count is shown.

G. Applications for bars with Intenz® or Micro-Lite® features are shown in special sections devoted to these products.

H. Listings with a blue backgound are Intenz® bars.

I. Bar-and-chain combos and chain display packs are shown on the same line as the bar length.

J. Asterisks refer you to important footnotes on the bottom of these pages.

K. PowerSharp® systems are available for some OEM saw models.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

Tools to Maintain Your Bar & Chain

Tool Name	5/32"	4.5 mm	3/16"	7/32"
File Part Number, 12-pack	70504	70511	70503	70502
Sharpening Kit Part Number	38276	38278	38277	38275
Assembly File Guide Part	37534	31692	31690	31686

** Chain saws originally equipped with an Intenz® bar, do not have a "bar-adjustment pin" for tensioning the chain. Use ONLY an Intenz® bar when replacing the guide bar on these saws.

† ANSI B175.1 regarding reduced kickback does not apply to pole saws or pruners

160SDET041 INTENZ Listings with a blue background denote that this is an Intenz® bar. For more details refer to the "Selecting OREGON® Products" page at the start of this section.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.

Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

▲ Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

▲ Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

▲ Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

▲ Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

▲ Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

▲ Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

▲ Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

▲ Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

▲ Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

▲ Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

Sharpening Kit Part Number	38276	38278	38277	38275
Assembly File Guide Part	37534	31692	31690	31686

** Chain saws originally equipped with an Intenz® bar, do not have a "bar-adjustment pin" for tensioning the chain. Use ONLY an Intenz® bar when replacing the guide bar on these saws.

† ANSI B175.1 regarding reduced kickback does not apply to pole saws or pruners

160SDET041 INTENZ™ Listings with a blue background denote that this is an Intenz® bar. For more details refer to the "Selecting OREGON® Products" page at the start of this section.

*For detailed contents of Bar and Chain Combos refer to page featured after this A-Z Bar and Chain Application Guide.

Chain saws with a **green triangle** have a displacement of less than 62cc (3.8 cu. in.). These saws must meet the low kickback requirements of the ANSI B175.1 standard. Chain types labelled green meet the low kickback provisions of the ANSI standard. Chain types labelled yellow have higher kickback potential and may not comply with low kickback provisions of the ANSI standard.
Part numbers printed in *red italic* are to be discontinued by OREGON® when stocks run out.

New chain loops are added to our range all the time, if a particular chain loop is not listed above please call us on 1300 363 004

Chain saws with a **yellow triangle** have a displacement greater than 62cc (3.8 cu. in.) and may, but are not required to, comply with ANSI low kickback requirements. These saws should be operated by users with experience and specialised training for dealing with kickback and are not recommended for general consumer use. In many cases, a low kickback, green label, saw chain can be applied to these saws but the kickback potential may still exceed that of the low kickback provisions of the ANSI standard. See ANSI B175.

OREGON® BAR AND CHAIN COMBO PACKS BY MOTOR MOUNT NUMBER

Our updated line-up of OREGON® bar and chain combo packs puts many of our most popular products together in attractive packaging for ease of selection and increased sales. The complete OREGON® merchandising program lets you move bars and chains out of your back room and into your showroom.

OVERVIEW OF CHAIN SAW SPROCKETS

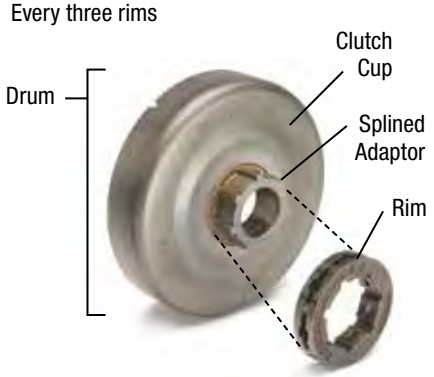
The power from your chain saw drives the sprocket, and the sprocket drives your cutting chain at high speed around your guide bar. Your sprocket, chain, and guide bar are the three components of your cutting system. It's the cutting system that does the actual work of cutting, and your sprocket is an essential member of the system. OREGON® sprockets can be installed on chain saws having either inboard or outboard clutch assemblies. Follow the instructions in the operator's manual provided by your chain saw manufacturer for correct sprocket installation.

OREGON® CHAIN SAW SPROCKETS COME IN THREE BASIC FORMS

Rim Sprocket Systems

OREGON® Power Mate™ rim sprocket systems have two components: a drum and a free-floating rim. It is only the rim that makes contact with your saw chain as it is driven around your guide bar. Rim sprocket systems are favoured by those who want the ultimate in performance and durability. Available for most chain saw applications.

Replacement Schedule:
Every three rims



Rim Sprocket System

Rims

The free-floating rim is the component of a rim sprocket system which is replaceable. OREGON® offers replacement rims in a variety of sizes and drive teeth-counts for professional and commercial chain saw users. Popular OREGON® rims for .325", 3/8" and .404"-pitch chains now come with new wear-depth indicators. When sprocket wear reaches the depth of the indicator, it's easy to see that it's time to replace the sprocket.

Replacement Schedule:
Every two chain loops

Spur Sprockets

One-piece spur sprockets are durable, economical and simple to use. Unlike rim sprocket systems, the chain-driving teeth and the clutch cup are combined into a single unit on spur sprockets. OREGON® spur sprockets are available for most chain saw applications.

Replacement Schedule:
Every two chain loops

ADDITIONAL COMPONENTS

Specialised parts used in conjunction with OREGON® sprockets are available separately.

Attention Dealers: Some OREGON® spur sprockets and Power Mate® systems have bearings installed, but some do not. Part numbers ending with asterisk (*) do not. Bearings must be purchased separately for all spurs or rim systems having part numbers that end with an asterisk (*). Where the designation "91" appears, use only with 3/8"–Low Profile™ chains (90PX, 91P, 91PX, 91VXL) or the competitive equivalent of the previously listed chains.

POWER MATE® RIM SPROCKET SYSTEMS

The ultimate sprocket for all types of chain saw users.

The Power Mate® Rim Sprocket System is the most effective way to drive saw chain on most chain saws.

- The Power Mate® Rim Sprocket System includes a clutch cup with splined adaptor and a replaceable rim sprocket.
- The rim floats freely on the splined adaptor, maximizing the saw chain bar groove alignment.
- The rim is designed to be replaced, maximizing operational life and reducing overall operating costs.

Note: All rim sprockets have two sets of teeth.

A rim is installed on the clutch cup by sliding onto the cup's toothed splined adaptor. OREGON® splined adaptors come in two sizes, "Small 7" and "Standard 7." The teeth on the splined adaptor and the teeth on the inner diameter of the rim work as a team to prevent the rim from spinning on the splined adaptor. Spline teeth should not be confused with the slotted chain-driving teeth on the outside of the sprocket. When referring to the sprocket application tables, the heading "Drive Teeth" refers to the chain-driving teeth, while the splined adaptor size and number of teeth is found listed under Power Mate® System.

OREGON® RIMS

The benefits of a replaceable rim in the Power Mate® sprocket system

OREGON® Rims are preferred by most professional chain saw users.

- The rim floats on the splined adaptor and allows the saw chain and rim to align with the groove of the guide bar.
- Three of the most popular sizes are available in a radial port design, which uses centrifugal force to throw off sawdust and debris.
- Popular rims are available with wear-depth indicators, which make it easy to tell when the sprocket should be replaced.

POWER MATE RIMS

The Replaceable Component of a Rim Sprocket System

Use these actual-size drawings to identify your rim sprocket or spline.
A complete listing of OREGON® sprocket part numbers is found in the charts titled "Sprocket Application" at the end of the sprocket section.

Cordless Tool System

ONE BATTERY SYSTEM >> MULTIPLE TOOLS

36V LITHIUM ION

36V Lithium Ion Performance
- long run time
- premium cell technology
- constant, no-fade power
- holds charge in storage for months

Instant Start
- no pull cords
- no warm up
- no petrol-oil mixing
- no emissions

Comfort & Control
- ergonomically engineered tools
- lightweight and balanced
- large comfortable handles
- variable speed throttle (trimmer and edger only)

Low Noise
- four times quieter than a petrol engine†
- silent between cuts

†when compared with internal combustion engines of equivalent output.

ALWAYS READY™

Part Number:
CTSCHAINSAW
MODEL NUMBER: CS250-E6 CHAINSAW
- Instant Start - No pull cords. No warm up. No petrol-oil mixing. No emissions.
- Ergonomic Design - Light-weight and balanced. Low vibration.charge in storage for months.

Part Number:
CTSHEDGETRIMMER
MODEL NUMBER: HT255-E6 HEDGER
- 36V Lithium Ion Performance
- Long run time
- High power for fast cutting
- Premium Cell Technology
- Constant no-fade power
- Holds charge in storage for months

Part Number:
CTSTRIMMER
MODEL NUMBER: ST250-E6 TRIMMER/EDGER
- Trimmer Line: .080" (2.00 mm)
- Reliable bump feed head
- Dual lines for faster cutting
- Ergononically designed
- Light-weight & balanced
- Large comfortable handles

COMING SOON

Part Number:
CTSPOLESAW
MODEL NUMBER: PS250-A6 POLESAW
- Telescopic Tool-Free Extendable Shaft
- 2.2 m – 3.1 m (Appox. 4.5 m reach)
- 8 " (20 cm) Bar Length

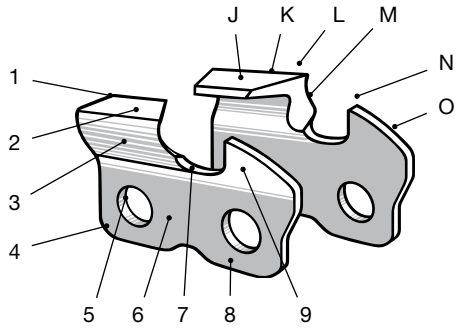
PROPERLY SHARPENED CUTTER

Cutter features

1. Top Plate
2. Square or Round Working Corner
3. Side Plate
4. Heel
5. Rivet Hole
6. Chassis
7. Gullet
8. Toe
9. Depth Gauge

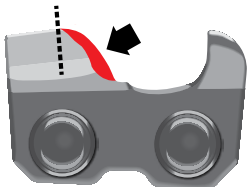


Sharpened Cutters have:

J. Correct angle on top plate (degree of angle depends on chain type)
K. Razor-edge on top plate (no light should reflect from this edge)
L. Slightly protruding “hook” or point (curve on non-chisel chain)
M. Razor-edge (with no nicks) on side plate
N. Top of depth gauge at correct height below top plate
O. Front of depth gauge rounded off

FILING ERRORS

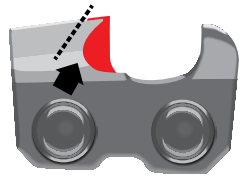
Backslope on side plate cutting edge.
Cutter won’t feed into wood.



Cause
File held too high.

Solution
Refile cutters to recommended angle.

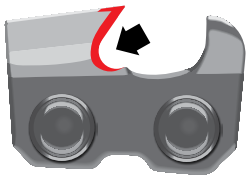
Too-thin top plate causes rapid dulling.



Cause
File handle held too low.

Solution
Refile properly, at recommended angle.

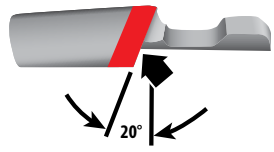
To much hook in side plate cutting edge.
Cutters grab, cut rough.



Cause
File held too low or file is too small.

Solution
Refile to recommended angle with right size file.

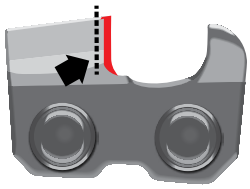
Top plate angle less than recommended.
Causes slow cutting, excess wear on chain and bar.



Cause
File held at less than recommended angle.

Solution
Refile at correct angle.

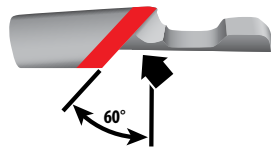
Flat top plate cutting angle.
Chain won’t feed into wood, won’t cut.



Cause
File handle held too high.

Solution
Refile properly at recommended angle.

Top plate angle more than recommended.
Side plate cutting edge is thin and dulls rapidly.

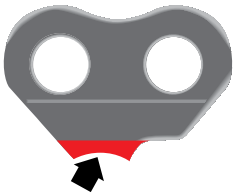


Cause
File held at more than recommended angle.

Solution
Refile at correct angle.

DRIVE LINK WEAR

Rounded concave bottom.

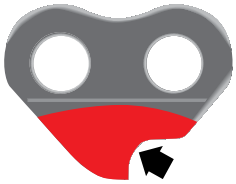


Cause
Shallow grove on bar tip.

Solution
Regroove bar tip. Bar may need replacing.

Note
Applies to
Armor Tip bars only.

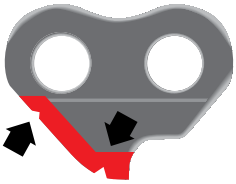
Scars on sides.



Cause
Loose chain
jumping off bar.

Solution
Adjust chain tension. Replace bent drive links. Refile at correct angle.

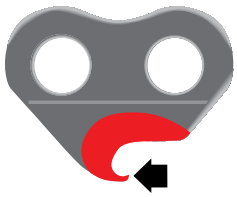
Nicked bottom or back.



Cause
Cutting with loose chain, or wrong pitch sprocket.

Solution
Adjust chain tension. Install correct sprocket. File off burrs. Replace damaged drive links.

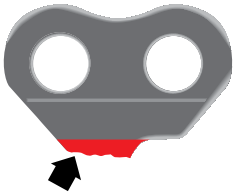
Front point turned up.



Cause
Drive links bottoming in sprocket. Sprocket worn.

Solution
Replace sprocket. Sharpen tangs. Check for burrs.

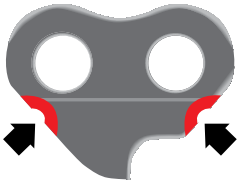
Battered and broken bottom.



Cause
Chain jumped bar. Spur sprocket hit drive links.

Solution
Replace damaged drive links, sharpen tangs with round file. Remove burrs.

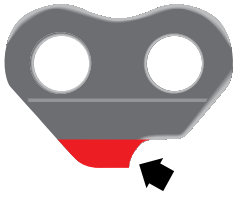
Front or back peened.



Cause
Wrong pitch sprocket or prolonged chain chatter.

Solution
Replace sprocket. Adjust chain tension. Chain may be damaged beyond repair.

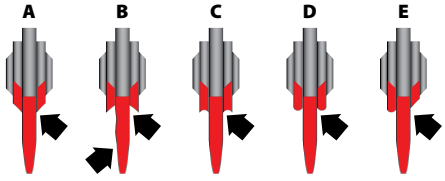
Sides worn round at bottom.



Cause
Chain wobbled in bar groove. Caused by uneven cutters or worn bar rails.

Solution
Rework bar rails and groove. Correct chain filing.

Excess wear on bottom of all chain parts.



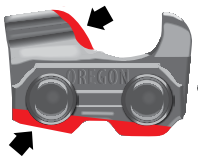
A. Open Bar Groove. **B.** Severe abrasion and wobbly chain on thin bar rails. **C.** Rails not flat. **D.** Wobbly chain, rails too thick. **E.** One rail too thin or soft.

Causes
Uneven filing, worn bar rails cause chain to wobble.

Solution
File chain properly. Recondition bar rails or replace bar. Replace chain if necessary.

CUTTER AND TIE STRAP WEAR

Excessive heel wear on cutters and tie straps.



Causes
1. Blunt top plate filing.
2. Forcing dull chain to cut.
3. Lack of lubrication.
4. Low depth gauge settings.
5. Forcing chain to cut frozen wood.

Solution
File cutters properly. Don't force dull chain to cut. Use oil freely.

Edges burred and notch peened on tie straps.

Cause
Chain chatter due to loose chain tension and improper filing.

Solution
Correct chain tension. Refile chain properly. Replace sprocket if badly worn.

Peened notch in tie strap. Causes tight joints and broken drive links.

Cause
Chain run on badly worn spur sprocket or wrong pitch sprocket.

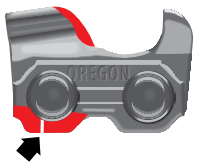
Solution
Replace worn sprocket. Chain may need replacing.

Peening on bottom of cutters and tie strap causes tight joints.

Cause
Loose chain tension. Result of dull cutters and forcing dull chain into wood.

Solution
Keep proper tension. Keep cutters sharp. Chain may need replacing.

Cracks under rear rivet holes on cutters and opposing tie straps.



Cause
Excessive pressure on dull or misfiled cutters. Common during winter.

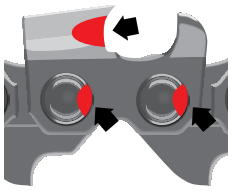
Solution
File chain correctly. Use oil freely.

Light damage on cutting edges of top and/or side plates.

Cause
Cutters hit sand or dirt, other foreign material.

Solution
File cutters to remove all damaged area.

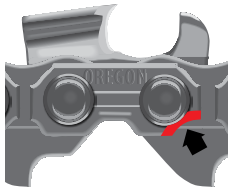
Severe damage on either side of top and/or side plates.



Cause
Cutters hit abrasive materials.

Solution
File cutters to remove all damage.

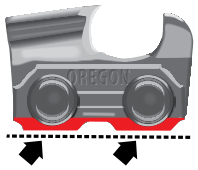
Peening on front corner of cutters and intermediate tie straps. Causes tight joint.



Cause
Chain striking bar entry. Sprocket too small or loose chain tension.

Solution
Use proper bar and sprocket. Adjust chain tension correctly.

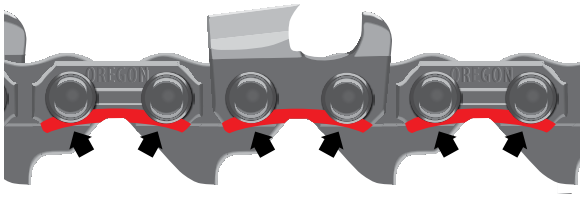
Excessive wear on bottom of cutters and tie straps.



Cause
Depth gauges too high. Cutting edge cannot get into wood.

Solution
Lower depth gauges to proper setting. Keep cutters filed correctly.

Concave wear on bottom of cutters, connecting tie straps.

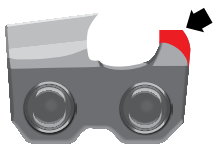


Causes
1. Chain tension too tight.
2. Normal wear from undercutting (cutting with top of bar).

Solution
Adjust chain tension. Reduce cutting with top of bar.

GUIDE BAR TROUBLESHOOTING GUIDE

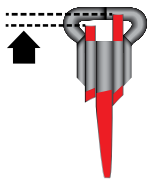
Blunt depth gauge. Causes rough cutting.



Cause
Uneven filing.

Solution
Use correct depth gauge jointer to lower gauges evenly.

Uneven depth gauge height. Chain won't cut straight.

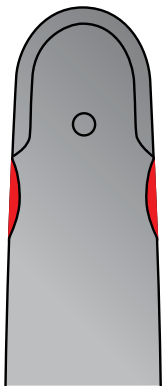


Cause
Improperly filed depth gauge.

Solution
Round off front corner to maintain original shape.

SAW BAR PROBLEMS

Chipped Rail

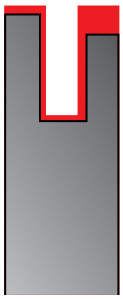


Cause
Chipping of rails behind hard tip. Continual pressure of bar on one area. Dull chain. Loose bar tension.

Result
Material chipping out of one or both rails behind the hard tip.

Solution
Reverse bar to reduce wear. Reweld bar by qualified repair shop. Replace bar. (This chipping can cause chain damage.)

Thin Rail and Low Rail

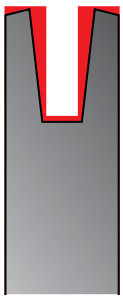


Cause
Chain leaning over, cutting crooked. Forcing dull chain to cut. Damage to cutters on one side of chain.

Result
Thin rail on one or both sides of bar. Rail could be blue colour in thin area.

Solution
Bar cannot be repaired if rail is thin and uneven. Replace it. Make sure chain doesn't continue to lean. If it does, replace with a new chain.

Worn Bar Rails

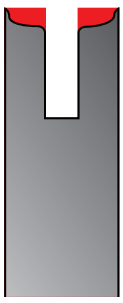


Cause
Worn bar rails are normal for a bar that has been in service for a period of time.

Result
Shallow groove.

Solution
Replace bar.

Wire Edge Bar Rail



Cause
Normal wear caused by pressure of chain on edges of bar rails.

Result
Rail edges may chip if wire edge is not removed.

Solution
Use a flat file on edge of bar rail to remove wire edge or Bar Rail Dresser **#111439**.

SPROCKET NOSE BAR PROBLEMS

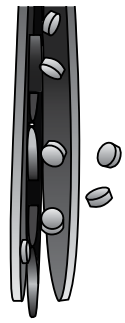
Blue Discolouration on Bar Nose

Cause
Nose was pinched. Friction from revolving sprocket caused heat and area turned blue. Could be lack of lubrication.

Result
Entire edge turns blue or only in one or two spots.

Solution
If this happens in the nose bearing area the bar is no longer serviceable. Replace bar if laminated bar.

Spread Nose Rails and Bearing Loss

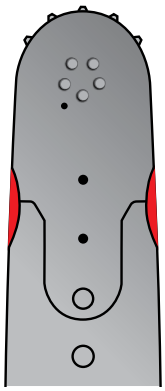


Cause
Chain jumped off bar. Carving with nose. Limb caught nose. Twisting nose. Any operating accident.

Result
Spread nose rails and loss of bearings.

Solution
Replace bar. Replace nose of RSN bar.

Chipping at Nose Connection (replaceable nose)

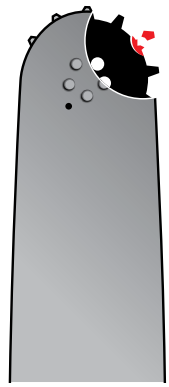


Cause
Loose chain tension. Continual pressure in this area. Heavy limbing at this point.

Result
Chipping at connection of both body and nose assembly.

Solution
Replace nose assembly and dress rail of bar and nose to match.

Section Broken Out of Sprocket



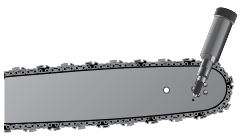
Cause
Irregular operating condition which forced drive link sideways. Throwing the chain when limbing. Chain tension run too loose.

Result
Open nose. Broken sprocket. Bearings fall out. One or two broken teeth.

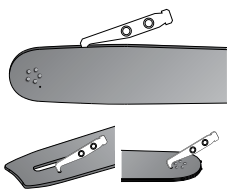
Remedy
Replace bar nose assembly.

BASIC GUIDE BAR MAINTENANCE TASKS

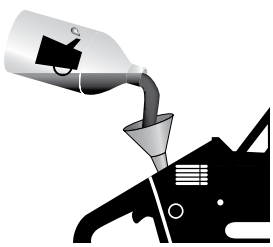
Chain Tension
Inspect before use and after every hour of use.



Bar Nose Grease
Turn nose sprocket while pumping grease until whole sprocket has new grease. Do not push dirt into hole.

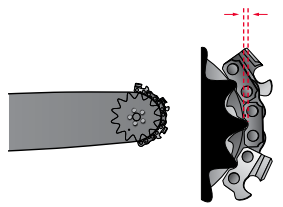


Bar Cleaning
Clean bar channel, grease hole and, oil hole daily.

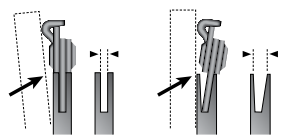


Chain and Bar Oil
Inspect before use and after every hour of use.

File Bar Edge
File bar edge to 90° weekly or use Bar Rail Dresser #**111439**.

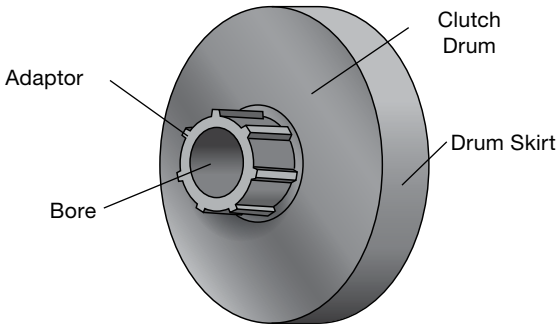


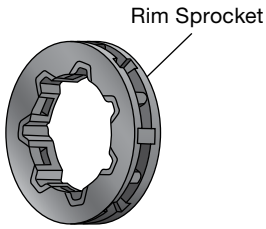
Bar Tip Clearance
On sprocket nose bars, check for clearance around the bar tip between top of rails and the bottom of cutters or tie straps weekly. Replace nose sprockets before cutters or tie straps contact the bar rails.



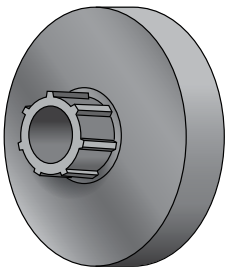
Chain Lean
With chain on the bar, hold a straightedge against the bar body and against a cutter side plate. A good groove will hold the chain straight, leaving a small gap between the straight edge and bar body. A worn groove will let the chain lean until straightedge is flush with bar body. Replace bar if groove is worn. Check weekly.

RIM & SPUR SPROCKET TROUBLESHOOTING GUIDE

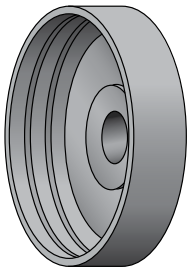




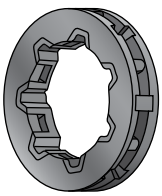
Power Mate® Sprocket (front view)



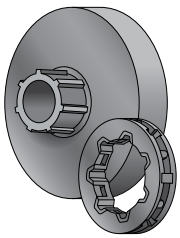
Power Mate® Sprocket (inside view)



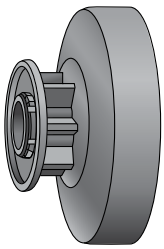
OREGON® Rim



Power Mate® Rim Sprocket System



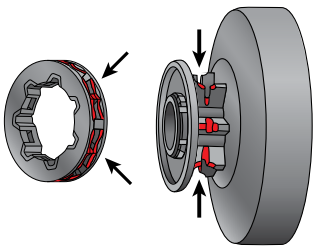
Spur Sprocket



BASIC SPROCKET MAINTENANCE

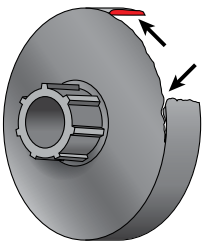
Rims and Spur Sprockets

Visually inspect daily.



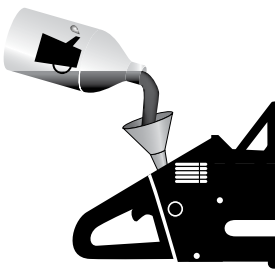
Power Mate Sprockets

Visually inspect daily and before use.



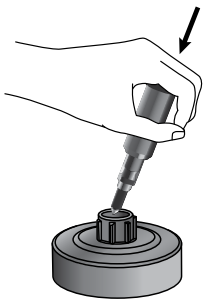
Bar and Chain Oil

Fill before use and when reservoir is empty.



Sprocket Grease

Apply grease to sprocket once a week.

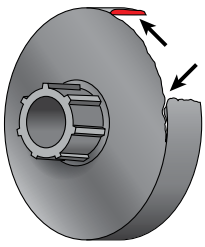


TYPICAL DRUM STRESS

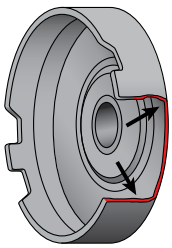
Result
Check daily for cracks, splits, or excessive wear in the sprocket clutch drum.

Solution
If the drum is cracked, split, or broken, as shown, replace the drum immediately with a new one.

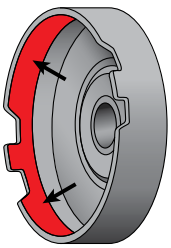
Broken/Cracked Skirt



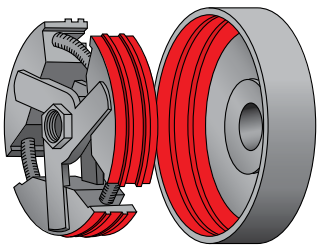
Cracked Oil Pump Lug



Worn Inner Diameter



Worn Clutch, Worn Inner Diameter



RIM & SPUR SPROCKET TROUBLESHOOTING GUIDE

Spur Sprocket Damage

Cause
This condition can occur when cutting chain drive links wear through the case-hardened teeth.

Result
Cutting chain can be ruined by damaged spurs.

Solution
If spur sprocket teeth look like this replace immediately.

Rim Damage

Cause
Wear can occur under normal conditions. However, check for excessive rim wear and look for wear on outer diameter.

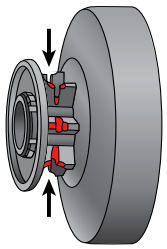
Result
The reduction in diameter can also allow chain drive links to damage the sprocket adaptor.

Solution
Manufacturer recommends scheduled replacement after two chains.

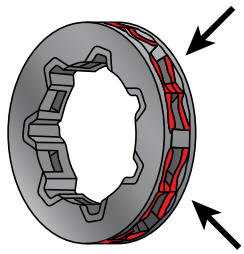
Severe Rim Damage

Solution
Do not fit cutting chain to rims that are severely worn. Serious chain damage will result and the rim may break.

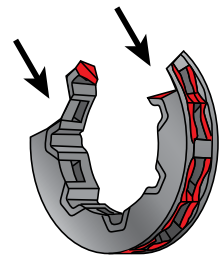
Worn Spur



Outer Wear



Broken Rim

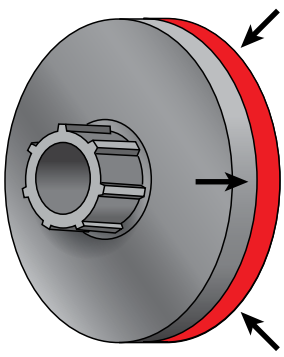


CHAIN BRAKE STRESS

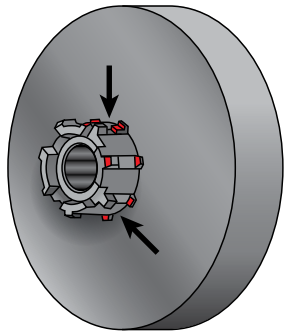
Result
An overly tightened strap around the drum will cause the strap to rub against the clutch drum which will overheat and soften the metal causing potential drum failure.

Solution
If your chain saw has a chain brake, always check the brake to make sure it stops the rotating chain when activated. Make certain that the brake strap around the drum is not too tight.

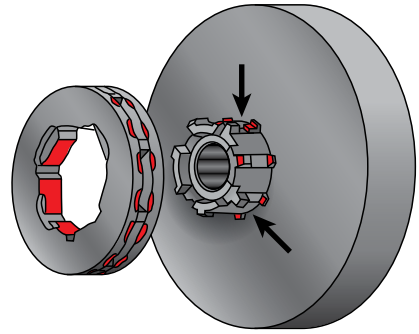
Skirt Wear/Brake Band



Wear/Adaptor Damage



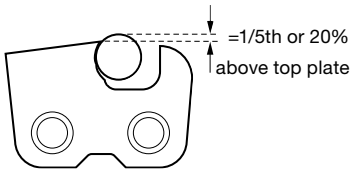
Worn Rim and Adaptor Spline



HOW TO SHARPEN CHAINSAW CHAIN WITH A ROUND FILE

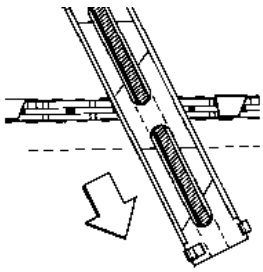
1

Be sure 1/5th, or 20%, of the file's diameter is always held above the cutter's top plate. The best way to do this is with an Oregon® File Guide. The file guide automatically keeps 20% of the file's diameter above the cutter's top plate.



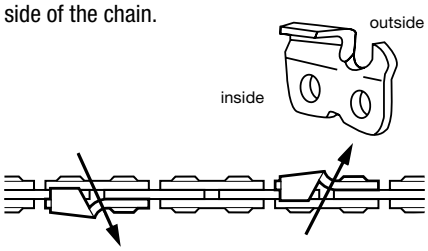
2

Keep the correct Top-plate Filing Angle line on your file guide parallel with your chain.



3

Sharpen cutters on one side of the chain first. File from the inside of each cutter to the outside. Then turn your saw around and repeat the process for cutters on the other side of the chain.

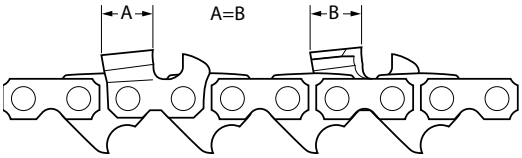


4

If damage is present on the chrome surface of top plates or side plates, file back until such damage is removed.

5

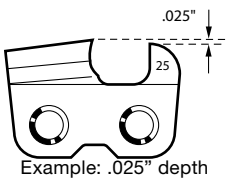
Keep all cutter lengths equal.



HOW TO SET DEPTH GAUGES

1

Most Oregon® chains have a number stamped on each depth gauge indicating the correct depth-gauge setting.



Example: .025" depth gauge setting

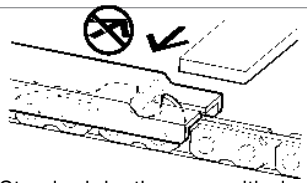
Use a depth-gauge tool with the correct built-in setting for your chain and check your depth gauges every 3 or 4 sharpenings or more often if needed.

2

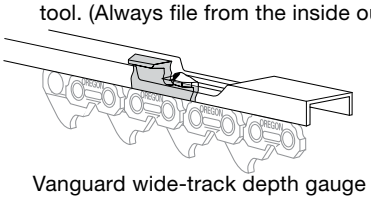
Be sure the heel and toe of the cutter are both down, resting on the bar rail, before any filing is done. This is especially important on low-vibration chains, which have a "clipped heel" that rides above the rail slightly when the chain is properly tensioned.

Place the tool on top of your chain so one depth gauge protrudes through the slot in the tool.

NOTE: Be aware that "standard" depth gauges and "wide-track Vanguard" depth gauges are set differently.



Standard depth gauge with drop-end gaugit tool. (Always file from the inside out.)



Vanguard wide-track depth gauge with dropcenter depth gauge tool.

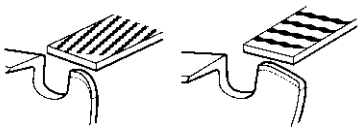
3

If the depth gauge extends above the slot, file the depth gauge down level with the top of the tool using a flat file. Never file the depth gauge down so far that you exceed the depth-gauge setting specified in this manual for your Oregon® chain.

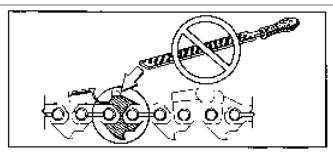
NOTE: Do not file or alter the tops of kickback-reducing bumper tie straps or bumper drive links, except on Oregon® 33SL, 34SL, and 35SL chains. Only 33SL, 34SL, and 35SL require filing of the bumper tie straps.

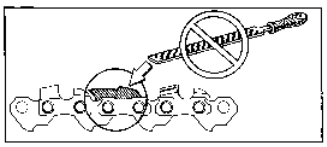
4

After filing the depth gauge down, round off its leading edge and return the depth gauge to its original rounded or ramped shape**. On chains with bumper links, it may be necessary to move the cutter to the bar's tip, or remove the chain from the bar, in order to re-shape the depth gauge.



- The depth gauges on all non-Vanguard chains should be rounded off after they are filed down.
- Do not round off the depth gauges on Vanguard chain.





**Do not round off the depth gauges on Vanguard chain after filing them down.
NOTE: On many chains, it may be helpful to tip the depth-gauge tool on end and place it in front of the cutting corner in order to protect the cutting surfaces when rounding off depth gauges.

OMK519789

9 316596 084579

This OREGON® bench chain grinder is one of the finest machines available for those who frequently sharpen chain. It has been carefully redesigned to include some new and upgraded features that will make grinding chain faster and more efficient.

- **Self-centering vise** - Equal grind angles without adjustment. The self-centering vise clamps to all chain sizes, from 1/4”-pitch to 3/4”-pitch chains.The 3/4”-pitch vise attachment is not required.
- **Forward/aft sliding vise** - This newly added part compensates for reduction in material on the grinding wheel. The vise repositioning feature allows the wheel to remain in the same position as material is reduced through grinding use.
- **Indexing chain stop assembly** - A larger, more robust indexing chain stop provides greater surface area to accommodate larger chain types.
- **Motor head release button** - This feature will make a difference when filing depth gauges. By simply pushing a button, the motor head raises, allowing more room to work when filing depth gauges.

Standard Pack 1
Accessories include:
OMK32659 - 3 mm Wheel for 1/4”, 3/8” LP, .325”
OMK32660 - 4.7 mm Wheel for 3/8” and .404”
OMK90110 - Wheel dressing block

OMK32659

Grinding Wheel for 1/4", 3/8" LP, .325"
To suit OMK106540, OMK32653 and OMK519789 Bench Mounted Grinders. Also Suits Jolly, Joker and Super Jolly Grinders
O.D: 145 mm (5 3/4")
Thickness: 3.2 mm (1/8")
Hole: 22.3 mm (7/8")
Standard Pack 1

OMK32660

Grinding Wheel for 3/8" and .404"
To suit OMK106540, OMK32653 and OMK519789 Bench Mounted Grinders
Also Suits Jolly, Joker and Super Jolly Grinders
O.D: 145 mm (5 3/4")
Thickness: 4.8 mm (3/16")
Hole: 22.3 mm (7/8")
Standard Pack 1

OMKOR534-18

To suit OMK106540, OMK32653 and OMK519789 bench-mounted grinders.
Also Suits Jolly, Joker and Super Jolly Grinders
For use on 1/4" and 3/8" LP and .325" Chain Pitch
O.D: 145 mm (5 3/4")
Thickness: 3.2 mm (1/8")
Hole: 22.3 mm (7/8")
Standard Pack 1

OMKOR534-316

To suit OMK106540, OMK32653 and OMK519789 bench-mounted grinders.
Also Suits Jolly, Joker and Super Jolly Grinders
For use on 3/8" and .404" Chain Pitch
O.D: 145 mm (5 3/4")
Thickness: 4.8 mm (3/16")
Hole: 22.3 mm (7/8")
Standard Pack 1

OMKOR534-14

To suit OMK106540, OMK32653 and OMK519789 bench-mounted grinders.
Also Suits Jolly, Joker and Super Jolly Grinders
For use on depth gauges
O.D: 145 mm (5 3/4")
Thickness: 6.4 mm (1/4")
Hole: 22.3 mm (7/8")
Standard Pack 1

OMKOR534-516

To suit OMK106540, OMK32653 and OMK519789 bench-mounted grinders.
Also Suits Jolly, Joker and Super Jolly Grinders
For use on 3/4" Chain Pitch
O.D: 145 mm (5 3/4")
Thickness: 7.9 mm (5/16")
Hole: 22.3 mm (7/8")
Standard Pack 1

OMKOR4125-18

To suit OMK106550 mini grinder and the discontinued OMK109178 12 volt grinder
Also suits Midi Jolly and Baby Jolly Grinders
For use on 1/4", 3/8" LP, and .325" Chain Pitch
O.D: 105 mm (4 1/8")
Thickness: 3.2 mm (1/8")
Hole: 22.3 mm (7/8")
Standard Pack 1

Please Note: Tungsten grinding wheels can be found in the Workshop section on page 990.

Replaces OMK22-495

Square Magnum Gatorline™ .095" (2.40 mm) x 226ft (Approx 69 metres), 1 lb (450g) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 12)

OMK561520

7 332437 091591

Replaces OMK22-405

Square Magnum Gatorline™ .105" (2.65 mm) x 187ft (Approx 57 metres), 1 lb (450g) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 12)

OMK561489

7 332437 091409

Replaces OMK22-430

Square Magnum Gatorline™ .120" (3.00 mm) x 144ft (Approx 44 metres), 1 lb (450g) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

FLEXI-BLADE

OMK21-606

0 32488 21606 2

FlexiBlade™ .105” (2.70 mm) x 819 ft (249 metres) Large spool.
FlexiBlade™ is a patented cutting system with the power to sever weed stalks up to 3/4” in diameter with ease. The extreme cutting force of FlexiBlade™ for cutting weeds and heavy grass comes from its serrated edges. The serrations act like the teeth of a saw, bringing multiple cutting surfaces into contact with the vegetation being cut.
FlexiBlade™ is made from a high strength reinforced composite material for long wearing durability.
FlexiBlade™ can be used in most manual feed trimmer heads.
FlexiBlade™ is not recommended for most bump feed trimmers.

- Leaves a cleaner cut in grass
- Cuts through dense weeds and berry vines
- Cuts fast, even in heavy cutting conditions
- More cutting power than trimmer line
- Quieter than trimmer line
- Safer than steel weed blades

Standard Pack 1 spool.

28 TON LOG SPLITTER

OREGON® Log Splitter

The OREGON® 28 Ton log splitter provides commercial quality and power at an affordable price. Fitted with a commercial grade 9.5 hp 277 cc Kohler Command Pro CH395 engine and an auto return valve with an 11.5 second cycle time our 28 Ton Log Splitter is able to split logs up to 24". Ergonomically designed, our 28 Ton Log Splitter is at the right height reducing fatigue and can be operated either horizontally or stood up and operated vertically so it remains easy to use in any situation. Optional accessories available include a log catcher to keep split logs at an easy workable height and 4–way wedge for more splits with less effort. Fitted with quality features throughout this log splitter will provide many years of reliable service.

Part number: OMKLOGSPLITTER

Features:

- Quality Engine – Kohler Command Pro CH395 (9.5 hp / 7.1 kw / 277 cc) engine.
- Horizontal and vertical operation
- 28 Tons of splitting force (US 28 Tons = 25.4 tonnes Force)
- Auto return valve
- Two stage pump 16 GPM (60.56 litres per minute)
- Valve – Ergonomically positioned for operator comfort
- Steel coil covered hoses – protected for longer life.
- Wedge: 8" (203.2 mm)
- Cylinder Connection: Engineered for increased strength
- Stripper Plates: Integrated for rigidity, capable of removing stuck logs
- Log Cradle: Integrated log cradle keeps logs in place for hands free (safer/faster) splitting
- Solid Foot Piece: Increased Strength
- In–Tank Suction Screen: Better hydraulic fluid filtration
- Beam Lock: Keeps beam secure
- Boxed Drawbar with Handle: Designed for strength and manoeuvrability
- Utility Jack: Adjustable utility jack provides solid support during splitting
- Solid Foot Piece: Increased strength
- Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).

SPECIFICATIONS:
Beam: 6" x 9" (152.4 mm x 228.6 mm)
Capacity: 28 Tons of splitting force (US 28 Tons = 25.4 tonne Force).
Cycle Time: 11.5 seconds.
Engine: Kohler Command Pro CH395 (9.5hp / 7.1kw / 277cc) commercial grade horizontal shaft engine.
Hydraulic Ram Cylinder: 4.5" x 24" (114.3 mm x 609.6 mm)
Hydraulic Tank Capacity: 7.5 Gallons (28.39 litres) – Plenty of room for fluid to keep flowing and stay cool.
Maximum Log Length: 24" (609.6 mm)
Operating Position: Horizontal and vertical operation.
Pump: Two stage 16 GPM (60.56 litres per minute)
Pump Working Pressure: 3,500 PSI +/- 100 PSI

Shipping Dimensions: Crate Length 1870 mm x Width 930 mm x Height 630 mm
Shipping Weight: 320 kgs (Including crate)
Tow Hitch: 2" (50 mm)
Unit Total Weight: 308 kgs (680 lbs)
Valve: Auto return valve - speeds up the log splitting process.
Wedge: 8" (203.2 mm)
Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
Working Height: 31.5" (800 mm)
Warranty: 3 years (limited) on steel components; 3 years engine (as rated by manufacturer); 1 year on major hydraulic components; Full warranty details available upon request.
Standard Pack 1

Please refer to the IPL section for a complete illustrated spare parts listing for our log splitter.

Outer: 420 Denier oxford nylon with reflective strips
Inner: 6 layers of special chain stopping polyester mesh
Standard Pack 1
Australian Standards Approved
Manufactured to AS/NZS 4453.3:1997

BRG6392
9 316596 073948

GA Fluoro Orange Chainsaw Chaps
Large 1050 mm
Manufactured from waterproof nylon with Arbor Tex mesh, with quick release strap and buckle.
ArborTex chainsaw protective fabric is a lightweight and flexible high performance material that clogs and resists cutting.
Arbortex fabrics are layered into specially engineered protective pads that provide outstanding performance and protection.
Upon contact with a chain saw chain, the fine filaments of the fabric are easily pulled and drawn into the chain saw to fill the moving parts of the chain saw. The multiple layers of ArborTex work by clogging and jamming the chain against the bar and sprocket
Standard Pack 1
Australian Standards Approved
Manufactured to AS/NZS 4453.3:1997

SV6310
9 316596 072927

DOLMAR, MAKITA, WACKER			
CYL6720 9316596079407	**Dolmar**, **Makita**, **Wacker** 50 mm bore cylinder assembly Fits: Dolmar PC-7312 S, PC-7314 S, PC-7330, PC7335. Makita DPC7300, DPC7301, DPC7310, DPC7311. Wacker BTS1035 demolition / cut off saw model. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Dolmar 394-130-013 Makita 394-130-013 Wacker 0108119	
HUSQVARNA			
CYL7451 9316596089536	**Husqvarna** 44 mm bore cylinder assembly. Fits: 51 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 503 16 83-01	
CYL7449 9316596089529	**Husqvarna** 45 mm bore cylinder assembly. Fits: 55 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 503 16 91-71	
CYL6675 9316596078967	**Husqvarna** 48 mm bore cylinder assembly. Fits: 61 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 503 53 20-71	
CYL6678 9316596078998	**Husqvarna** 50 mm bore cylinder assembly. Fits: Husqvarna 268 chainsaws and 268K demolition / concrete saw models. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 501 65 85-71	
CYL7453 9316596089543	**Husqvarna** 48 mm cylinder assembly. Fits: 365 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 503 69 10-73	
CYL7455 9316596089512	**Husqvarna** 56 mm bore cylinder assembly. Fits: 395 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 503 99 39-71	
CYL6771 9316596080380	**Husqvarna** and **Partner** 56 mm bore cylinder assembly. Fits: Husqvarna K950 and Partner K950 Active demolition / concrete saws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	Husqvarna 506 15 55-06 Partner 506 15 55-06	

Part No	Description	Replaces OEM	Image
HUSQVARNA			
CYL7457 9316596089550	**Husqvarna** and **Partner** 60 mm bore cylinder assembly. Fits: K1250 model concrete / demolition saw. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	506 29 42-71	
PARTNER			
CYL6681 9316596079025	Partner 50 mm bore cylinder assembly. Fits: K650 Active (late model) and K700 demolition / concrete saw models. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	506 09 92-12	
STIHL			
CYL6685 9316596079063	**Stihl** 44 mm bore cylinder assembly. Fits: 026, MS260 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	1121 020 1208 1121 020 1203	
CYL6688 9316596079094	**Stihl** 48 mm bore cylinder assembly. Fits: 034 Super, 036 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	1125 020 1204 1125 020 1213	
CYL6691 9316596079124	**Stihl** 52 mm bore cylinder assembly. Fits: 038 Magnum, MS380 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	1119 020 1202	
CYL7459 9316596089475	**Stihl** 50 mm bore cylinder assembly. Fits: Late model 044 after serial # X29 382 283 (with a 15 mm crankshaft small end hole diameter, measured with bearing removed) and MS440 model chainsaws. This cylinder has a threaded decompressor hole. Comes with piston, rings, gudgeon pin and circlips. Gudgeon pin diameter: 11.98 mm Please Note: The 044 chainsaw had two crankshafts fitted during its lifespan that featured different sized little and big end bearings. This cylinder kit only fits models after serial # X 29 382 283 that have a 15 mm little end hole diameter (measured with bearing removed). Standard Pack 1	1128 020 1227	
CYL7461 9316596089482	**Stihl** 52 mm bore cylinder assembly. Fits: 046, MS460 model chainsaws. Comes with piston, rings, gudgeon pin and circlips. Standard Pack 1	1128 020 1217	

CYL - Cylinder Assemblies

ECP6505	**Stihl** ignition coil assembly Fits: 009, 010, 011, 012, 020, 021, 023, 025 model chainsaws. Standard Pack 1	0000 400 1306	
ECP6517	**Stihl** ignition coil assembly. Fits: selected 017 model chainsaws. Standard Pack 1	1130 400 1300	
UNIVERSAL			
TOL7829	CheckSpark Engine Ignition Analyser CheckSpark safely tests for proper spark, shorted or fouled spark plugs and even open or broken spark plug wires. This engine ignition analyser is a highly accurate diagnostic sensor that uses micro-circuit technology to troubleshoot why your outdoor power equipment or vehicle will not start. Simply clip connect the CheckSpark tester to the plug wire of the non-running engine and firmly pull the recoil starter or energize the electric starter long enough to turn the engine over several times. One of three LED's will indicate the engine's electrical condition. • Solid Red - No Spark (less than 200 Volts) • Red Flashing - Voltage too low (250 to 2,500 Volts) • Green Flashing - Spark OK / Plug Firing (3,000 to 13,000 small engine setting / 3,000 to 28,000 Automotive setting) • Yellow Flashing - Voltage too high (More than 15,000 volts small engine setting / More than 33,000 volts automotive setting) **Features & Benefits** • Quickly and safely tests for proper spark on most 2 stroke and 4 stroke engines (small engines and vehicles) with and without electronic CD ignitions. • Eliminates guesswork • Tests: Proper Voltage, High Voltage, Low Voltage, No Voltage • One person - Hands free operation, just clip on the spark plug wire and turn the engine over. • Simple and reliable for home, shop and professional use • Patented gripper hook • Saves time and money • Simple engine type slide switch - Switches between vehicles or small engines. Standard Pack 1		NEW

2-STROKE OIL

LUB6184

9 316596 070831

200ml 2 Stroke Oil (Dyed Green)
A high quality two stroke oil for use in small air-cooled two stroke engines.
Due to its excellent thermal stability and offering a low ash performance.
Conforms to: API TC, JASO FC, GLOBAL GC performance requirements.
Standard Pack 1 Bottle
Box Quantity 24 Bottles

LUB6005S

9 316596 059973

1 Litre 2 Stroke Oil - Chamber Pack (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1 Bottle
Box Quantity 12 Bottles

LUB6006

9 316596 059980

4 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1 Container
Box Quantity 4 Containers

LUB6007

9 316596 059997

20 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1
Use with our LUB7540 tap

LUB5286

9 316596 059911

205 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1

CheckSpark™ Engine Ignition Analyser

14114559

CheckSpark™ safely tests for proper spark, shorted or fouled spark plugs and even open or broken spark plug wires.

This engine ignition analyser is a highly accurate diagnostic sensor that uses micro-circuit technology to troubleshoot why your outdoor power equipment or vehicle will not start. Simply clip connect the CheckSpark tester to the plug wire of the non-running engine and firmly pull the recoil starter or energize the electric starter long enough to turn the engine over several times. One of three LED's will indicate the engine's electrical condition.

FEATURES AND BENEFITS

- Quickly and safely tests for proper spark on most 2 stroke and 4 stroke engines (small engines and vehicles) with and without electronic CD ignitions.
- Eliminates guesswork
- Tests: Proper Voltage, High Voltage, Low Voltage, No Voltage
- One person - Hands free operation, just clip on the spark plug wire and turn the engine over.
- Simple and reliable for home, shop and professional use
- Patented gripper hook
- Saves time and money
- Simple engine type slide switch – Switches between vehicles or small engines.
- Solid Red – No Spark (less than 200 Volts)
- Red Flashing – Voltage too low (250 to 2,500 Volts)
- Green Flashing – Spark OK / Plug Firing (3,000 to 13,000 small engine setting / 3,000 to 28,000 Automotive setting)
- Yellow Flashing – Voltage too high (More than 15,000 volts small engine setting / More than 33,000 volts automotive setting)

E-Z Reacher® PRO

The new E-Z Reacher® Pro is the heavy duty, no-rust tool for the toughest jobs in industrial and maintenance settings. You will be able to easily pick up everything from broken glass to a brick without painful bending, and hold it firmly and safely with the included locking feature. Anyone wanting to work more quickly, efficiently and safely needs this professional grade tool.

Nimble enough to pick up a coin...

Yet strong enough to pick up a brick!

28 TON LOG SPLITTER

OREGON® Log Splitter

The OREGON® 28 Ton log splitter provides commercial quality and power at an affordable price. Fitted with a commercial grade 9.5 hp 277 cc Kohler Command Pro CH395 engine and an auto return valve with an 11.5 second cycle time our 28 Ton Log Splitter is able to split logs up to 24". Ergonomically designed, our 28 Ton Log Splitter is at the right height reducing fatigue and can be operated either horizontally or stood up and operated vertically so it remains easy to use in any situation. Optional accessories available include a log catcher to keep split logs at an easy workable height and 4–way wedge for more splits with less effort. Fitted with quality features throughout this log splitter will provide many years of reliable service.

Part number: OMKLOGSPLITTER

Features:
Quality Engine – Kohler Command Pro CH395 (9.5 hp / 7.1 kw / 277 cc) engine.
Horizontal and vertical operation
28 Tons of splitting force (US 28 Tons = 25.4 tonnes Force)
Auto return valve
Two stage pump 16 GPM (60.56 litres per minute)
Valve – Ergonomically positioned for operator comfort
Steel coil covered hoses – protected for longer life.
Wedge: 8" (203.2 mm)
Cylinder Connection: Engineered for increased strength
Stripper Plates: Integrated for rigidity, capable of removing stuck logs
Log Cradle: Integrated log cradle keeps logs in place for hands free (safer/faster) splitting
Solid Foot Piece: Increased Strength
In–Tank Suction Screen: Better hydraulic fluid filtration
Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
Beam Lock: Keeps beam secure
Boxed Drawbar with Handle: Designed for strength and manoeuvrability
Utility Jack: Adjustable utility jack provides solid support during splitting
Solid Foot Piece: Increased strength

SPECIFICATIONS:
Beam: 6" x 9" (152.4 mm x 228.6 mm)
Capacity: 28 Tons of splitting force (US 28 Tons = 25.4 tonne Force).
Cycle Time: 11.5 seconds.
Engine: Kohler Command Pro CH395 (9.5hp / 7.1kw / 277cc) commercial grade horizontal shaft engine.
Hydraulic Ram Cylinder: 4.5" x 24" (114.3 mm x 609.6 mm)
Hydraulic Tank Capacity: 7.5 Gallons (28.39 litres) – Plenty of room for fluid to keep flowing and stay cool.
Maximum Log Length: 24" (609.6 mm)
Operating Position: Horizontal and vertical operation.
Pump: Two stage 16 GPM (60.56 litres per minute)
Pump Working Pressure: 3,500 PSI +/- 100 PSI
Shipping Dimensions: Crate Length 1870 mm x Width 930 mm x Height 630 mm
Shipping Weight: 320 kgs (Including crate)
Tow Hitch: 2" (50 mm)
Unit Total Weight: 308 kgs (680 lbs)
Valve: Auto return valve - speeds up the log splitting process.
Wedge: 8" (203.2 mm)
Wheels / Tyres: 4.80" x 12" Hub-less wheel/tyre assemblies. DOT certified (suitable for 45 mph / 72.42 kph road speed).
Working Height: 31.5" (800 mm)
Warranty: 3 years (limited) on steel components; 3 years engine (as rated by manufacturer); 1 year on major hydraulic components; Full warranty details available upon request.
Standard Pack 1

Standard Pack 1

WELCH PLUG, SCREEN AND LEVER ASSORTMENT

CAS940

9 316596 024643

Welch Plug Screen and Lever Assortment
Components can be ordered separately
Contains 160 pieces

10 x CAS459300	Lever Walbro 166-55, -46
10 x CAS459311	Check Valve Screen 140-37, -36
10 x CAS459317	Circlip Walbro 16-42
10 x CAS459322	5/16" Welch Plug Walbro 88-28/54
10 x CAS459331	5/32" Welch Plug Walbro 88-89
10 x CAS459333	1/4" Welch Plug Walbro 88-110
10 x CAS460312	Needle Tillotson 34-216 / HS, HU
10 x CAS460313	Lever Tillotson 155A-29 / HU
10 x CAS460314	Screen Tillotson 95-177
10 x CAS460315	9/32" Welch Plug Tillotson 179-62 / HU
10 x CAS460317	Lever Tillotson 155A-53 26 HS
10 x CAS460318	11/32" Welch Plug Tillotson 179-59 HS Large
10 x CAS460319	7/32" Welch Plug Tillotson 179-60 HS Small
10 x CAS460320	Needle Tillotson 34-210 HK
10 x CAS460321	Lever Tillotson 155A-53 HK
10 x CAS460322	Screen Tillotson 95-197 HK

Standard Pack 1

WALBRO WELCH PLUG KIT

OMK400-607

9 316596 081943

Genuine Walbro Welch plug kit.
10 sizes (125 welch plugs)
All of the most popular Walbro welch plugs in one easy Grab kit.
Standard Pack 1 Kit

400-607

CARBURETTOR REPAIR TOOLS

OMK500-500

9 316596 084753

Genuine Walbro check valve carburettor repair tool kit
Kit Contains :
Walbro 500-13 metering lever gauge
Walbro 500-14 check valve installation tool.
Walbro 500-15 welch plug installation tool and check valve installation tool.
Walbro 500-16 welch plug removal tool.
Walbro 500-501 check valve removal tool
Walbro 500-502 check valve removal tool.
Standard Pack 1

500-500

BRG6392
9 316596 073948

GA Fluoro Orange Chainsaw Chaps - Large 1050mm
With Quick Release Strap and Buckle and also feature Arbor Tex Mesh.
Manufactured from waterproof nylon with Arbor Tex mesh, with quick release strap and buckle. ArborTex chainsaw protective fabric is a lightweight and flexible high performance material that clogs and resists cutting. Arbortex fabrics are layered into specially engineered protective pads that provide outstanding performance and protection.
Upon contact with a chain saw chain, the fine filaments of the fabric are easily pulled and drawn into the chain saw to fill the moving parts of the chain saw. The multiple layers of ArborTex work by clogging and jamming the chain against the bar and sprocket.
Standard Pack 1
Australian Standards Approved - Manufactured to AS/NZS4453.3:1997

SV6310

Standard Pack 1

BRR7418

9 316596 087143

Weedwakka Multi Cut plastic brushcutter blade.
Fits: All straight shaft brushcutters, designed to cut vegetation ranging from fine lawn to thistles, thin woody weeds and grass to knee height. The blades are easy to see when spinning, enabling accurate cutting around trees, along walls and edges.
Replaces nylon cord and conventional plastic blades. The Weedwakka is installed in the same manner as a conventional steel blade, a reducer washer is also included for 20 mm applications.
Standard Pack 1.

For replacement blades use either our BRR7420 (6 pack) or BRR7422 (50 pack)

BRR7420

9 316596 087150

Weedwakka 6 pack of replacement plastic blades, skin packed for retail display.
Standard Pack 1

Use with our BRR7418 Weedwakka Multi Cut Head.

BRR7422

9 316596 087167

Weedwakka bulk 50 pack of replacement plastic blades.
Standard Pack 1

Use with our BRR7418 Weedwakka Multi Cut Head

9" 4 Tooth Plastic Blade with 1" Hole
Standard Pack 1

PLASTIC BLADES SET

BRP3169

9316596020027

Stihl Brushcutter Blade Set
OEM: 4111 007 1001
Standard Pack 1 (Pack of 12 blades)

WEEDWAKKA

BRR7415

9316596087136

Weedwakka Heavy Duty brushcutter blade.
Fits: All straight shaft brushcutters, cuts everything from lawn to blackberries, tough woody weeds, tall grass and suckers to thumb thickness.
Replaces conventional steel and plastic blades. Articulated steel blades deflect if they hit a solid object.
The weedwakka is installed in the same manner as a conventional steel blade and has a 25 mm hole, a reducer washer is also included for 20 mm applications.
Standard Pack 1

BRR7418

9316596087143

Weedwakka Multi Cut plastic brushcutter blade.
Fits: All straight shaft brushcutters, designed to cut vegetation ranging from fine lawn to thistles, thin woody weeds and grass to knee height. The blades are easy to see when spinning, enabling accurate cutting around trees, along walls and edges.
Replaces nylon cord and conventional plastic blades. The Weedwakka is installed in the same manner as a conventional steel blade, a reducer washer is also included for 20 mm applications.
Standard Pack 1.

For replacement blades use either our BRR7420 (6 pack) or BRR7422 (50 pack)

BRR7420

9316596087150

Weedwakka 6 pack of replacement plastic blades, skin packed for retail display.
Standard Pack 1

Use with our BRR7418 Weedwakka Multi Cut Head

BRR7422

9316596087167

Weedwakka bulk 50 pack of replacement plastic blades.
Standard Pack 1

Use with our BRR7418 Weedwakka Multi Cut Head

SQUARE MAGNUM GATORLINE™ - SMALL DONUTS

OMK561498

7 332437 091430

Replaces OMK69-190

Square Magnum Gatorline™ .095" (2.40 mm) x 50ft (Approx 15 metres) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

NEW

OMK561509

7 332437 091485

Replaces OMK69-191

Square Magnum Gatorline™ .105" (2.65 mm) x 40ft (Approx 12 metres) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

NEW

OMK561484

7 332437 091393

Replaces OMK69-194

Square Magnum Gatorline™ .120" (3.00 mm) x 30ft (Approx 9 metres) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 16)

NEW

SQUARE MAGNUM GATORLINE™ - 225G (1/2LB) DONUTS

OMK561513

7 332437 091522

Replaces OMK22-995

Square Magnum Gatorline™ .095" (2.40 mm) x 112ft (Approx 34 metres), 1/2 lb (225g) Donut - Clear nylon with green high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

NEW

OMK561514

7 332437 091539

Replaces OMK22-905

Square Magnum Gatorline™ .105" (2.65 mm) x 92ft (Approx 28 metres), 1/2 lb (225g) Donut - Clear nylon with pink high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

Standard Pack 1 Donut
(Box Quantity 18)

NEW

OMK561515

7 332437 091546

Replaces OMK22-930

Square Magnum Gatorline™ .120" (3.00 mm) x 72ft (Approx 22 metres), 1/2 lb (225g) Donut - Clear nylon with orange high strength inner core.
Magnum Gatorline™ Heavy Duty Professional Trimmer line from OREGON® is a dual polymer trimmer line, reinforced with Aramid fibres.
- Outer Layer Prevents Welding
- User Friendly Donut - fewer tangles
- High Strength Inner Core - resists breaking
- Long Life, excellent strength.

(Box Quantity 4)

BRT - Brushcutter / Trimmer Line

Part No	Description	Image

FLEXI-BLADE™

OMK21-606

0 32488 21606 2

FlexiBlade .105" (2.70 mm) x 819 ft (249 metres) Large spool.
FlexiBlade™ is a patented cutting system with the power to sever weed stalks up to 3/4" in diameter with ease. The extreme cutting force of FlexiBlade™ for cutting weeds and heavy grass comes from its serrated edges. The serrations act like the teeth of a saw, bringing multiple cutting surfaces into contact with the vegetation being cut. FlexiBlade™ is made from a high strength reinforced composite material for long wearing durability.

FlexiBlade ™ can be used in most manual feed trimmer heads.
FlexiBlade ™ is not recommended for most bump feed trimmers.

- Leaves a cleaner cut in grass
- Cuts through dense weeds and berry vines
- Cuts fast, even in heavy cutting conditions
- More cutting power than trimmer line
- Quieter than trimmer line
- Safer than steel weed blades

Standard Pack 1

PLEASE NOTE: For CAS and OMK prefix carburettor parts, please refer to the 'Carburettor Parts - Hand Held Equipment' section tab.

OPTIMUM ROUND LINE PERFORMANCE

Superior Wear **formulated using the highest quality copolymers to provide maximum line life**

Outstanding Toughness **engineered for ultimate impact resistance**

Processed to minimise line split and frays

Designed to provide weld resistant performance

OWNED ADAPTED SUPPORTED

Made in USA

OILS & LUBRICANTS

BAR & CHAIN OIL

LUB6008

9 316596 060009

1 Litre Bar and Chain Oil
Standard Pack 1 Bottle
(Box Qty 12 Bottles)

LUB6009

9 316596 060016

4 Litre Bar and Chain Oil
Standard Pack 1 Container
(Box Qty 4 Containers)

LUB6010

9 316596 060023

20 Litre Bar and Chain Oil
Standard Pack 1
Use with LUB7540 Tap

LUB6011

9 316596 060030

205 Litre Bar and Chain Oil
Standard Pack 1

LUB6760

9 316596 080311

1 litre bottle of **Oregon** bar and chain oil
Oil contains a tacifier, making it low sling. This helps the oil cling to the bar and chain, ensuring longer life and better performance.
Standard Pack 1
(Box Quantity 12)

OREGON®

LUB6765

9 316596 080328

4 litre container of **Oregon** Bar and Chain Oil
Oil contains a tacifier, making it low sling. This helps the oil cling to the bar and chain, ensuring longer life and better performance.
Standard Pack 1 Container
(Box Quantity 12)

OREGON®

LUB6767

9 316596 080335

20 litre drum of **Oregon** Bar and Chain Oil
Oil contains a tacifier, making it low sling. This helps the oil cling to the bar and chain, ensuring longer life and better performance.
Standard Pack 1

OREGON®

2-STROKE OIL

Please Note: Always refer to the engine manufacturer's manual for the correct fuel/oil mixing ratio for your engine.

LUB6184
9 316596 070831
200ml 2 Stroke Oil (Dyed Green)
A high quality two stroke oil for use in small air-cooled two stroke engines.
Due to its excellent thermal stability and offering a low ash performance.
Conforms to: API TC, JASO FC, GLOBAL GC performance requirements.
Standard Pack 1 Bottle
Box Qty 24 Bottles

LUB6005S
9 316596 059973
1 Litre 2 Stroke Oil - Chamber Pack (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1 Bottle
Box Qty 12 Bottles

LUB6006
9 316596 059980
4 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1 Container
Box Qty 4 Containers

LUB6007
9 316596 059997
20 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1
Use with our LUB7540 tap

LUB5286
9 316596 059911
205 Litre 2 Stroke Oil (Dyed Light Blue)
A high performance semi synthetic 2-stroke oil. Formulated for oil injection and premix systems.
Conforms to: API TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, GLOBAL G.D performance requirements.
Standard Pack 1

LUB4062
9 316596 032303
205 Litre 2 Stroke Oil (Dyed Green)
A high quality two stroke oil for use in small air-cooled two stroke engines.
Due to its excellent thermal stability and offering a low ash performance.
Conforms to: API TC, JASO FC, GLOBAL GC performance requirements.
Standard Pack 1

LUB6796
9 316596 080694
Two Stroke Fuel Mixing Bottle
Mixes 1 litre of fuel to 25:1, 32:1, 40:1 and 50:1 ratios.
Simply fill fuel to the one litre mark then add two stroke oil to the recommended ratio as per the equipment manufacturer's specifications.
Ideal for brushcutters, trimmers, chainsaws and lawnmowers.
Standard Pack 1
*Please note - this is a mixing bottle, not a fuel transport container.

LUB4055
9 316596 059874
Plastic Measuring Cup
Suits 2 Stroke Oil
Standard Pack 1

10W-40 4 STROKE OIL

LUB6120

9 316596 070152

1 Litre 4 Stroke Oil - 10W-40.
Suits many Honda, Kawasaki, and Kohler Engine Models
Standard Pack 1 Bottle
(Box Qty 12 Bottles)

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

LUB6125

9 316596 070169

4 Litre 4 Stroke Oil - 10W-40.
Suits many Honda, Kawasaki, and Kohler Engine Models
Standard Pack 1 Container
(Box Qty 4 Containers)

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

LUB6127

9 316596 070367

20 Litre 4 Stroke Oil - 10W-40
Suits many Honda, Kawasaki, and Kohler Engine Models
Standard Pack 1

Use with our LUB7540 tap

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

LUB6139

9 316596 076352

205 Litre 4 Stroke Oil - 10W-40
Suits many Honda, Kawasaki, and Kohler Engine Models
Standard Pack 1

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

SAE30 - 4 STROKE OIL

LUB6001

9 316596 059935

1 Litre 4 Stroke Oil SAE30
Suits many Briggs and Stratton Models
Standard Pack 1 Bottle
(Box Qty 12 Bottles)

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

LUB6002

9 316596 059942

4 Litre 4 Stroke Oil SAE30
Suits many Briggs and Stratton Models
Standard Pack 1 Container
(Box Qty 4 Containers)

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

LUB6003

9 316596 059959

20 Litre 4 Stroke Oil SAE30
Suits many Briggs and Stratton Models
Standard Pack 1

Use with our LUB7540 tap

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

SAE30 - 4 STROKE OIL

LUB6004

9 316596 059966

205 Litre 4 Stroke Oil SAE30
Suits many Briggs and Stratton Models
Standard Pack 1

Always refer to the engine manufacturer's manual for the correct oil specifications to suit your engine.

SAE 5W/50 SYNTHETIC OIL

LUB6625

9 316596 077892

1 Litre Bottle SAE 5W/50 Synthetic Oil (SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR Ride-on and conventional Ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.
Standard Pack 1 Bottle
(Box Qty 12 Bottles)

Always refer to the engine or transmission manufacturer's manual for the correct oil specifications to suit your equipment.

LUB6627

9 316596 077885

4 Litre Bottle SAE 5W/50 Synthetic Oil (SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR Ride-on and conventional Ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.
Standard Pack 1 Container
(Box Qty 4 Containers)

Always refer to the engine or transmission manufacturer's manual for the correct oil specifications to suit your equipment.

LUB6530

9 316596 092819

NEW

20 Litre Drum SAE 5W/50 Synthetic Oil (API SL/CF Oil Classification)
Full Synthetic Oil for Hydrostatic Transmissions on ZTR Ride-on and conventional Ride-on mowers.
Premium Quality Full Synthetic multi-grade oil recommended for all climate applications. Also for Large Petrol, Medium Diesel and Turbo Diesel engines used in the most arduous conditions where a CF rating is recommended.

This is a high performance synthetic engine oil, formulated from exceptional base oils and using additives which represent the latest technology.
Provides outstanding wear protection, thermal and oxidation stabilty and superior overall lubrication.

Conforms to: API (American Petroleum Institute) SL / CF and ACEA (European Automobile Manufacturer's' Association) A3 / B3 / B4 oil classification performance requirements.
Standard Pack 1 Drum.

Always refer to the engine or transmission manufacturer's manual for the correct oil specifications to suit your equipment.

HYDRAULIC OIL

LUB7827

9 316596 096770

NEW

4 Litre Container AW46 Hydraulic Oil
Suits many applications including the hydraulic system of our Oregon 28 Ton Log Splitter (OMKLOGSPLITTER).
This is a high quality anti-wear hydraulic oil containing anti-oxidant, anti-corrosion and anti-foam additives. It has very good stability and demulsibilty properties and meets the requirements of major hydraulic pump and equipment manufacturer's'. This oil is suitable for all hydraulic fluid power transmission systems subjected to severe duty.

Conforms to: Vickers V-104C and 35VQ25 vane, 1-286-S, M2950-S; Denison HF-1, HF-2, HF-0; Racine, variable volume vane pumps; Cincinnati Milacron, P-68, P-69, P-70; DIN 51524 Part 2, Lee-Norse 100-1; Jeffrey No. 87; Ford M-6C32, US Steel 136, 127; B F Goodrich 0152; General Motors LH-04-1, LH-06-1, LH-15-1; Commercial Hydraulics (except PM500 Series) AFNOR E48-603 performance requirements.

Standard Pack 1 Container
Box Quantity 4 Containers

Always refer to the equipment manufacturer's' manual for the correct oil specification to suit your equipment.

2-STROKE OIL

Give your engine the best protection with our 2-Stroke Oil.

A high performance semi synthetic 2-Stroke oil.

Formulated for oil injection and premix systems.

Conforms to: API, TC, JASO FC, ISO GD, EGC, EGD, T.I.S.I, Global G.D performance requirements

LUB6007 LUB6006 LUB6005S

Visit the **LUB** prefix of the mower section to view the full range of 2-Stroke Oils.

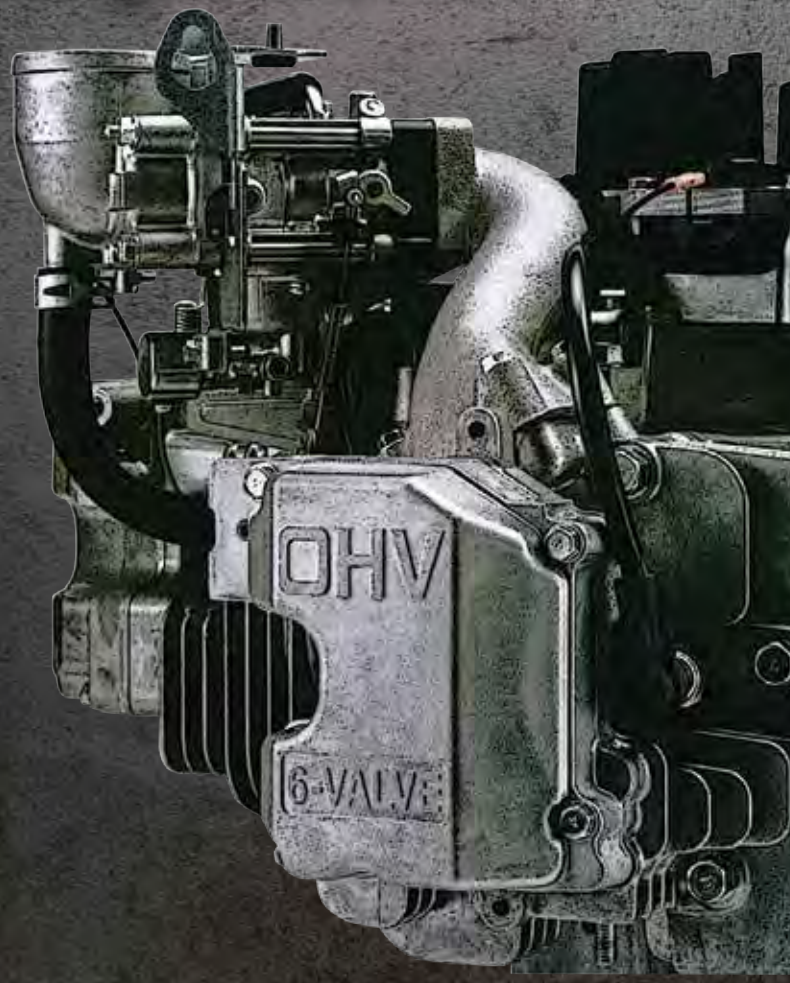
Kawasaki

Engines

Do you have the critical component?

If there's something other than a Kawasaki Engine powering your equipment, you're missing the critical component for top performance.

World-renowned engineering helps ensure that Kawasaki Engines deliver unmatched power and durability, and most important, reliability. It's why Kawasaki Engines have a better reputation than any competitor — and it's why professionals insist on them everywhere the right engine matters.



CRITICAL POWER

AIR - Air Filter Oil

Part No	Description	Image

AIR FILTER OIL

AIR6281

9 316596 072439

FAB1 Spray On Air Filter Oil 13.5oz / 383gm Aerosol Can, is a water resistant highly advanced synthetic based formula suitable for all oil type fabric and foam filters. The super tacky polymer and co-polymer additives attract and hold onto fine dust particles while the dark blue colour allows you to ensure even coverage.
Standard Pack 1 Can
(Box Quantity 12 Cans)

AIR7643

9 316596 092369

PJ1 Fabric Air Filter Spray.
Ideal for new and cleaned filters which must be oiled before use, to ensure proper filtering performance.
- Maximises Filter Efficiency
- Fast Penetration
- Traps Dust, Sand and Dirt
- Water Repelling
- Easy To Use, No Waste

Net Weight: 15oz (425.3g)
Standard Pack 1 Can

ADHESIVES, HAND CLEANER, LUBRICANTS

ADV5671

9 316596 049875

ThreeBond 1305 Stud Fix and Seal - High Strength.
Suitable for studs, bolts and screws. Permanent bonding and sealing for gaps maximum 0.3mm
Standard Pack 1

ADV5677

9 316596 049936

ThreeBond 1104 Liquid gasket. 50 gram tube.
- Grey synthetic rubber.
- Non corrosive, oxygen sensor safe
- Oil resistant, gasoline resistant, chemical resistant
- High resistance to temperature -40 degrees C to 150 degrees C.
- Excellent gap filling ability (maximum gap fill 0.5mm)
- Fuel, diesel, and LPG resistant
- Ideal for the sealing of timing chain cases, side covers, thermostat covers, fuel pumps, crank cases, oil pans.

Standard Pack 1

ADV3559

9 316596 000821

ThreeBond 1211 RTV Silicone Liquid Gasket - White 100 gram tube.
Suitable for use in temperatures ranging from -60c to +250c
- Non corrosive O2 Sensor safe.
- High resistance to temperature, oils, fuel and coolants
- Low viscosity for fine gaskets, high vibration resistance - ideal for two strokes.
- Ideal for complex three point surface joints such as chain case / oil pan / crank case etc.

Standard Pack 1

ADV7725

9 316596 094233

NEW

ThreeBond 1207B Black Liquid Gasket 100 gram tube.
Designed specifically as liquid gasket for flange surfaces which must resist extreme vibrations, eg rocker covers, sumps, water pumps etc.
ThreeBond 1207B is a single component, solvent free and non-acid liquid gasket based on RTV (Room Temperature Vulcanizing) silicone with low odour emmision. Within a very short time it forms a rubber-like highly elastic gasket completely adapted to the surface structure of the flange facing.
Features:
- Extremely fast curing.
- Excellent adhesion even to slightly contaminated surfaces.
- Excellent chemical resistance against coolants and engine oil.
- Acceleration of the curing process by heat and contact with the medium.
- Normal Disassembly.
- Outstanding mechanical and thermal resistance.
- No shrinkage and no generation of corrosive gasses.

Standard Pack 1

ADV7723

9 316596 094226

NEW

ThreeBond Pando 391D Aerosol Gasket Remover 420ml can.
A powerful aerosol type gasket remover that quickly and easily strips off liquid gasket, packing and sealing compounds and loosens baked on solid gaskets, greatly reducing time labour and effort required. Also ideal for stripping off burnt oil or carbon.
- ThreeBond Pando 391D does not attack metal, stone, glass or wood.
- **DO NOT** spray onto plastic or rubber as these items may swell up or dissolve!

Directions for Use
1. Shake can thoroughly before use.
2. Before spraying cover all surrounding areas that you do not want to be affected with newspaper, only the gasket surface to be cleaned should be exposed.
3. Wear protective glasses.
4. Spray an appropriate quantity of gasket remover onto the surface you wish to be cleaned.
5. The old gasket material will swell and soften in 5 to 10 minutes. Then remove it with a scraper, etc.

GA Citrus Hand Cleaner in a 1 litre container with pump –
Features -
- Natural Citrus Oil
- Thick Lotion Style Cream
- Scrubber Beads for added cleaning power
- Lanolin for a natural skin emollient

APPLICATION
GA Citrus hand cleaner may be safely used in most industry types for the removal of a variety of soiling. This hand cleaner is currently used in:
- Mechanical Workshops
- Printing Industry
- Mining
- Government Authorities
- Engineering

Due to the natural citrus oil that is used in this hand cleaner, industrial dermatitis is virtually eliminated. This heavy lotion can go into pre-existing wall dispensers, or simple stand alone dispensers using lotion pumps right from the container.
Standard Pack 1

For a 4 Litre container option use our ADV7441

LUB7601

9 316596 091362

Inox MX8 PTFE 300 Gram Aerosol Grease is a premium industrial grade, extreme pressure, high temperature lithium complex and PTFE base grease.
The extreme pressure and anti-wear properties of INOX-mx8 grease gives long service life under high loading and shock loading conditions. From very low to very high temperature environments. These special characters of sheer stability, combined with the inclusion of effective rust, oxidation and corrosion inhibitors and tackiness adhesives, ensures this grease to be the preferred recommendation for sealed for life anti-friction bearings.

- INOX-mx8 has the ability to prevent scuffing and reduce wear under high load and shock load conditions, together with its excellent high shear stability and high temperature operation, and makes INOX-mx8 the preferred choice over other extreme pressure greases.
- INOX-mx8 resists "squeeze out" from surfaces requiring lubrication under load conditions.
- INOX-mx8 has excellent resistance to water and water wash out even at elevated temperatures. Effective lubrication is maintained and in these situations it also gives protection against rusting and corrosion.
- INOX-mx8 will not thin out because it is shear resistant or thicken because it is resists oxidation.
- P.T.F.E. - Polytetrafluoroethylene is a premium grade anti-friction medium which gives increased lubrication and reduces operating temperatures to bearings, bushes, shafts, gears, chains, splines, PTO's, turntables, cables, universals, CV and ball joints

Standard Pack 1
(Box Quantity 12 cans)

FUEL TEST KIT

FAD7804

9 316596 093298

Fuel Test Kit
A complete fuel diagnostic kit that quickly identifies fuel related problems. This revolutionary service tool gives you and your customer a complete understanding of fuel quality while educating about the effects of ethanol. The kit includes seven easy fuel tests you can perform to identify ethanol fuel related problems, quickly diagnose repairs, and end warranty disputes.

The kit includes the following tests:
1. Fuel Quality Test Swabs - quickly test fuel quality and level of decay of two and four cycle petrol that contains ethanol and determine if the fuel is fresh, stale or bad.
2. Two Cycle Oil Indicator Test - indicates the amount of oil present in a two cycle fuel / oil mixture.
3. Diesel Fuel Quality Test - determines the quality of diesel fuel.
4. Two and Four Cycle Fuel Test - determines the quality of non ethanol fuel (High Sensitive Test).
5. Phase Separation Test - detects phase separated ethanol blended petrol and provides immediate results to show your customer.
6. Oil Quality Test - illustrates why customers should change their oil more frequently.
7. Bound Water Test - indicates the amount of water present prior to phase separation.

- Fast and easy diagnostic tool allows you to test whether fuel is fresh, marginal or bad.
- Quickly determine the source of potential equipment problems.
- Identify fuel quality before engine damage occurs.
- Saves time and costs for equipment repair.
- Identifies marginal fuel in order that it may be revitalized using Mechanic In A Bottle.
- Identifying and revitalizing marginal fuel is environmentally friendly as it avoids the need for disposal of hazardous waste material.

Made in the U.S.A, patents pending.
Find and fix bad fuel using the Mechanic In A Bottle Gasoline Test Kit. This diagnostic tool allows you to test ethanol-blended fuel in all equipment with two cycle and four cycle engines in order to determine if your fuel is fresh, marginal, or bad. This kit allows you to quickly identify and easily identify the sources of potential equipment problems before damage occurs, saving time and cost for equipment repair.

FAD7808

9 316596 095247

Mechanic In A Bottle™ Fuel Test Swabs
100 Quantity Bulk Pack
The test that quickly and confidently identifies between fresh, marginal, stale and bad quality fuel.
Directions:
1. Dip test swab in fuel, immerse for 10 seconds.
2. Let swab air dry, it will take from 2-5 minutes to develop.
3. Compare colour on end of test swab to colour on fuel test chart.
4. Note: Indicator colour takes several more minutes to develop for 2-Cycle mixed fuels.

(Replacement fuel test swabs for our Mechanic In A Bottle™ fuel test kit part number FAD7804 or dealer start-up kit part number FAD7806.)
Standard Pack 1 (Bulk Pack of 100)

MECHANIC IN A BOTTLE

FAD7800

9 316596 093274

Mechanic In A Bottle™ 4 oz (118ml).
- Quickly fix engines without removing the carburettor.
- Reconditions rubber / plastic components.
- Rejuvenates rubber gaskets that may have dried out from ethanol.
- Removes water that causes corrosion and poor running.
- Restores old, decayed fuel by breaking down carbon deposits and adding an octane booster to replace lost octane.
- Keeps engine in top working condition, avoiding repairs and down time.
  Made in the USA (and USA EPA registered.)

Fix poor or non-running engines with Mechanic In A Bottle. This synthetic fuel additive works in your power equipment with two cycle and four cycle engines. It removes all varnish in the fuel system without having to remove the carburettor, removes carbon deposits, removes water, reconditions rubber and plastic components and revitalizes old fuel. Mechanic In A Bottle rejuvenates your equipment's fuel system so that it starts efficiently and operates in top condition.
Standard Pack 1 Bottle
(Box Quantity 12 Bottles)

NEW

FAD7802

9 316596 093281

Mechanic In A Bottle™ 8 oz (236ml).
- Quickly fix engines without removing the carburettor.
- Reconditions rubber / plastic components.
- Rejuvenates rubber gaskets that may have dried out from ethanol.
- Removes water that causes corrosion and poor running.
- Restores old, decayed fuel by breaking down carbon deposits and adding an octane booster to replace lost octane.
- Keeps engine in top working condition, avoiding repairs and down time.
- Made in the USA (and USA EPA registered.)

Fix poor or non-running engines with Mechanic In A Bottle. This synthetic fuel additive works in your power equipment with two cycle and four cycle engines. It removes all varnish in the fuel system without having to remove the carburettor, removes carbon deposits, removes water, reconditions rubber and plastic components and revitalizes old fuel. Mechanic In A Bottle rejuvenates your equipment's fuel system so that it starts efficiently and operates in top condition.

ETHANOL SHIELD

FAD7901

9 316596 093311

Ethanol Shield 4 oz (118ml).
- Ultra-Concentrated.
- For two and four cycle engines.
- Protects all engine components from corrosion / varnish due to ethanol blended fuels.
- Envelopes water so it passes safely through the fuel system and does not bond.
- Keeps your engine starting and running easily all year.

Made in the USA (and USA EPA registered including automobile use)
Prevent future engine problems with Ethanol Shield. This year round fuel stabilizer is used for your power equipment with two cycle and four cycle engines. This preventative maintenance formula eliminates then prevents ethanol related problems. It removes water, prevents corrosion, provides easy engine starting all year, and keeps stored fuel fresh.
Standard Pack 1 Bottle
(Box Quantity 12 Bottles)

FUE6534

9 316596 077168

Scepter, 53 Litre DuraMax
Size: 34" (863 mm) x 16.5" (419 mm) x 12.75" 323 mm
DuraMax is a large, portable fuel container on wheels designed for industrial, commercial, and recreational applications.
Made from high density polyethylene, the DuraMax fuel container is resistant to corrosion and denting. Its sturdy 6" wheels and extra-deep handle make it easy to deliver fuel dockside when refueling boats or powered water craft. The patented gas pump handle allows you to eliminate spillage and overfills by stopping and restarting the flow of gas. The DuraMax can stand vertically or lay horizontally when refueling. It has a flow rate of 7.5 litres per minute in siphon mode.
Replaces OEM: 06792
Standard Pack 1

WATER CONTAINER

FUE7825

Scepter 20 Litre Plastic Water Can (Blue)
Ergo Dynamic Handle - Easy to pour.
Spout - System for continuous flow with breather tube.
Child proof closure.
Separate vent cap.
Military style jerry can for transporting water.
Replaces OEM: W520, 04933
Standard Pack 1 Can
(Pack Qty 4 Cans)

FUEL STABILIZER

FUE6326

9 316596 072705

GA 250ml Chamber Pack of Fuel Stabilizer is a highly concentrated additive designed for the treatment of both Unleaded or Diesel Fuel.
For Unleaded Fuel use 10ml to 5 Litres of fuel.
For Diesel Fuel use 250ml to 500 Litres of Fuel
GA Fuel Stabilizer will not affect seals, hoses and fittings within the fuel system. Regular use will eliminate problems associated with condensation, and prevent further biological growth from occurring. This will give rise to,

- Improved Fuel Economy
- Eliminates fuel varnish in carburettors
- Smoother acceleration
- Improved power
- Improved fuel flow (especially through filters and injectors)

This one treatment provides a solution for the elimination and control of bacteria, fungi and water contamination in diesel as well as preserving the unleaded petrol from degradation.
(Meets or exceeds the requirements of DG Compliance)
Unleaded Fuel: Stabilizes unleaded petrol and eliminates fuel varnish, removes trace water from the tank, allowing it to be simply burnt off in the combustion chamber during normal use.
Diesel Fuel: Utilising the latest in microbiological controls and surface active agents, water and biological contamination is harmlessly dissolved and dispersed into the fuel, and subsequently burnt off. Bacteria and fungi such as the common air borne spore Cladisporium Resinae appear as dark sludge like particles in the fuel reservoir. Unlike the many biocide treatments on the market that are only designed to kill bacteria, not remove and are of no use in removing water, GA fuel stabilizer will remove the entire problem.
Australian Made.
Standard Pack 1 Chamber Pack
(Box Quantity 14 Chamber Packs)

For Other Fuel Stabilizer Products refer to the "FAD" section beginning on page 958.

OIL AND FUEL ACCESSORIES

LUB6796

9 316596 080694

Two Stroke Fuel Mixing Bottle
Mixes 1 litre of fuel to 25:1, 32:1, 40:1 and 50:1 ratios. Simply fill fuel to the one litre mark then add two stroke oil to the recommended ratio as per the equipment manufacturers specifications. Ideal for brushcutters, trimmers, chainsaws and lawnmowers
Standard Pack 1

Please note: This is a Mixing Bottle, Not a Fuel Transport Container.

OIP6408

9 316596 074051

Plastic Oil Drain Pan
8 Litre Capacity with a peg to drain oil filters
Standard Pack 1

TOL7442

9 316596 087976

Oil change service kit, makes oil changes a breeze!
Ideal for all garden products that feature a four stroke petrol engine.
This kit contains a pump and tube which is used to extract the used oil from the engine. Then simply pump the used oil into the supplied container, where it can then be safely disposed of. Finally use the supplied funnel to refill fresh oil to the engine.
Makes a messy job easy.
Kit Consists of:
- Oil Extraction Pump and tube
- Oil container
- Funnel

Standard Pack 1
Box Quantity 24

TOL5876

9 316596 065646

Oil Changing Pump - 4L
Strong, Robust Construction. Made of Heat Resistant Plastic.
Features one litre calibrations, overflow and vacuum safety cut out.
Standard Pack 1

GATOR SPARK PLUGS

Manufactured exclusively for Oregon® by a leading European OEM supplier.

Features:

- Terminal Nut - Solid connection, excellent resistance to vibration.
- Heavy Duty Insulator - Made of high purity alumina providing excellent heat dissipation, electrical insulation and resistance to thermal shock.
- High Quality Conductive Sealing - High heat dissipation - Prevents dangerous over-heating.
- Metal Shell - Nikel- Zinc plated steel metal shell providing a high resistance to corrosion.
- Electrode - Special anti-corrosive nickel alloy ensures superior heat resistance and durability.

TINY TACH HOUR METERS AND TACHOMETERS

TOL4018

9 316596 065349

Tiny Tach model TT2A Digital Tachometer and Hour Meter
New Adjustable Model, can be used on most engines from single cylinder lawn mowers to V8 engines.
Features:
- User adjustable spark setting from 1 spark per two revolutions to 8 sparks per revolution.
- 0 to 19,999 RPM Display
- 1/2 Second RPM Update
- Resettable Job Timer (displays hours and minutes.)
- Total hours operation (Can't be reset, ideal for hire and rental applications)

Made in America. Features Quartz Accuracy.
Standard Pack 1
Please Note: This new Upgraded Tiny Tach model TT2A replaces both of our TOL5123 and TOL5124 Tiny Tach models.

TOL6131

9 316596 070442

Hobbs Hour Meter 12 V DC
Standard Pack 1

TOL6514

9 316596 075522

Professional Workshop Quality Universal Hand Held Tachometer
Model PET-1000 suits 2 and 4 stroke engines, comes complete with long life lithium battery. Accurate to within 10 rpm and has a maximum reading of 19,980 rpm.
Suitable for testing 2 stroke - 1 and 2 cylinder engines
4 stroke - 1 to 4 cylinder engines
Standard Pack 1

IGNITION ANALYSER

TOL7829

9 316596 096909

CheckSpark Engine Ignition Analyser
CheckSpark safely tests for proper spark, shorted or fouled spark plugs and even open or broken spark plug wires.
This engine ignition analyser is a highly accurate diagnostic sensor that uses micro-circuit technology to troubleshoot why your outdoor power equipment or vehicle will not start.
Simply clip connect the CheckSpark tester to the plug wire of the non-running engine and firmly pull the recoil starter or energize the electric starter long enough to turn the engine over several times.
One of three LED's will indicate the engine's electrical condition
- Solid Red - No Spark (less than 200 Volts)
- Red Flashing - Voltage too low (250 to 2500 Volts)
- Green Flashing - Spark OK / Plug Firing (3000 to 13000 small engine setting / 3000 to 28000 automotive setting)
- Yellow Flashing - Voltage too high (More than 15000 volts small engine setting / More than 33000 volts automotive setting)

Features and Benefits
- Quickly and safely tests for proper spark on most 2 stroke and 4 stroke engines (small engines and vehicles) with and without electronic CD ignitions
- Eliminates guesswork
- Tests: Proper Voltage, High Voltage, Low Voltage, No Voltage
- One person - Hands free operation, just clip on the spark plug wire and turn the engine over
- Simple and reliable for home, shop and professional use
- Patented gripper hook
- Saves time and money
- Simple engine type slide switch - Switches between vehicles or small engines

MoJack Workbench
The MoJack Workbench is an accessory attachment for our
TOL5731 Mojack Pro ride on mower and ZTR lift
This workbench allows you to get small projects up off the ground.
Features and Benefits:
- Safely and efficiently work on walk behind Lawnmowers and small engines.
- Allows easy access to the underneath of a push mower for servicing and cleaning.
- Features a safety locking pin to prevent a push mower from slipping while performing servicing.
- Lifts up to a maximum height of 28" (711 mm)
- Will support up to 200lbs (90.7kgs)
- Easily lift small projects with one hand or a power drill.
- Lightweight and easy to store.

Workbench Dimensions when assembled:
Length: 36" (914 mm)
Width: 12" (304 mm)
Height: 4" (100 mm)
Standard Pack 1

TOL7713

9 316596 094172

All Aluminium Design Arched Folding Lightweight Ramps.
Ideal for loading lawnmowers, ATV, dirt bikes and other wheeled machinery.
- Constructed from 6061 aluminium.
- Adjustable attachment straps.
- Folds in half for easy transport and storage.

Measures: 89" Long x 12" Wide Unfolded.
46" Long x 12" Wide Folded.

Net Weight: 16lbs (7.2kgs) / Piece.

Capacity: 750lbs (340kg) when used as single ramp.
1500lbs (680kg) when used as a pair.

Standard Pack 1 Pair.

TOL7467

9 316596 089239

Telescoping Aluminium Loading Ramp 55" (1397 mm) to 85" (2159 mm)
This solid surface ramp is perfect for loading Ride-On Lawnmowers, Motorcycles and ATV's into Utes, Trucks or Trailers.
This versatile ramp telescopes to four different lengths with the push of a button 55" (1397 mm), 65" (1651 mm), 75" (1828 mm), and 85" (2159 mm).

It also stores flat in small areas with a storage length of 48" (1220 mm) and includes a nylon handle for easy carrying.

Features, Benefits and Specifications:

- Our industry leading loading ramps feature solid body construction with a punched tread pattern for safer, superior traction over rung style ramps.
- 1 qty straight telescoping ramp per carton.
- Innovative telescoping designs allow for easy and compact storage.
- Storage Length: 48" (1220 mm)
- Our ramps are perfect for loading Ride-on Lawnmowers, ATV's, Motorbikes and even small wheeled items such as power washers, welders and generators.
- Includes a cam buckle safety strap to easily secure ramp to Ute tailgates.
- Manufactured From 11 gauge aluminium
- Distributed load capacity per ramp: 625 lb (283kg) or 1250 lb (566kg) distributed capacity when used as pair. (Please note sold singularly)
- Comes with 14" support bars
- Nylon handle

Shipping Weight: 23 lbs (10.43kg)
Carton: 13" x 49" x 3"

Standard Pack 1 **(single ramp)**

WSH7742

9 316596 094394

Dinasaw ABN Grinding Wheel 145 mm x 3 mm x 22.2 mm
Suits 1/4", .325" and 3/8" Low profile chainsaw chain.
ABN Grinding wheels are made from a blend of Amber Boron Nitride (ABN) and Cubic Boron Nitride (CBN) and are designed for grinding hardened steel (standard chainsaw chains).
Features -
- ABN wheels will cut faster and cooler than aluminium oxide wheels.
- They require no maintenance, they do not need to be dressed or deglazed.
- They will maintain their profile for the life of the wheel.
- ABN grinding wheels are manufactured on CNC equipment ensuring perfect balance and dimensioning.
- Australian made.

Tips for correct use -
It is important to treat ABN grinding wheels differently to bonded wheels, the wheels can not be forced to grind, the operator must allow the wheel to cut on its own. Excessive force, abrupt grinding or worn spindle bearings or flanges will will contribute to premature wear.
Standard Pack 1

Please note: not designed for use on Tungsten Carbide chain and doing so will destroy the wheel and void warranty.

NEW

WSH7743

9 316596 094400

30" WOOD AUGER

TOL996420
9 312198 848663

NEW

30" Wood Auger.
Auger 5/8" (16 mm) Diameter x 30" (762 mm) Long.
Shank Diameter 1/2" (12.7 mm)
Twist Length: 15" (381 mm)
Overall Length: 30" (762 mm)
Made in Japan for Australian Timber.
For use in hardwood applications such as fencing, timber bridges, telephone poles, pest control applications, etc.
Hardened to 57-58 Rockwell C to increase bit life, augers however can still be sharpened with a needle or diamond file or mounted point.
Auger features an extra cutting edge which turns backwards from the leading edge to clear and size the hole.
Standard Pack 1

SAFETY GLASSES

SUN6858

9 316596 081721

Clear Lens Safety Glasses
- Fashionable, lightweight frameless wrap around design
- 99.9% UV radiation block out
- Anti scratch hard coating
- Weight: 28 grams
- Australian Standard AS/NZS1337

Standard Pack 1

SUN6860

9 316596 081738

Smoke Lens Safety Glasses
- Fashionable, lightweight frameless wrap around design
- 99.9% UV radiation block out
- Anti scratch hard coating
- Weight: 28 grams
- Australian Standard AS/NZS1337

Standard Pack 1

SUN6990

9 316596 086498

Sky Red Mirror Lens Safety Glasses
Features:
- Matte black sporty wrap around design frame.
- Rubber coated soft temple tips provide comfortable fit
- Close-fit - design offers wide and unobstructed vision
- Built in nose pads for comfort fit
- Scratch resistant lenses filter out 100% of harmful UV rays
- Australian Standard - Type: AS/NZS1337

Standard Pack 1

SUN6855

9 316596 081776

Neck Cord suits our clear safety glasses and safety sunglasses SUN6858, SUN6860, SUN6990.
Standard Pack 1

SUN6857

9 316596 081783

Storage bag and cloth for our safety glasses: SUN6858, SUN6860, SUN6990.
Standard Pack 1

SUN6859

9 316596 081790

Safety glasses and safety sunglasses display stand for our: SUN6858, SUN6860, SUN6990.
Standard Pack 1

Look for the Mark of Quality

- All of our swing back blades are manufactured from BHP steel in Australia to conform to the Australian Standards set out for rotary swing back blades (For safety and public liability reasons we only use BHP Steel).
- All of our swing back blades are heat treated in Australia by an Australian Standards accredited heat treatment company. Samples from each batch are tested by a qualified metallurgist to insure conformance to the Australian Standards.
- Every component in our swing back blade & bolt sets including the packaging is Australian made and/or sourced.
